ZBA Meeting – Monday, March 7, 2016
City Council Chambers – 7:00 p.m.

6:30 P.M. **Workshop**

Salute The Flag

Role Call

New Business

1. #2877 DUGAS POOL HOUSE

65 York Avenue, area variance to construct a pool house; seeking relief from the minimum side yard setback requirement for an accessory structure in the Urban Residential – 3 District.

Documents: [2877 DUGASPOOLHOUSE_APP_REDACTED.PDF](#), [2877 DUGASPOOLHOUSE_BUILDINSPECTDENIAL.PDF](#)

Old Business

1. #2807.1 MURPHY LANE SINGLE-FAMILY RESIDENCE

~~39 Murphy Lane, area variance modification for proposed changes to a previously approved barn conversion to single family residence; seeking additional relief from the minimum front yard and rear yard requirements in the Urban Residential – 3 District. Application adjourned to March 21.~~

Documents: [2807.1 MURPHYLNBARNRENO_39MURPHYLN.PDF](#), [2807.1 MURPHYLNBARNRENO_NEIGHBORCORRREDACTED_REDACTED.PDF](#), [2807.1 MURPHYLNBARNRENO_UPDATEDMATERIALSRECVD2-18-16.PDF](#), [2807.1 MURPHYLNBARNRENO_NEIGHBORCORRRECVD2-22-16_REDACTED.PDF](#), [2807.1 MURPHYLNBARNRENO_CORRMMITTLER_RECVD3-1-16.PDF](#)

2. #2647.1 NELSON & WILEY PORCH

317 Nelson Avenue, area variance to construct a screened porch addition to an existing single-family residence; seeking relief from the minimum rear yard setback and maximum principal building coverage requirements in the Urban Residential – 3 District.

Documents: [2647.1 NELSONANDWILEYPORCH_APPLICATION_REDACTED.PDF](#), [2647.1 NELSONWILEYPORCH_BUILDINSPECTDENIAL.PDF](#)

3. #2759.1 ANW HOLDINGS RESIDENTIAL DEVELOPMENT

~~27 Jumel Place, area variance to demolish existing structure and build seven unit condominium project; seeking relief from the maximum principal building coverage, minimum front yard setback and maximum height for a residential fence requirements in the Urban Residential – 3 District. Application adjourned to March 21.~~

Documents: [2759.1 ANWHOLDINGCONDOS_APP_REDACTED.PDF](#), [2759.1 ANWHOLDINGCONDOS_NEIGHBORCORRREVCD2-21-16_REDACTED.PDF](#), [2759.1 ANWHOLDINGS_BUILDINSPECTDENIAL.PDF](#), [2759.1 ANWHOLDINGCONDOS_CORRSBREWTON_RECVD2-29-16_REDACTED.PDF](#), [2759.1 ANWHOLDINGCONDOS_CORRSOEHEN_RECVD3-2-16_REDACTED.PDF](#), [2759.1 ANWHOLDINGCONDOS_AERIALVIEW_RECVD3-1-16.PDF](#), [2759.1 ANWHOLDINGCONDOS_PRESENTATION2-22-16.PDF](#), [2759.1 ANWHOLDINGCONDOS_CORRMPETER_RECVD3-1-16_REDACTED.PDF](#)

4. #2875 PERRON RESIDENTIAL ADDITION

35 Greenfield Avenue, area variance to construct a three car attached garage to an existing single-family residence; seeking relief from the minimum front yard setback (Woodlawn) and maximum principal building coverage requirements in the Urban Residential – 1 District.

Documents: [2875 PERRONRESIDENCEGARAGE_APP_REDACTED.PDF](#), [2875 PERRONRESIDENCEGARAGE_BUILDINSPECTDENIAL.PDF](#), [2875 PERRONRESIDENCEGARAGE_REVISDSITEPLANRECVD2-22-16.PDF](#), [2875 PERRONRESIDENCEGARAGE_SSPFLETTER.PDF](#), [2875 PERRONRESIDENCEGARAGE_BUILDINSPECTDENIAL2.PDF](#)

5. #2865 BOUGHTON GARAGE

1 Alger Street, area variance to construct an attached garage with second-story master suite addition to an existing single-family residence; seeking relief from the minimum front yard setback (Alger), minimum total side yard

setback and maximum principal building coverage requirements in the Urban Residential – 3 District.

Documents: [2865 BOUGHTONGARAGE_APP_REDACTED.PDF](#), [2865 BOUGHTONGGARAGE_REVISIONS.PDF](#)

Adjourned Items

1. #2856 MOORE HALL

28 Union Avenue/35 White Street, area variance to convert the existing building to a 53-unit apartment building; seeking relief from the minimum lot size and minimum parking requirement in the Urban Residential – 4 District.

(Application #)

(Date received)

APPEAL TO THE ZONING BOARD FOR AN INTERPRETATION, USE VARIANCE, AREA VARIANCE AND/OR VARIANCE EXTENSION

APPLICANT(S)*

OWNER(S) (If not applicant)

ATTORNEY/AGENT

Name	<u>Mark Dugas</u>	_____	_____
Address	[REDACTED]	_____	_____
Tel./Fax	[REDACTED]	<u>/</u>	<u>/</u>
Email	[REDACTED]	_____	_____

* An applicant must be the property owner, lessee, or one with an option to lease or purchase the property in question.
Applicant's interest in the premises: Owner Lessee Under option to lease or purchase

PROPERTY INFORMATION

Property Address (No. & St.) 65 York Avenue Side of St. (north, east, etc.) north

Tax Parcel No.: 166.45 - 2 - 71 (for example: 165.52 - 4 - 37) Tax District: Inside Outside

1. Date acquired by current owner: 4/19/2003 2. Zoning District when purchased: UR-3

3. Present use of property: Main residence 4. Current Zoning District: UR-3

5. Has a previous ZBA application/appeal been filed for this property? Yes (when? _____ for what? _____) No

6. Is property located within (check all that apply): Historic District Architectural Review District
 500' of a State Park, city boundary, or county/state highway?

7. Brief description of proposed action: construct pool house within the 5' side yard setback of adjoining property at 63 York Ave.

8. Is there a written violation for this parcel that is not the subject of this application? Yes No

9. Has the work, use or occupancy to which this appeal relates already begun? Yes No

10. Identify the type of appeal you are requesting (check all that apply):

INTERPRETATION (p. 2) VARIANCE EXTENSION (p. 2) USE VARIANCE (pp. 3-6) AREA VARIANCE (pp. 6-7)

INTERPRETATION – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Identify the section(s) of the Zoning Ordinance for which you are seeking an interpretation:

Section(s) _____

2. How do you request that this section be interpreted? _____

3. If interpretation is denied, do you wish to request alternative zoning relief? Yes No

4. If the answer to #3 is "yes," what alternative relief do you request? Use Variance Area Variance

EXTENSION OF A VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Date original variance was granted: _____ 2. Type of variance granted? Use Area

3. Date original variance expired: _____ 4. Length of extension requested: _____

5. Explain why the extension is necessary. Why wasn't the original timeframe sufficient?: _____

When requesting an extension of time for an existing variance, the applicant must prove that the circumstances upon which the original variance was granted have not changed. Specifically demonstrate that there have been no significant changes on the site, in the neighborhood, or within the circumstances upon which the original variance was granted:

USE VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

A use variance is requested to permit the following: _____

For the Zoning Board to grant a request for a use variance, an applicant must prove that the zoning regulations create an unnecessary hardship in relation to that property. In seeking a use variance, New York State law requires an applicant to prove all four of the following “tests”.

I. That the applicant cannot realize a reasonable financial return on initial investment for any currently permitted use on the property. “Dollars & cents” proof must be submitted as evidence. The property in question cannot yield a reasonable return for the following reasons:

A. Submit the following financial evidence relating to this property (attach additional evidence as needed):

1) Date of purchase: _____ Purchase amount: \$ _____

2) Indicate dates and costs of any improvements made to property after purchase:

<u>Date</u>	<u>Improvement</u>	<u>Cost</u>
_____	_____	_____
_____	_____	_____
_____	_____	_____

3) Annual maintenance expenses: \$ _____ 4) Annual taxes: \$ _____

5) Annual income generated from property: \$ _____

6) City assessed value: \$ _____ Equalization rate: _____ Estimated Market Value: \$ _____

7) Appraised Value: \$ _____ Appraiser: _____ Date: _____

Appraisal Assumptions: _____

B. Has property been listed for sale with the Multiple Listing Service (MLS)? Yes If "yes", for how long? _____ No

1) Original listing date(s): _____ Original listing price: \$ _____

If listing price was reduced, describe when and to what extent: _____

2) Has the property been advertised in the newspapers or other publications? Yes No

If yes, describe frequency and name of publications: _____

3) Has the property had a "For Sale" sign posted on it? Yes No

If yes, list dates when sign was posted: _____

4) How many times has the property been shown and with what results? _____

2. That the financial hardship relating to this property is unique and does not apply to a substantial portion of the neighborhood. Difficulties shared with numerous other properties in the same neighborhood or district would not satisfy this requirement. This previously identified financial hardship is unique for the following reasons:

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) Side yard setback.

Dimensional Requirements

From

To

Offset to adjacent property (63 York Ave)

5'

2'

Other: _____

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- 1. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

No feasible means available because the pool house has already been built.

- 2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

No undesirable changes to the character of neighborhood because of the location of the structure and design. Not very visible from the street and it is a small structure.

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

Not substantial because it is a small structure and complies with percentage of lot coverage.

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

The pool house is not large in size and has an appealing look. Concrete slab foundation makes it impossible for undesirable wild life / rodents to denand popolate.

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

This difficulty was self created due to the lack of ^{knowledge of} off-set requirements by the city when it was built.

In accord with Article 240-14.4A(1)(b)(6) of the Zoning Ordinance, "any request for an area variance, which shall effect a change in density, shall be applied for and considered as a use variance and decided under criteria for the same". A request that involves any of the following relief will require an application for a use variance and will be decided under the use variance criteria:

- (1) Dimensional relief from minimum lot size requirements that would allow additional permitted units and/or uses
- (2) Relief from on site parking requirements
- (3) Reduction in land area requirements for multi-family units

DISCLOSURE

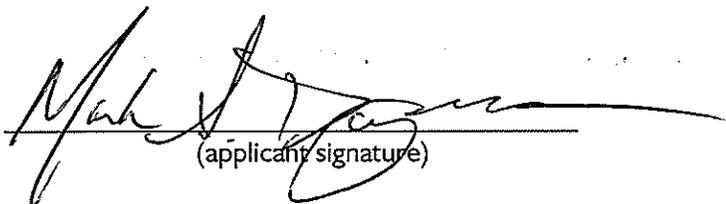

Does any City officer, employee, or family member thereof have a financial interest (as defined by General Municipal Law Section 809) in this application? No Yes If "yes", a statement disclosing the name, residence and nature and extent of this interest must be filed with this application.

APPLICANT CERTIFICATION

I/we, the property owner(s), or purchaser(s)/lessee(s) under contract, of the land in question, hereby request an appearance before the Zoning Board of Appeals.

By the signature(s) attached hereto, I/we certify that the information provided within this application and accompanying documentation is, to the best of my/our knowledge, true and accurate. I/we further understand that intentionally providing false or misleading information is grounds for immediate denial of this application.

Furthermore, I/we hereby authorize the members of the Zoning Board of Appeals and designated City staff to enter the property associated with this application for purposes of conducting any necessary site inspections relating to this appeal.

Appendix C
State Environmental Quality Review
SHORT ENVIRONMENTAL ASSESSMENT FORM
For UNLISTED ACTIONS Only

PART I - PROJECT INFORMATION (To be completed by Applicant or Project sponsor)

1. APPLICANT/SPONSOR

2. PROJECT NAME

3. PROJECT LOCATION:

Municipality

County

4. PRECISE LOCATION (Street address and road intersections, prominent landmarks, etc., or provide map)

5. PROPOSED ACTION IS: New Expansion Modification/alteration

6. DESCRIBE PROJECT BRIEFLY:

7. AMOUNT OF LAND AFFECTED: Initially: _____ (acres) Ultimately: _____ (acres)

8. WILL PROPOSED ACTION COMPLY WITH EXISTING ZONING OR OTHER EXISTING LAND USE RESTRICTIONS?

Yes No If No, describe briefly

9. WHAT IS PRESENT LAND USE IN VICINITY OF PROJECT?

Residential Industrial Commercial Agriculture Park/Forest/Open Space Other

Describe:

10. DOES ACTION INVOLVE A PERMIT APPROVAL, OR FUNDING, NOW OR ULTIMATELY FROM ANY OTHER GOVERNMENTAL AGENCY (FEDERAL, STATE OR LOCAL)?

Yes No If Yes, list agency(s) name and permit/approvals:

11. DOES ANY ASPECT OF THE ACTION HAVE A CURRENTLY VALID PERMIT OR APPROVAL?

Yes No If Yes, list agency(s) name and permit/approvals:

12. AS A RESULT OF PROPOSED ACTION WILL EXISTING PERMIT/APPROVAL REQUIRE MODIFICATION?

Yes No

I CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS TRUE TO THE BEST OF MY KNOWLEDGE

Applicant/sponsor name: _____

Date: _____

Signature: _____

PART II - IMPACT ASSESSMENT (To be completed by Lead Agency)

A. DOES ACTION EXCEED ANY TYPE I THRESHOLD IN 6 NYCRR, PART 617.4? If yes, coordinate the review process and use the FULL EAF.

Yes No

B. WILL ACTION RECEIVE COORDINATED REVIEW AS PROVIDED FOR UNLISTED ACTIONS IN 6 NYCRR, PART 617.6? If No, a negative declaration may be superseded by another involved agency.

Yes No

C. COULD ACTION RESULT IN ANY ADVERSE EFFECTS ASSOCIATED WITH THE FOLLOWING: (Answers may be handwritten, if legible)

C1. Existing air quality, surface or groundwater quality or quantity, noise levels, existing traffic pattern, solid waste production or disposal, potential for erosion, drainage or flooding problems? Explain briefly:

C2. Aesthetic, agricultural, archaeological, historic or other natural or cultural resources; or community or neighborhood character? Explain briefly:

C3. Vegetation or fauna, fish, shellfish or wildlife species, significant habitats, or threatened or endangered species? Explain briefly:

C4. A community's existing plans or goals as officially adopted, or a change in use or intensity of use of land or other natural resources? Explain briefly:

C5. Growth, subsequent development, or related activities likely to be induced by the proposed action? Explain briefly:

C6. Long term, short term, cumulative, or other effects not identified in C1-C5? Explain briefly:

C7. Other impacts (including changes in use of either quantity or type of energy? Explain briefly:

D. WILL THE PROJECT HAVE AN IMPACT ON THE ENVIRONMENTAL CHARACTERISTICS THAT CAUSED THE ESTABLISHMENT OF A CRITICAL ENVIRONMENTAL AREA (CEA)?

Yes No If Yes, explain briefly:

E. IS THERE, OR IS THERE LIKELY TO BE, CONTROVERSY RELATED TO POTENTIAL ADVERSE ENVIRONMENTAL IMPACTS?

Yes No If Yes, explain briefly:

PART III - DETERMINATION OF SIGNIFICANCE (To be completed by Agency)

INSTRUCTIONS: For each adverse effect identified above, determine whether it is substantial, large, important or otherwise significant. Each effect should be assessed in connection with its (a) setting (i.e. urban or rural); (b) probability of occurring; (c) duration; (d) irreversibility; (e) geographic scope; and (f) magnitude. If necessary, add attachments or reference supporting materials. Ensure that explanations contain sufficient detail to show that all relevant adverse impacts have been identified and adequately addressed. If question d of part ii was checked yes, the determination of significance must evaluate the potential impact of the proposed action on the environmental characteristics of the CEA.

Check this box if you have identified one or more potentially large or significant adverse impacts that **MAY** occur. Then proceed directly to the FULL EAF and/or prepare a positive declaration.

Check this box if you have determined, based on the information and analysis above and any supporting documentation, that the proposed action **WILL NOT** result in any significant adverse environmental impacts **AND** provide, on attachments as necessary, the reasons supporting this determination.

TRANSMITTAL SHEET

TO: Zoning Board of Appeals	FROM: Tonya Yasenchak
COMPANY: City of Saratoga Springs	DATE: February 1, 2016
FAX NUMBER:	TOTAL NO. OF PAGES INCLUDING COVER: 3 (10 copies submitted)
PHONE NUMBER:	SENDER'S REFERENCE NUMBER:
RE: # 39 Murphy Ln. Zoning Saratoga Springs, NY	YOUR REFERENCE NUMBER:

URGENT FOR REVIEW PLEASE COMMENT PLEASE REPLY AS REQUESTED

City of Saratoga Zoning Board Members,
Engineering America Co. herein would like to provide revised information regarding the #39
Murphy Lane barn renovation in Saratoga Springs, NY.

Modifications During Construction:

- 1) Installation of a full basement instead of replacing the existing slab foundation. This was done due to decision to lift entire barn for ease of foundation construction. Once the barn was lifted / cribbed, it was just as easy to install a full foundation than a slab / frost wall foundation. New foundation wall was installed higher than the original perimeter slab foundation that was replaced. The attached new Plot Plan is based on a new survey prepared by Survey Associates on 1/26/16 which depicts the existing new foundation footprint. Engineering America Co. has modified the plot plan, as attached to depict the proposed building changes as proposed.
 - 2) Resulting main floor height from original 14" above grade (along front) to 34" (+/-). The extended height to the front door requires additional stairs. The stairs will not be covered and will only be constructed to the right of the approved covered stoop. According to the definition of "Building Footprint" in the City of Saratoga Springs zoning code, uncovered front steps that only service the basement and/or 1st floor level of the building" are an "exception" to the "building footprint." The area calculations and setback variances outlined in this correspondence do not include the front steps to the front stoop.
-
-

- 3) Resulting main floor height to grade along rear of building is now approx.. 48" (+/-). The *Residential Code of NYS* requires a landing outside of an exterior door where more than 3 risers are required from grade. Due to the 48" grade to 1st floor height, more than 3 risers are required to the rear sliding door and a 3' x 7' min. landing is also required. The attached modified Plot Plan, area calculations and setback variances outlined in this correspondence include the rear stoop and required stairs.

- 4) Reframing of walls and roof required due to deteriorating condition of existing studs and roof. The Owner's original intent was to repair and/or sister any wall or ceiling framing members. During construction, it became apparent that there were more decaying studs & rafters to be repaired than existing framing members to be saved. The Owner decided to reframe the exterior walls and to install new trusses (not yet installed). The new roof framing will allow the applicant to make modifications to the overhangs around the perimeter of the building to offset the required rear stoop and to reduce the number of variances required for this project.

Current Proposed Variance Modifications vs. Approved Variances

	<u>Dim. Req./Orig. / New</u>	<u>Relief Approved</u>	<u>2/1/16 Rev.</u>	<u>Rev. Relief</u>
Min. Lot Size	6,600 sq.ft./2,500sq.ft.	4,100 (62.1%)	No Change	No Change
Av. Lot Width	60' / 50' (existing)	10' (16.7%)	No Change	No Change
Front Yard Dim:	10' / 3.1' / 3.2'	6.9' (69%)	6.8' = 68%	Reduced 1%
Rear Yard Dim:	25' / 15.7' / 13.9'	9.3' (37.2%)	11.1' = 44.4%	Increase 7.2%
Total Side Dim:	12' / 11.4' / 12.3'	0.6' (5%)	No Variance	No Variance Req.
Building Coverage:	30% / 46.5% / 43.8%	16.5% (55%)	13.8% (46%)	Reduced 9%
Min. Parking	2 / 1 / 1	1	No Change	No Change

Area Calculations:

Total Lot Size: 2,500 sq.ft.
Existing Barn: 1,083 sq.ft. (43.32% coverage = 13.32% > 30% max allowable)
Proposed Barn w/ porch roof & rear Stoop:
1,095 sq.ft. (43.8% coverage = 13.8% > 30% max.)

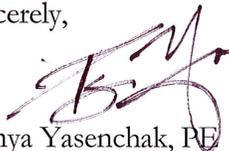

Permeability: Barn with Addition: 1,095 sq.ft.
Existing Paving at Alley: 232 sq.ft. (+/-)
Existing East Side Paving: 155 sq.ft. (+/-).
Total Coverage: 1,482 sq.ft.
1,482 sq.ft. (59.3 % coverage = 40.7 % permeable > 25% min)

Engineering America Co., on behalf of the Owners of #39 Murphy Lane, would like to respectfully request that the Zoning Board of appeals review and approve the modifications made to the original proposed project. We believe that the modifications requested do not produce any negative impacts on the neighborhood environment or character for the following reasons:

- The addition of the stoop to the rear of the building to account for the additional height is a better alternative than changing the grade.
 - o Changing the grade in the back yard would result in a slope in grade towards neighbors with potential for drainage issues.
 - o Maintaining the existing rear yard grade keeps the yard & it's impact on neighboring properties exactly the same as it has been for over 100 years.
 - o The rear stoop will not be visible to neighbors due to the existing and proposed fencing.
- The reduction of the side roof overhang dimensions reduces the relief required for two different variances granted:
 - o The new total side setback at 12.3' is 0.3' over the min. 12' requirement. This modification removes this variance from the project approval.
 - o The new resulting coverage is reduced from the original project. The actual variance relief being sought is 9% less than the original granted.
- The reduction of the front stoop roof overhang reduces the relief required for the front setback by 1%.

Thank you for your time and cooperation.

Sincerely,

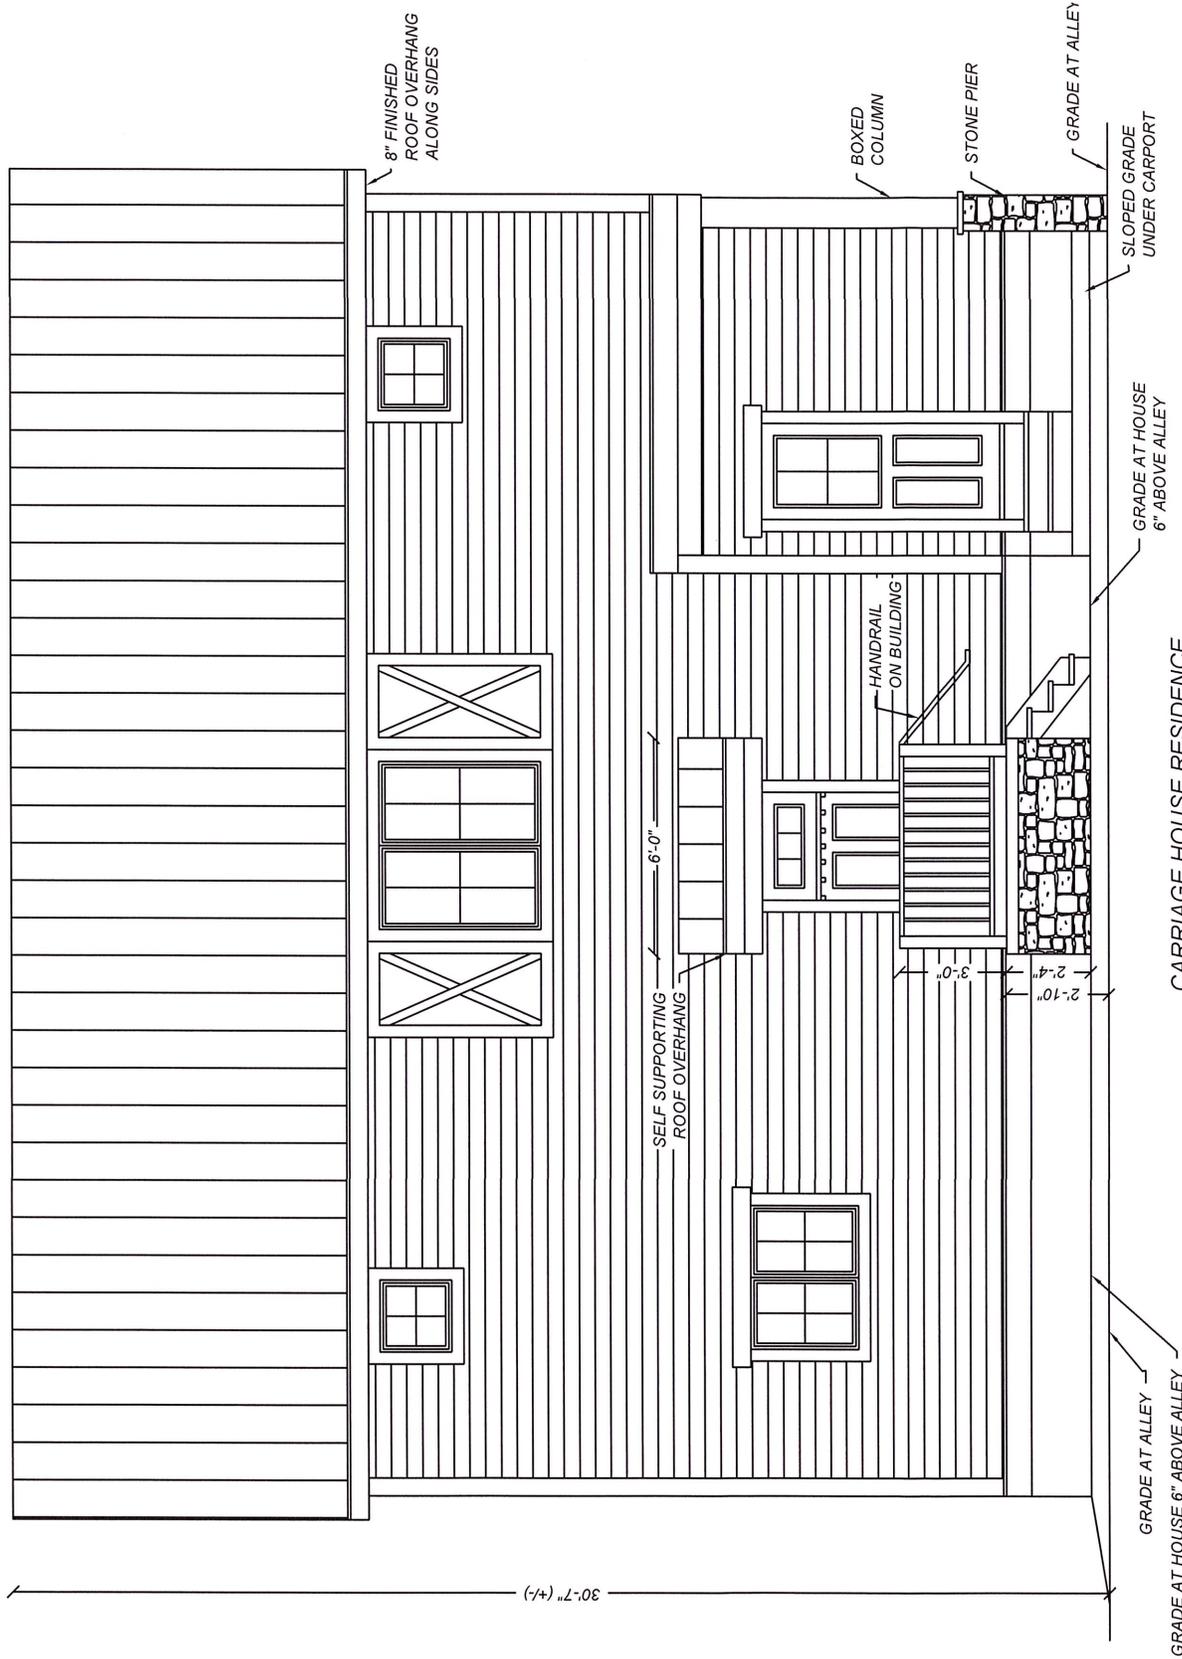

Tonya Yasenchak, PE

Enc.

MAP NO. 2016-01-02

January 11, 2016

To The Saratoga Springs Zoning Board of Appeals

I am writing you today to update you on the construction of a barn into a house at 39 Murphy Lane. This was supposed to be a barn renovation/restoration project. It is everything but that, drive by sometime and take a look. A full basement has been dug with 4 large windows at ground level, the barn was raised and a foundation poured which is very tall only needing to lower the barn inches. Next the roof will be removed and trusses will be added, this will give a steeper pitch to the roof. This also will make the "barn" the tallest house in the surrounding area. All new siding and windows as well as new framing will round out my point that nothing from the initial structure will remain.

So this person got away with a building way larger than should ever have been approved by the ZBA. It is only a ploy to build what they want in a footprint from an existing building on a piece of land smaller than ¼ of a city lot.

The piece of land itself is too small to have any construction material on it. So at one point a large pile of dirt (about 15 feet high) was on one neighbors yard. The dirt was brought out from the basement and they had nowhere to put it, they couldn't haul it away because they needed it for back fill, thus a huge mess in their back yard. Another neighbor had a porta- potty placed on their yard for weeks, again no room on the property to place one. The alley is usually blocked with trucks and construction material, which is a danger if there is an emergency. Service vehicles cannot get through on a regular basis. I know the construction is temporary but this narrow alley was hardly made for cranes, bulldozers, concrete trucks etc. Not to mention the nightmare when the water and sewer lines were installed. And it will be dug up again when they have power\gas services installed, so much for the paving that was done several years ago, the road is now a mess and will not be repaved.

A review of this project should be done, this was not what was proposed to you by the applicant at the zoning board meetings.

Susan Rodems ■ White Street

The 39 Murphy Lane construction project
February 1, 2016

To the Zoning Board, Susan Barden and the Saratoga Springs Building Inspector

We are writing today to make you aware of some problems at the 39 Murphy Lane construction site. Since this is no longer a barn renovation/restoration but new construction there are issues that need to be dealt with. A neighbor of ours requested and was granted a stop work order because of what's going on. This is a nonconforming lot which now has a structure on it that will be way too tall (as per building code) if it is allowed to proceed. They have dug a full basement with 4 very large windows at ground level (when I was in city hall reviewing the plans several weeks ago the drawing still only showed a crawl space). The foundation is very tall as well and they have built a first floor. There is absolutely nothing left of the original barn, so if they put a second floor on, it will make this house very tall. This has and will change the character of the neighborhood.

The applicant and the engineering /design firm have not been truthful in their actions and should be made to come up with a new design to comply with the original structure. This should only be allowed to be a single story house. Otherwise we will have a structure with a nonconforming height on an already nonconforming lot.

They also have a front stoop that protrudes from the front of the house. Once they have the second step built they will be stepping right into the alley. This should be redesigned and recessed into the house instead. The front stoop poses a danger on the alley, between vehicular traffic, snowplows and service vehicles.

Please take a look at this project and pay very close attention, the zoning board and the building department need to take action and hold them accountable. The applicant is trying to pull a fast one and should not be allowed to continue until they comply with the height and design constrictions of new construction on a nonconforming lot. We feel the applicant should be only allowed to build the house as tall as the original barn structure.

Thank you, Susan and Brian Rodems

Subject: 39 Murphy Lane project

To the zoning Board, Susan Barden and the Saratoga Springs Building Inspector

We share the concerns of our neighbors regarding the construction project at 39 Murphy Lane in Saratoga Springs. The barn/restoration is now being replaced with an entirely new construction thus not complying with the original zoning board regulations.

Particular problems are the height and the design of the structure on this nonconforming lot. Apparently, the applicant and engineering design firm are not following the regulations.

Please take action on this project.

Thank you,
Linda and Tom Davis

Subject: 39 Murphy Lane

I live on the corner of Murphy Lane and Stratton Street. My address is [REDACTED] Stratton and my phone number is [REDACTED]. I am writing today because of the construction site next door to us.

I appreciate your attention to this matter.

39 Murphy Lane Construction

To the Zoning Board, Susan Barden and the Saratoga Springs Building Inspector

As next door neighbors, on [REDACTED] Stratton Street, we did not object to the initial building permit that was submitted last year for this proposed renovation. What is happening now on that site is NOT what was submitted.

They have dug an 8 foot basement, taken off all of the siding and torn down the roof. That, to me, does not look like the renovation they proposed, but an all out new house. They have a front stoop that protrudes from the front of the house that will make it impossible not to step into the alley when they use it.

I am requesting that you take a good long hard look at what they are doing and take action to make sure this "house" does not exceed height regulations on a non conforming lot, and stay within the original barn structure height and size.

Thank you for your consideration in this matter

Concerned neighbors

Subject: Stop Work Order on construction at 39 Murphy Lane

Dear Ms. Barden.

I am writing you as a concerned neighbor regarding the barn restoration/renovation at 39 Murphy lane. It has come to my attention that a stop work order has been placed on this project due to non-conforming work. I am most concerned that the work being done is not conforming to the project as originally presented to your board. My yard is overlooked by 39 Murphy lane. It is my understanding that this new structure now will be significantly taller than proposed under the original plans. I believe this would require additional zoning variances. I also believe this structure was approved to be a restoration to a single family home, not a multi-family dwelling.

I am in favor of this work going forward only if it meets the original specifications and plans submitted to the city.

Thanks in advance for your time and attention regarding this matter. Feel free to contact me at my cell or email below.

Sincerely,

Michael B. Winn

URGENT FOR REVIEW PLEASE COMMENT PLEASE REPLY AS REQUESTED

City of Saratoga Zoning Board Members,
Engineering America Co. herein would like to provide revised information regarding the #39
Murphy Lane barn renovation in Saratoga Springs, NY.

Modifications From Original Approval

- 1) New foundation installation resulted in 1st floor level at 2' above original plan.
 - 2) Modified front stoop & overhang dimension reduced.
 - 3) Stairs added from grade up to front stoop.
 - 4) New structural elements (walls) will result in overall ht. of building at approx. 30' 6" – 31', raised approx.. 3' from original overall ht. (60' max. ht. allowed by Zoning)
 - 5) Side roof overhang dimensions reduced to 6" from 12" original plan.
 - 6) Two risers (1 tread) proposed out rear slider to rear raised, detached patio. The one new tread falls under house roof overhang. The raised patio & associated stairs are compliant with setbacks and permeability.

Current Proposed Variance Modifications vs. Approved Variances

	<u>Dim. Req./Orig. / New</u>	<u>Relief Approved</u>	<u>2/18/16 Rev.</u>	<u>Rev. Relief</u>
Min. Lot Size	6,600 sq.ft./2,500sq.ft.	4,100 (62.1%)	No Change	No Change
Av. Lot Width	60' / 50' (existing)	10' (16.7%)	No Change	No Change
Front Yard Dim:	10' / 3.1' / 3.2'	6.9' (69%)	6.8' = 68%	Reduced 1%
Rear Yard Dim:	25' / 15.7' / 15.8'	9.3' (37.2%)	9.2' = 36.8%	Reduced 0.4%
Total Side Dim:	12' / 11.4' / 12.3'	0.6' (5%)	No Variance	No Variance Req.
Building Coverage:	30% / 46.5% / 43.2%	16.5% (55%)	13.2% (44%)	Reduced 11%
Min. Parking	2 / 1 / 1	1	No Change	No Change

Area Calculations:

Total Lot Size: 2,500 sq.ft.
 Pre-Existing Barn: 1,083 sq.ft. (43.32% coverage = 13.32% > 30% max allowable)
 Proposed Barn: 1,080 sq.ft. (43.2% coverage = 13.2% > 30% max.)
 (New coverage actually decreases by 3 sq.ft. from original barn)

Permeability: Proposed Barn Residence: 1,080 sq.ft.
 Assumed Paving at Alley: 300 sq.ft. (+/-) (along front of building)
 New Rear Patio & Stairs: 60
 Total Coverage: 1,440 sq.ft.
1,440 sq.ft. (57.6 % coverage = 42.4 % permeable > 25% min)

Engineering America Co., on behalf of the Owners of #39 Murphy Lane, would like to respectfully request that the Zoning Board of appeals review and approve the modifications made to the original proposed project. We believe that the modifications requested do not produce any negative impacts on the neighborhood environment or character as all of the original approved variances may be reduced and one variance may be removed. All other conditions are in compliance with the UR-3 zoning regulations.

Thank you for your time and cooperation.

Sincerely,

 Tonya Lasenchak, PE

IN THE MATTER OF THE APPEAL OF

Jean D'Agostino
38 Warren St
Saratoga Springs NY 12866

from the determination of the Building Inspector involving a lot on the south side of Murphy Lane between Clark Street and Stratton Street, in the City of Saratoga Springs, New York being tax parcel number 165.84-1-22, in the Inside District, on the Assessment Map of said City.

The appellant having applied for an area variance under the Zoning Ordinance of said City to permit the renovation and conversion of an existing barn structure to a single family house on the above-referenced lot in a UR-3 District and public notice having been duly given of a hearing on said application held on the 23rd day of February and the 9th and 23rd days of March 2015.

In consideration of the balance between benefit to the applicant with detriment to the health, safety and welfare of the community, I move that the requested area variances for the following amounts of relief:

2/18/16 (REVISED)

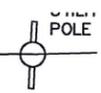

TYPE OF REQUIREMENT	DISTRICT DIMENSIONAL REQUIREMENT	PROPOSED	RELIEF REQUESTED (ORIGINAL APPROVAL)	
MINIMUM LOT SIZE	6600 SF	2500 SF <i>(same)</i>	4100 SF, OR 62.1%	<i>(same)</i>
MINIMUM AVERAGE LOT WIDTH	60 FT	50 FT <i>(same)</i>	10 FT, OR 16.7%	<i>(same)</i>
MINIMUM FRONT YARD SETBACK	10 FT	3.1 FT <i>(3.2)</i>	6.9 FT, OR 69%	<i>(68%)</i>
MINIMUM REAR YARD SETBACK	25 FT	15.7 FT <i>(15.8)</i>	9.3 FT, OR 37.2%	<i>(36.8%)</i>
MINIMUM TOTAL SIDE YARD SETBACK	12 FT	11.4 FT <i>(12.3)</i>	0.6 FT, OR 5%	<i>0% N/A</i>
MAXIMUM PRINCIPAL BUILDING COVERAGE	30%	46.5% <i>(43.2%)</i>	16.5%, OR RELATIVE RELIEF OF 55%	<i>(13.2%) (44%)</i>
MINIMUM PARKING REQUIREMENT	2 PARKING SPACES	1 PARKING SPACE <i>(same)</i>	1 SPACE, OR 50%	<i>(same)</i>

As per the submitted application materials, be approved, after weighing the following considerations:

1. The Board notes the applicant has demonstrated this benefit cannot be achieved by other means feasible to the applicant. The board notes that there is a permitted use for this structure, that of an accessory building. However, the applicant is a contract vendee who is seeking the benefit of a principal residence; the board has evaluated this application based on that benefit.

There are seven variances in question here, so the board's conclusion on the consideration of other feasible means is based on the consideration of the individual variances as follows:

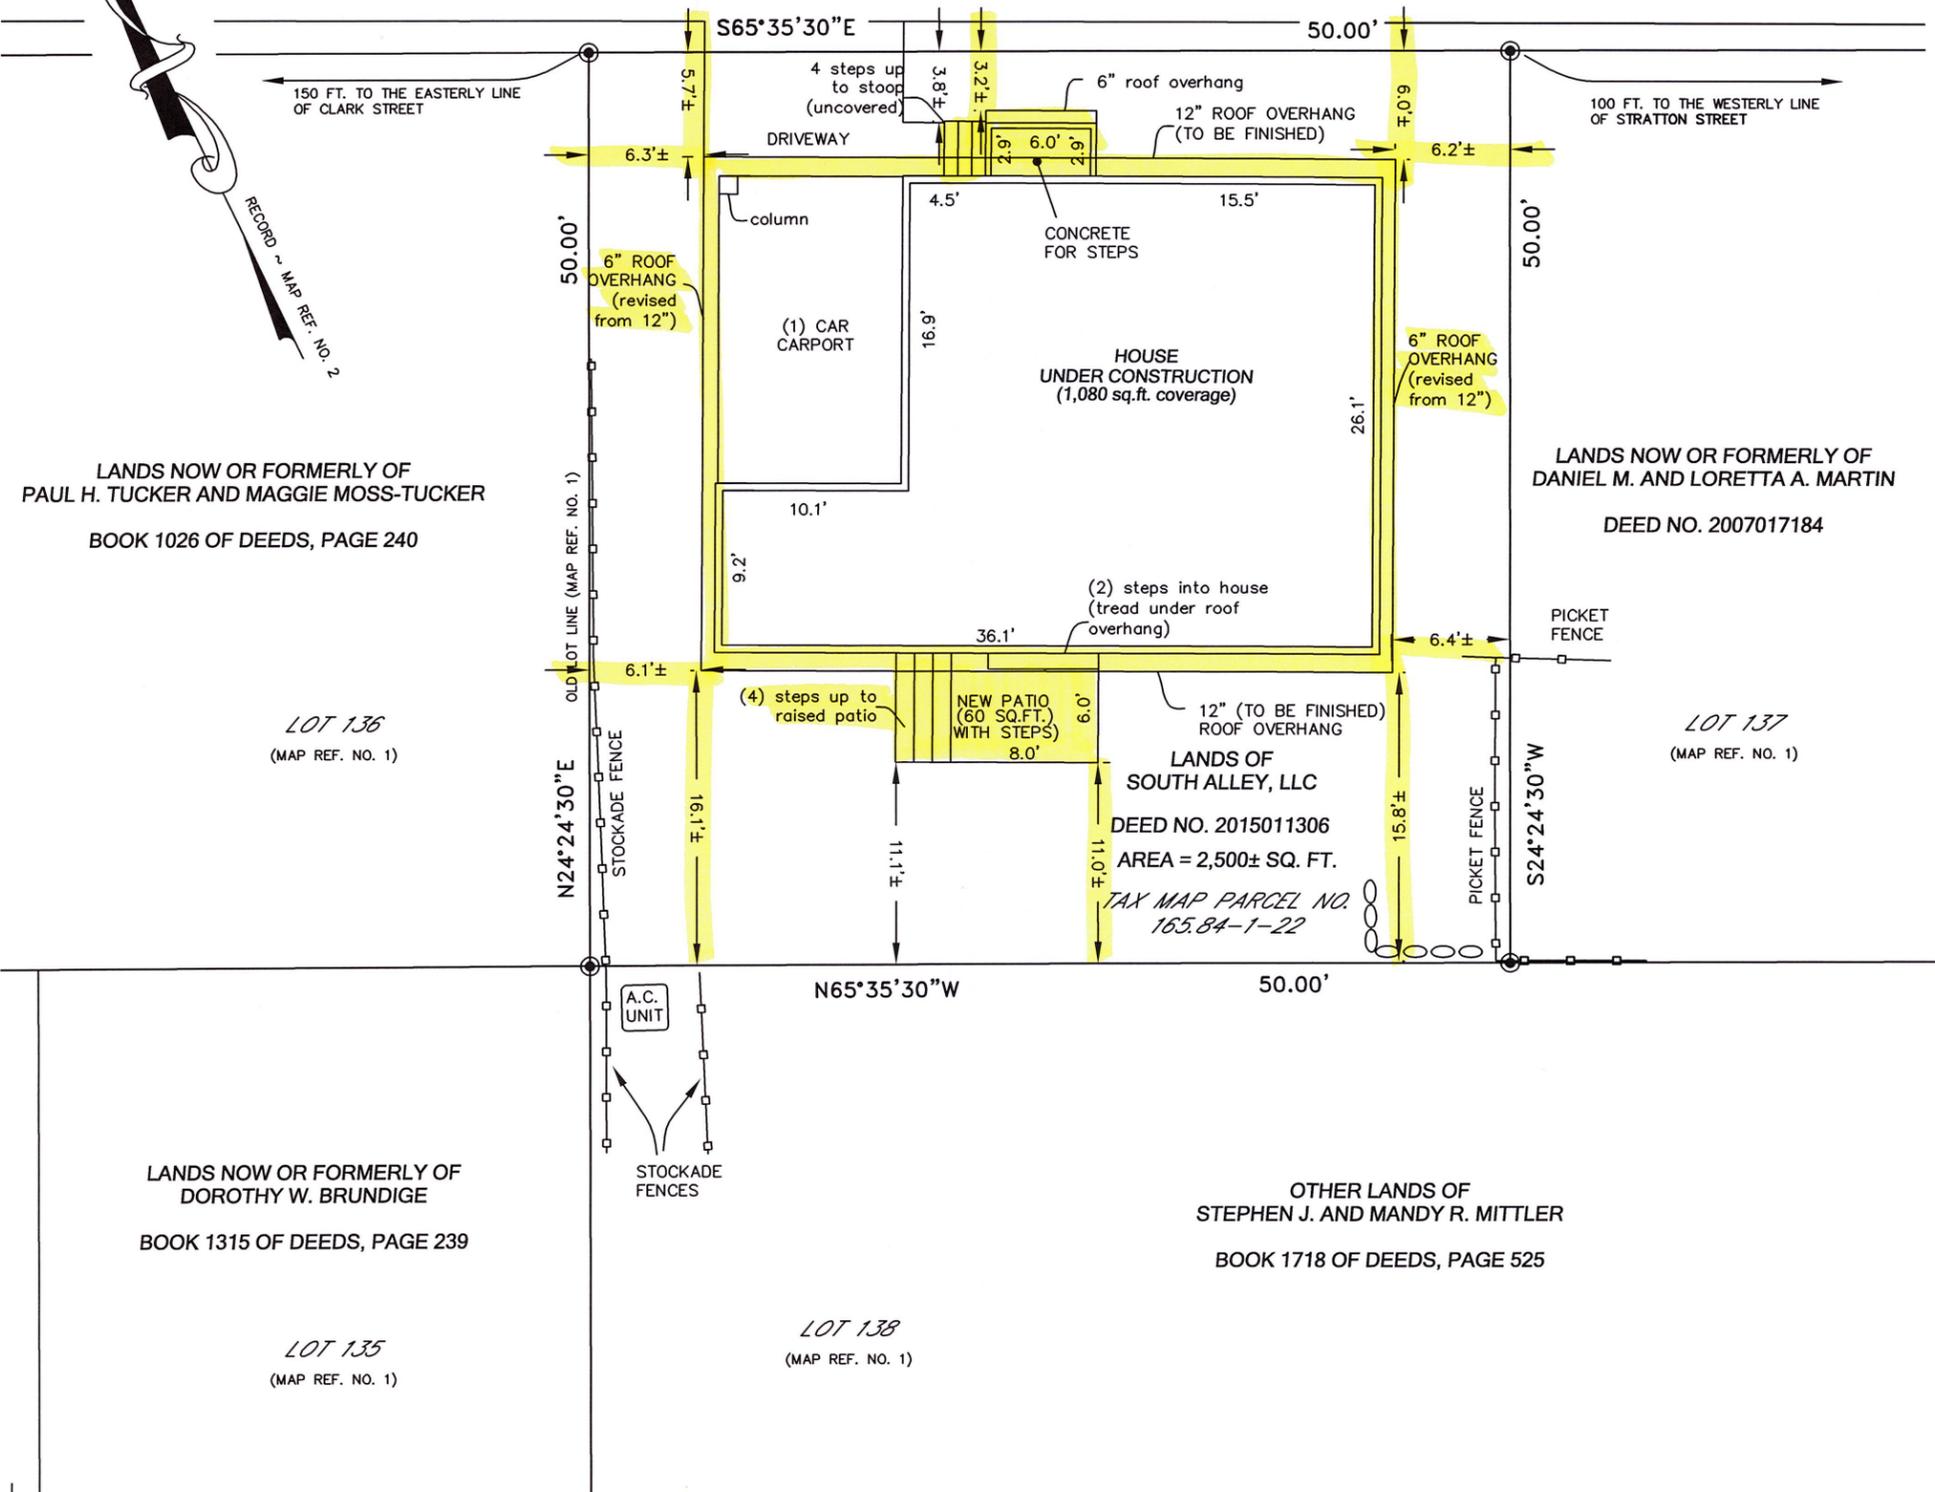

- a. Principal building coverage: the lot size, at 2500 square feet, is such that the footprint of a house conforming to the 30% coverage requirement would be small (750 square feet including

SOUTH ALLEY

Sent: Monday, February 22, 2016 4:09:14 PM
Subject: Fw: Feb 22 ZBA Meeting - 39 MURPHY LANE BARN "RENOVATION"

To whom it may concern:

Maggie Moss-Tucker and I, owners of [REDACTED] Clark Street, Saratoga Springs for 35 years, abutters to 39 Murphy Lane, and former owners of the carriage house that stood on that lot are appalled at what has occurred to that historic structure. Against great opposition, you granted the developer 7 variances to renovate the building on the basis of the developer's appeals but what did your actions yield? The worst possible result. The complete destruction of the structure.

To add insult to injury, the developer has completely subverted your directives and begun to rebuild the structure without informing you, the abutters, or the neighbors. It was a brazen move that must be stopped.

The structure that has arisen, without your approval or any input from the neighbors, has little to do with the original, historic building that stood on the site or with the agreement that you had made with the developer. This is unacceptable and seriously detrimental the neighborhood.

These nefarious actions are typical of the developer. She has never been forthright about her intentions. She directly lied to us as to who was buying the building; she lied about her intentions for the building; and she lied in front of you about her plans to "renovate" the structure. Nothing could be more contrary to your raison d'être. You are the appropriate arbitrators of such situations. But the developer failed you just as she failed our neighborhood.

We therefore hope that you will continue to impose a cease-and-desist order on her, and insist that she submit appropriate plans for the building that require her to rebuild it as it had been which includes but is not limited to: lowering the foundation and the second story to their original heights, revising the proposed window treatment which impinges on the privacy rights of the abutters and undermines the integrity of the building, and reducing the "front porch."

The deception that informed every aspect of this so-called renovation is an insult to your committee, the review process for such developments, and the architectural significance of Saratoga Springs which takes rightful pride in its

architectural heritage.

Yours sincerely,

Paul Tucker and Maggie Moss-Tucker

Role Call

New Business

1. #2807.1 MURPHY LANE SINGLE-FAMILY RESIDENCE
39 Murphy Lane, area variance modification for proposed changes to a previously approved barn conversion to single-family residence; seeking additional relief from the minimum front yard and rear yard requirements in the Urban Residential – 3 District.

Documents: 2807.1 MURPHYLNBARRENO_39MURPHYLN.PDF, 2807.1 MURPHYLNBARRENO_NEIGHBORCORREDACTED.PDF

Please find below a version of the original variance application with highlighted comments provided therein:

"IN THE MATTER OF THE APPEAL OF Jean D'Agostino 38 Warren St Saratoga Springs NY 12866 from the determination of the Building Inspector involving a lot on the south side of Murphy Lane between Clark Street and Stratton Street, in the City of Saratoga Springs, New York being tax parcel number 165.84-1-22, in the Inside District, on the Assessment Map of said City. City of Saratoga Springs - Zoning Board of Appeals – March 23, 2015 - Page 17 of 20

From ZBA decision (emphasis added): "The appellant having applied for an area variance under the Zoning Ordinance of said City to **permit the renovation and conversion of an existing barn** structure to a single family house."

Noncompliance with decision: Applicant did not renovate existing barn rather removed existing barn including slab floor, studs, siding, second floor, studs, siding and roof and **replaced entire historic barn with brand new building that now is four feet taller than the original barn, a slab foundation replaced with a full basement and total building volume is about 133% of the original building volume. No renovation and**

conversion was ever conducted.

Proposed relief requested MINIMUM LOT SIZE 6600 SF 2500 SF 4100 SF, OR **62.1%**

Another way to think about the tremendous magnitude of the variance requested: lot area provided 2500 sq. ft. requested lot size is **a lot two and one-half sizes too small for the district or 264%**

From ZBA decision (emphasis added): "As per the submitted application materials, be approved, after weighing the following considerations: 1. The Board notes the applicant has **demonstrated this benefit cannot be achieved by other means feasible** to the applicant. The board notes that there is a permitted use for this structure, that of an accessory building. However, the applicant is a contract vendee who is seeking the benefit of a principal residence; the board has evaluated this application based on that benefit. There are seven variances in question here, so the board's conclusion on the consideration of other feasible means is based on the consideration of the individual variances as follows: 1. Principal building coverage: the lot size, at 2500 square feet, is such that the footprint of a house conforming to the 30% coverage requirement would be small (750 square feet including overhangs). This can be done **if the barn is removed, which may be an undesirable effect as noted by the applicant on page 66 of the application "Tearing down the barn and starting new would cause a detriment to the neighborhood and community character."The applicant does not seek to do this** in the proposal as submitted.

Noncompliance with decision: **When applicant removed every square foot of existing foundation and the old barn is now gone, the applicant removed the basic reason for granting the variance—that it was an existing building that could not and should not be changed. The purpose of the project was not to restore an historic barn—it was to build a new single-family house on an accessory parcel that was never intended to be a separate lot on a real street, never approved as a separate lot as an approved subdivision, on a parcel that was 2 and one-half times too small. The board would have been looking at an entirely different application knowing and the applicant could have provided a totally different project with less nonconformities.**

2. Setback encroachments (front, rear, side). Given the rear-to-front dimensions of the property of 50 feet if fronting Murphy Lane, and the district requirements of 10 feet in front and 25 in back, conformity to both is quite difficult and would result in a very small structure. Total side setback of 12 feet could also be theoretically achieved with a smaller structure. **A smaller structure obviously requires a removal of the existing barn**, discussed above. It also would result in diminished utility as a single-family residence.

3. Lot width and parking: Per the applicant, land is not available to purchase on either side and that a parking easement on the western side of the property has been specifically ruled out after consultation with neighbors.

4. Lot size: The subject parcel is greatly undersized as a principal building lot; allowing it to be considered for a principal building on it cannot be done without a **variance since it is held in common with the adjacent parcel**. Land on the south boundary line is currently owned in common City of Saratoga Springs - Zoning Board of Appeals – March 23, 2015 - Page 18 of 20 on a separate parcel; however, a potential transfer of land appears to the Board to be not feasible due to the placement of a pool on that parcel. Per the applicant, "There is no adjacent land available for purchase."

Subdivision regulations violated. Separation of this parcel from the adjoining parcel as a separate lot is a subdivision. No subdivision approval has been granted to this lot. In fact, the parcel as an accessory use has always provided economic value as a storage barn and providing additional area for yard space and off-street parking in an already-cramped neighborhood.

Fact: The parcel was sold (legally?) to another adjacent owner in 2015 for \$85,000 for use as an accessory use. The current applicant has not tried to minimize impact to the neighborhood, rather, the simply maximize profit and, through the ZBA, impose significant adverse impact to the neighborhood.

2. The applicant has demonstrated that granting this variance will not create an undesirable change in neighborhood character or detriment to nearby properties. The applicant notes **that the barn has been in existence since 1900** and that the position of the building relative to the neighbors would result in **it being less noticeable as a residence** than otherwise, and that the barn and surrounding yard are visible now.

Noncompliance with basic foundation of the application and decision: **The barn does not exist anymore!**

Key impact ignored in the decision: **view FROM the barn and putting an occupied structure that looms over what should be private rear yard space of the neighborhood.**

The board also notes that the renovation work would improve the outward appearance of the structure, currently in disrepair. 3. The Board considered the substantiality of the proposed variances. The number of variances sought, and the substantiality of four

of these in particular, when taken with the other considerations noted in this motion, are found to be large in this case. There are seven variances that would need to be granted to enable this project to move forward, and the lot size, building coverage, parking, and front setback relief would all need to be at least 50%. The rear yard variance of 37% is found to be substantial as well. The applicant notes and the Board agree in this case, **that these are pre-existing conditions of the lot, and are therefore not avoidable.** (The "lot" was never a "lot" for residential use and **the applicant has now removed all pre-existing conditions**—the applicant **failed to make clear** that there would be **no existing conditions after they demolished every part of the old barn.**): The board lot width relief sought of 16.7% is not substantial in this case, nor is the total side variance of 5%. 4. These variances will not have significant adverse physical and environmental effect on the neighborhood / district. Permeability requirements of 25% would be met. 5. The alleged difficulty is self-created as the applicant wishes to designate this parcel as a principal building; however self creation by itself is not fatal to an application. Adam McNeill, Secretary seconded the motion. Bill Moore, Chairman asked if there was any further discussion. None heard."

Subject: Murphy Lane barn project

To: susan.barden@saratoga-springs.org

Cc:

Susan,

Thank you for discussing the Murphy Lane renovation project with me today. I believe you are well in tune to the neighbors concerns.

Of ultimate concern to me as the adjoining backyard neighbor is the final grade of the earth once the project is complete, or even in the future should a new owner decide to raise the grade and direct run off to my landscaped back yard. Simply put, I am concerned about flooding for me, the Martin's, and the Tucker's (the later who both have driveways adjoining the property). What would stop a future owner from regrading the property to ultimately run all drainage into my yard or onto Murphy lane?

The original barn Sat approximately 6" below the grade of Murphy Lane. If I am correct from the filing, the front elevation now stands 36-48" above Murphy Lane (depending on how one chooses to measure -current or original elevation).

The original grade/elevation allowed for roof run off to remain on the property of 39 Murphy Lane. My back yard has always been very dry after a rain or melting snow event.

Finally, the elevation of the first floor now looks directly into my back yard with little ability for me to shield my yard above the 6' fence pictured in the attached. This view with the approved repair and pour over of original slab would have been at ground level. I respect the decision to put in a basement, but I was under the assumption that the basement dig out would allow for the original structure to be lowered back to the same elevation.

Many thanks for forward on my concern. Can you please simply reply that you have received this email so I am certain it arrived and will be sent to the ZBA? I would like this to be part of tonight's discussion to ensure my property and it's value are being considered.

Thanks!

February 24, 2016

To Whom It May Concern,

My name is Mandy Mittler and I sold Jeannie D'Agostino the barn on Murphy Lane. Prior to selling the barn to her, neighbors were given the opportunity to purchase the barn from myself and my now ex-husband. I was in attendance at several planning meetings expressing my excitement for Mrs. D'Agostino's project, as Mrs. D'Agostino stated that she could restore it. Although I moved off the street in May of 2015 when my husband and I divorced I am excited to see the finished restored carriage house.

Sincerely,

Mandy Mittler

PROPERTY INFORMATION

Property Address (No. & St.) 317 Nelson Avenue Side of St. (north, east, etc.) West

Tax Parcel No.: 166 . 37 - 1 - 22 (for example: 165.52 - 4 - 37) Tax District: Inside Outside

1. Date acquired by current owner: 2/18/2003 2. Zoning District when purchased: UR-3

3. Present use of property: home 4. Current Zoning District: UR-3

5. Has a previous ZBA application/appeal been filed for this property? Yes (when? January 2012 for what? porch - same as this never built) No

6. Is property located within (check all that apply): Historic District Architectural Review District 500' of a State Park, city boundary, or county/state highway?

7. Brief description of proposed action: To build a screened porch addition to our home

8. Is there a written violation for this parcel that is not the subject of this application? Yes No

9. Has the work, use or occupancy to which this appeal relates already begun? Yes No

10. Identify the type of appeal you are requesting (check all that apply):

INTERPRETATION (p. 2) VARIANCE EXTENSION (p. 2) USE VARIANCE (pp. 3-6) AREA VARIANCE (pp. 6-7)

FEES: Make checks payable to the "Commissioner of Finance" and attach to top of original application. Fees are cumulative and required for each request below.

- Interpretation \$ 400
- Use variance \$1,000
- Area variance
- Residential use/property: \$ 150
- Non-residential use/property: \$ 500
- Extensions: \$ 150

INTERPRETATION – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Identify the section(s) of the Zoning Ordinance for which you are seeking an interpretation:

Section(s) _____

2. How do you request that this section be interpreted? _____

3. If interpretation is denied, do you wish to request alternative zoning relief? Yes No

4. If the answer to #3 is "yes," what alternative relief do you request? Use Variance Area Variance

EXTENSION OF A VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Date original variance was granted: _____ 2. Type of variance granted? Use Area

3. Date original variance expired: _____ 4. Length of extension requested: _____

5. Explain why the extension is necessary. Why wasn't the original timeframe sufficient?: _____

When requesting an extension of time for an existing variance, the applicant must prove that the circumstances upon which the original variance was granted have not changed. Specifically demonstrate that there have been no significant changes on the site, in the neighborhood, or within the circumstances upon which the original variance was granted:

USE VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

A use variance is requested to permit the following: _____

For the Zoning Board to grant a request for a use variance, an applicant must prove that the zoning regulations create an unnecessary hardship in relation to that property. In seeking a use variance, New York State law requires an applicant to prove all four of the following "tests".

- 1. That the applicant cannot realize a reasonable financial return on initial investment for any currently permitted use on the property. "Dollars & cents" proof must be submitted as evidence. The property in question cannot yield a reasonable return for the following reasons:

A. Submit the following financial evidence relating to this property (attach additional evidence as needed):

1) Date of purchase: _____ Purchase amount: \$ _____

2) Indicate dates and costs of any improvements made to property after purchase:

<u>Date</u>	<u>Improvement</u>	<u>Cost</u>
_____	_____	_____
_____	_____	_____
_____	_____	_____

3) Annual maintenance expenses: \$ _____ 4) Annual taxes: \$ _____

5) Annual income generated from property: \$ _____

6) City assessed value: \$ _____ Equalization rate: _____ Estimated Market Value: \$ _____

7) Appraised Value: \$ _____ Appraiser: _____ Date: _____

Appraisal Assumptions: _____

B. Has property been listed for sale with the Multiple Listing Service (MLS)? Yes If "yes", for how long? _____ No

1) Original listing date(s): _____ Original listing price: \$ _____

If listing price was reduced, describe when and to what extent: _____

2) Has the property been advertised in the newspapers or other publications? Yes No

If yes, describe frequency and name of publications: _____

3) Has the property had a "For Sale" sign posted on it? Yes No

If yes, list dates when sign was posted: _____

4) How many times has the property been shown and with what results? _____

2. That the financial hardship relating to this property is unique and does not apply to a substantial portion of the neighborhood. Difficulties shared with numerous other properties in the same neighborhood or district would not satisfy this requirement. This previously identified financial hardship is unique for the following reasons:

3. That the variance, if granted, will not alter the essential character of the neighborhood. Changes that will alter the character of a neighborhood or district would be at odds with the purpose of the Zoning Ordinance. The requested variance will not alter the character of the neighborhood for the following reasons:

4. That the alleged hardship has not been self-created. An applicant (whether the property owner or one acting on behalf of the property owner) cannot claim "unnecessary hardship" if that hardship was created by the applicant, or if the applicant acquired the property knowing (or was in a position to know) the conditions for which the applicant is seeking relief. The hardship has not been self-created for the following reasons:

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) 2.6B Table 2.

Dimensional Requirements

<u>Building on lot</u>
<u>minimum rear</u>

<u>From</u>
<u>978 sq.ft. (29%)</u>
<u>25 ft.</u>

<u>To</u>
<u>1,138 sq.ft. (33.5%)</u>
<u>20.2 ft</u>

<hr/>	<hr/>	<hr/>

Other:

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.
See attached typed response to questions 1-5. They follow this page.

Five Considerations for Area Zoning Variance

1. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

The planned covered porch dimensions are 10' by 16' (see survey map for placement of porch). The porch would extend 10 feet out from west side of the house (including roof overhang) and it would cover 16 feet directly across the back face of the house (also including roof overhang). The porch is designed to offer sufficient size for sitting as well as dining during the summer months. Currently our home has no areas that enable us to enjoy the outdoors along with the shelter of roof and screen.

Orienting the porch so that it comes out 16' from the house doesn't work because it would create a roofline with an undesirable pitch for snow loading. A higher roof is blocked by the location of the second story window.

Purchasing additional land from a neighbor is not an option. Three of the contiguous lots sit well below a retaining wall, and a fourth, abutting the northern side of the property, has a deck and small goldfish pond just beyond a fence that acts as a property line. The property owner to the south is not interested in selling any of property that sits between the hedge and their garage.

2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood for the following reasons:

The neighborhood is characterized by small residential lots. The contiguous property to the north (319 Nelson Avenue – see photo 7) has a backyard deck that required a zoning variance. Residential additions are common throughout this neighborhood, including one across the street at 314 Nelson Avenue (see photo 5) built since we occupied this home in 2003.

3. Whether the variance is substantial. The variance is not substantial for the following reasons:

The zoning statute permits the construction of a non-detached building (such as a garage) equal to 10% of the property area, for a total of 40% area coverage of the lot. When the proposed porch is added, the total lot coverage for this property will be 33.5%, a smaller percentage of area coverage. This is also a more desirable use than a garage. Given the size and neighborhood character, this is not a substantial variance.

The requested rear setback is 20.2 feet, to the west of the house. Because the land falls away substantially beyond where the porch will end, the neighbors will not experience visual encroachment (see photo 4).

Note: four years ago we sought and received a zoning variance for a screened porch on this site that was 33% larger (16' x20'). At that time, the larger porch was sought to accommodate a ping

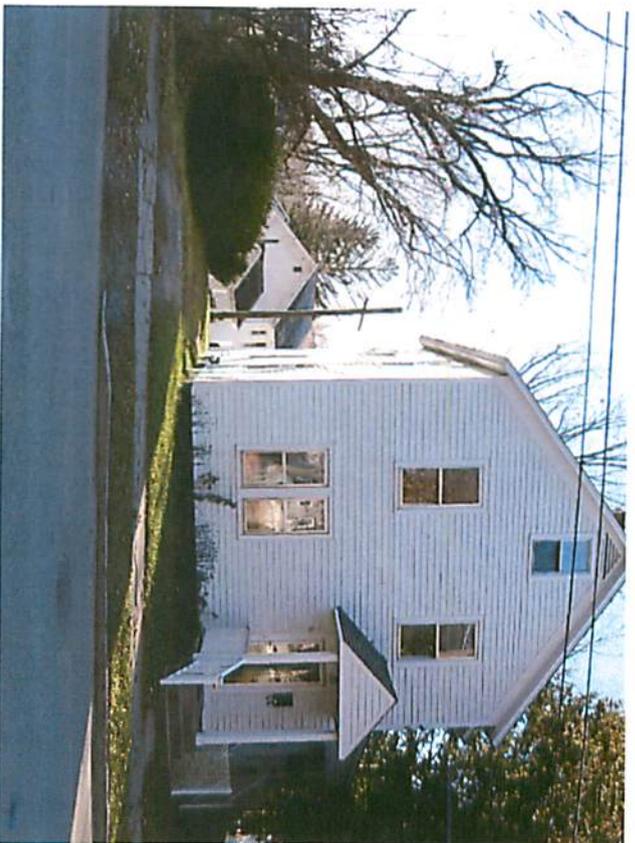

pong table and room for robust play. That porch was never constructed because an injury has curtailed my ability to play this sport.

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have adverse physical or environmental effect on the neighborhood or district for the following reasons:

The proposed covered porch will be built in the backyard; it will be barely visible from the street and will not be easily perceived, if at all, by passing automobiles. The porch will not obstruct any views, nor does it change access to the property. The property to the south has a home with an attached garage on its north side, so there are no views of our backyard from inside the home. The property owner to the north currently has a view of our shed (see survey map); this will not change. The three contiguous lots to the west (houses that face onto Circular Street) sit well below the level of the porch's proposed location.

Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

The situation is self-created in the sense that we purchased a home on a small inner city lot and now wish to add on to it. Our backyard is small and much of the land slopes down to a retaining wall. The space does not lend itself to backyard recreation and there has been little use of the yard for the twelve plus years we have lived at 317 Nelson Avenue.

1. Front of 317 Nelson

2. Back of 317 Nelson, where the screened porch would go.

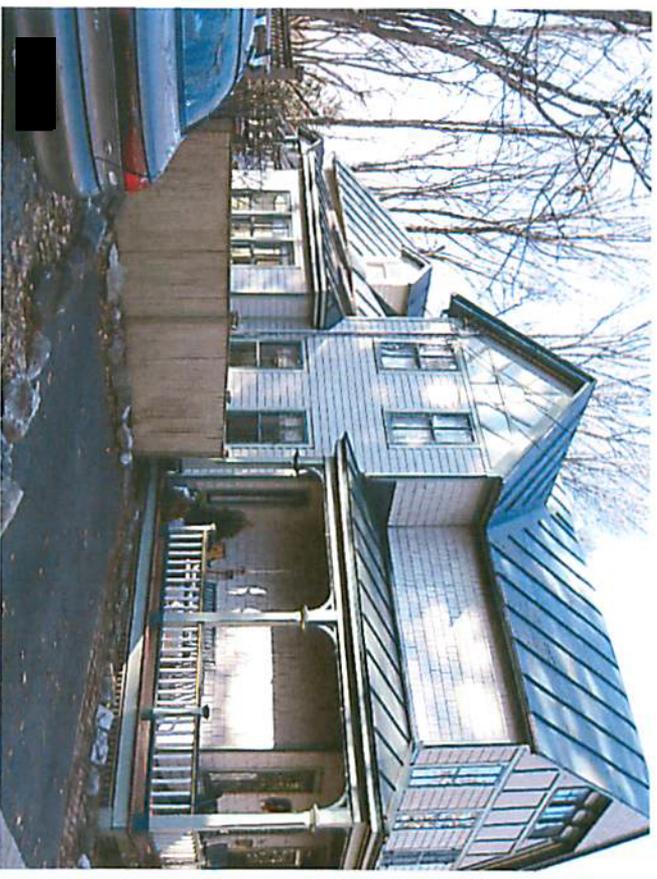

3. View looking north from property line with 315 Nelson

4. View looking south from property line with 319 Nelson Ave.
Note the portion of backyard descending to the west.

5. 314 Nelson Ave., recent addition to the right.

6. 309 Nelson Avenue. Note addition behind which extends to back property line.

7. Deck on 319 Nelson Avenue that required a zoning variance. Note that the fence is the property line between 317 Nelson and 319 Nelson.

2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

Five horizontal lines for handwritten explanation.

In accord with Article 240-14.4A(1)(b)(6) of the Zoning Ordinance, "any request for an area variance, which shall effect a change in density, shall be applied for and considered as a use variance and decided under criteria for the same". A request that involves any of the following relief will require an application for a use variance and will be decided under the use variance criteria:

- (1) Dimensional relief from minimum lot size requirements that would allow additional permitted units and/or uses
- (2) Relief from on site parking requirements
- (3) Reduction in land area requirements for multi-family units

DISCLOSURE

Does any City officer, employee, or family member thereof have a financial interest (as defined by General Municipal Law Section 809) in this application? No Yes If "yes", a statement disclosing the name, residence and nature and extent of this interest must be filed with this application.

APPLICANT CERTIFICATION

I/we, the property owner(s), or purchaser(s)/lessee(s) under contract, of the land in question, hereby request an appearance before the Zoning Board of Appeals.

By the signature(s) attached hereto, I/we certify that the information provided within this application and accompanying documentation is, to the best of my/our knowledge, true and accurate. I/we further understand that intentionally providing false or misleading information is grounds for immediate denial of this application.

Furthermore, I/we hereby authorize the members of the Zoning Board of Appeals and designated City staff to enter the property associated with this application for purposes of conducting any necessary site inspections relating to this appeal.

APPLICATION FOR: APPEAL TO THE ZONING BOARD FOR AN INTERPRETATION, USE VARIANCE, AREA VARIANCE AND/OR VARIANCE EXTENSION

<u>APPLICANT(S)*</u>	<u>OWNER(S) (If not applicant)</u>	<u>ATTORNEY/AGENT</u>
Name <u>AMW Holdings Inc</u>	_____	_____
Address <u>563 North Broadway</u>	_____	_____
<u>Saratoga Springs, NY 12866</u>	_____	_____
Tel./Fax <u>587-4113 1 587-0260</u>	_____ / _____	_____ / _____
Email _____	_____	_____

* An applicant must be the property owner, lessee, or one with an option to lease or purchase the property in question.
Applicant's interest in the premises: Owner Lessee Under option to lease or purchase

PROPERTY INFORMATION

Property Address (No. & St.) 27 Jewel Place Side of St. (north, east, etc.) North

Tax Parcel No.: 166.13 - 50 - 2 (for example: 165.52 - 4 - 37) Tax District: Inside Outside

1. Date acquired by current owner: Under Contract 2. Zoning District when purchased: UR3

3. Present use of property: Multi Family - Ballet Studio 4. Current Zoning District: UR3

5. Has a previous ZBA application/appeal been filed for this property? Yes (when? 10/31/13 for what? _____) No

6. Is property located within (check all that apply)?: Historic District Architectural Review District 500' of a State Park, city boundary, or county/state highway?

7. Brief description of proposed action: Tear down existing building and build seven unit single family condominium project.

8. Is there a written violation for this parcel that is not the subject of this application? Yes No

9. Has the work, use or occupancy to which this appeal relates already begun? Yes No

10. Identify the type of appeal you are requesting (check all that apply):
 INTERPRETATION (p. 2) VARIANCE EXTENSION (p. 2) USE VARIANCE (pp. 3-6) AREA VARIANCE (pp. 6-7)

FEES: Make checks payable to the "Commissioner of Finance" and attach to top of original application. Fees are cumulative and required for each request below.

- Interpretation \$ 400
- Use variance \$1,000
- Area variance
- Residential use/property: \$ 150
- Non-residential use/property: \$ 500
- Extensions: \$ 150

INTERPRETATION – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Identify the section(s) of the Zoning Ordinance for which you are seeking an interpretation:

Section(s) _____

2. How do you request that this section be interpreted? _____

3. If interpretation is denied, do you wish to request alternative zoning relief? Yes No

4. If the answer to #3 is "yes," what alternative relief do you request? Use Variance Area Variance

EXTENSION OF A VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Date original variance was granted: 5/1/14 2. Type of variance granted? Use Area

3. Date original variance expired: 11/1/15 4. Length of extension requested: _____

5. Explain why the extension is necessary. Why wasn't the original timeframe sufficient?: We were unable to close on the property due to it being held up in probate for the last several months. We are anticipating to close within the next few weeks.

When requesting an extension of time for an existing variance, the applicant must prove that the circumstances upon which the original variance was granted have not changed. Specifically demonstrate that there have been no significant changes on the site, in the neighborhood, or within the circumstances upon which the original variance was granted:

Nothing has changed to this area & no new development

on or near this site.

USE VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

A use variance is requested to permit the following: _____

For the Zoning Board to grant a request for a use variance, an applicant must prove that the zoning regulations create an unnecessary hardship in relation to that property. In seeking a use variance, New York State law requires an applicant to prove all four of the following “tests”.

- I. That the applicant cannot realize a reasonable financial return on initial investment for any currently permitted use on the property. “Dollars & cents” proof must be submitted as evidence. The property in question cannot yield a reasonable return for the following reasons:

A. Submit the following financial evidence relating to this property (attach additional evidence as needed):

1) Date of purchase: _____ Purchase amount: \$ _____

2) Indicate dates and costs of any improvements made to property after purchase:

<u>Date</u>	<u>Improvement</u>	<u>Cost</u>
_____	_____	_____
_____	_____	_____
_____	_____	_____

3) Annual maintenance expenses: \$ _____ 4) Annual taxes: \$ _____

5) Annual income generated from property: \$ _____

6) City assessed value: \$ _____ Equalization rate: _____ Estimated Market Value: \$ _____

7) Appraised Value: \$ _____ Appraiser: _____ Date: _____

Appraisal Assumptions: _____

B. Has property been listed for sale with the Multiple Listing Service (MLS)? Yes If "yes", for how long? _____ No

1) Original listing date(s): _____ Original listing price: \$ _____

If listing price was reduced, describe when and to what extent: _____

2) Has the property been advertised in the newspapers or other publications? Yes No

If yes, describe frequency and name of publications: _____

3) Has the property had a "For Sale" sign posted on it? Yes No

If yes, list dates when sign was posted: _____

4) How many times has the property been shown and with what results? _____

2. That the financial hardship relating to this property is unique and does not apply to a substantial portion of the neighborhood. Difficulties shared with numerous other properties in the same neighborhood or district would not satisfy this requirement. This previously identified financial hardship is unique for the following reasons:

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) _____.

Dimensional Requirements

	From	To	→ To
Fencing (exterior fence only)	6'	8'	
Lot Coverage	30%	(Prev. Appr.) 43.5%	46.0%
Front Yard Setback	10'	(Pre. Appr.) 5'	1'

Other: _____

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- I. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

Our fencing request is new, asking for the height limit to go from 6 – 8' (exterior fence only). This creates privacy along the perimeter, a benefit to both sides of the fence. What is currently there is dilapidated and run down, hence aesthically a great improvement. Our modified request for front setback of 1' is what currently exists and consistent with surrounding homes. The 5' granted does not allow for our (2) front porches to be placed on the unit. This style entry fits with the street scape. Finally, the area coverage request of 46% is what was originally asked for, and necessary for the option of adding additional back porches on the homes; an opportunity for our clients to enjoy their backyards, since their fronts are quite limited-in size. These variance alternatives are reasonable and contiguous with the urban feel of downtown.

2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

Granting the area variance will enhance the neighborhood by creating privacy, align the two front porches with the neighboring homes, and allow only 2.5% more in area coverage which was originally requested.

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

This request is minimal and less than what currently exists on the property. The fence height increase is not substantial and benefits both the current and new homeowners.

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

This is one lot, seven homes, a singular curb cut and permissible use of the land in lieu of its current nonconforming commercial use. Permeability exceeds the minimum, peaking at 35-10%, parking accommodations are onsite and traffic is reduced due to the applicable Urban Residential 3 zone. The lot will be properly cleaned and abated, a favorable influence both physically and environmentally on the neighborhood.

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

The difficulty was created by the need to change a non-conforming structure to a residential economically feasible solution. A win for all involved; neighbors, city, and a proper sustainable usage by City Standards.

In accord with Article 240-14.4A(1)(b)(6) of the Zoning Ordinance, "any request for an area variance, which shall effect a change in density, shall be applied for and considered as a use variance and decided under criteria for the same". A request that involves any of the following relief will require an application for a use variance and will be decided under the use variance criteria:

- (1) Dimensional relief from minimum lot size requirements that would allow additional permitted units and/or uses
- (2) Relief from on site parking requirements
- (3) Reduction in land area requirements for multi-family units

DISCLOSURE

Does any City officer, employee, or family member thereof have a financial interest (as defined by General Municipal Law Section 809) in this application? No Yes If "yes", a statement disclosing the name, residence and nature and extent of this interest must be filed with this application.

APPLICANT CERTIFICATION

I/we, the property owner(s), or purchaser(s)/lessee(s) under contract, of the land in question, hereby request an appearance before the Zoning Board of Appeals.

By the signature(s) attached hereto, I/we certify that the information provided within this application and accompanying documentation is, to the best of my/our knowledge, true and accurate. I/we further understand that intentionally providing false or misleading information is grounds for immediate denial of this application.

Furthermore, I/we hereby authorize the members of the Zoning Board of Appeals and designated City staff to enter the property associated with this application for purposes of conducting any necessary site inspections relating to this appeal.

PART I - PROJECT INFORMATION (To be completed by Applicant or Project sponsor)

1. APPLICANT/SPONSOR

2. PROJECT NAME

ANW Holdings

3. PROJECT LOCATION:

27 Juvenet Place

Municipality

Saratoga Springs, NY

County

Saratoga

4. PRECISE LOCATION (Street address and road intersections, prominent landmarks, etc., or provide map) ✓

5. PROPOSED ACTION IS:

New

Expansion

Modification/alteration

6. DESCRIBE PROJECT BRIEFLY:

7 Individual Condominiums

7. AMOUNT OF LAND AFFECTED:

Initially: _____ (acres)

Ultimately: _____ (acres)

8. WILL PROPOSED ACTION COMPLY WITH EXISTING ZONING OR OTHER EXISTING LAND USE RESTRICTIONS?

Yes

No

If No, describe briefly

9. WHAT IS PRESENT LAND USE IN VICINITY OF PROJECT?

Residential

Industrial

Commercial

Agriculture

Park/Forest/Open Space

Other

Describe:

10. DOES ACTION INVOLVE A PERMIT APPROVAL, OR FUNDING, NOW OR ULTIMATELY FROM ANY OTHER GOVERNMENTAL AGENCY (FEDERAL, STATE OR LOCAL)?

Yes

No

If Yes, list agency(s) name and permit/approvals:

Bldg Dept - Saratoga Springs

11. DOES ANY ASPECT OF THE ACTION HAVE A CURRENTLY VALID PERMIT OR APPROVAL?

Yes

No

If Yes, list agency(s) name and permit/approvals:

12. AS A RESULT OF PROPOSED ACTION WILL EXISTING PERMIT/APPROVAL REQUIRE MODIFICATION?

Yes

No

I CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS TRUE TO THE BEST OF MY KNOWLEDGE

Applicant/sponsor name: _____

Date: _____

Signature: _____

PART II - IMPACT ASSESSMENT (To be completed by Lead Agency)

A. DOES ACTION EXCEED ANY TYPE I THRESHOLD IN 6 NYCRR, PART 617.4? If yes, coordinate the review process and use the FULL EAF.
 Yes No

B. WILL ACTION RECEIVE COORDINATED REVIEW AS PROVIDED FOR UNLISTED ACTIONS IN 6 NYCRR, PART 617.6? If No, a negative declaration may be superseded by another involved agency.
 Yes No

C. COULD ACTION RESULT IN ANY ADVERSE EFFECTS ASSOCIATED WITH THE FOLLOWING: (Answers may be handwritten, if legible)
C1. Existing air quality, surface or groundwater quality or quantity, noise levels, existing traffic pattern, solid waste production or disposal, potential for erosion, drainage or flooding problems? Explain briefly:

C2. Aesthetic, agricultural, archaeological, historic or other natural or cultural resources; or community or neighborhood character? Explain briefly:

C3. Vegetation or fauna, fish, shellfish or wildlife species, significant habitats, or threatened or endangered species? Explain briefly:

C4. A community's existing plans or goals as officially adopted, or a change in use or intensity of use of land or other natural resources? Explain briefly:

C5. Growth, subsequent development, or related activities likely to be induced by the proposed action? Explain briefly:

C6. Long term, short term, cumulative, or other effects not identified in C1-C5? Explain briefly:

C7. Other impacts (including changes in use of either quantity or type of energy? Explain briefly:

D. WILL THE PROJECT HAVE AN IMPACT ON THE ENVIRONMENTAL CHARACTERISTICS THAT CAUSED THE ESTABLISHMENT OF A CRITICAL ENVIRONMENTAL AREA (CEA)?
 Yes No If Yes, explain briefly:

E. IS THERE, OR IS THERE LIKELY TO BE, CONTROVERSY RELATED TO POTENTIAL ADVERSE ENVIRONMENTAL IMPACTS?
 Yes No If Yes, explain briefly:

PART III - DETERMINATION OF SIGNIFICANCE (To be completed by Agency)

INSTRUCTIONS: For each adverse effect identified above, determine whether it is substantial, large, important or otherwise significant. Each effect should be assessed in connection with its (a) setting (i.e. urban or rural); (b) probability of occurring; (c) duration; (d) irreversibility; (e) geographic scope; and (f) magnitude. If necessary, add attachments or reference supporting materials. Ensure that explanations contain sufficient detail to show that all relevant adverse impacts have been identified and adequately addressed. If question d of part ii was checked yes, the determination of significance must evaluate the potential impact of the proposed action on the environmental characteristics of the CEA.

Check this box if you have identified one or more potentially large or significant adverse impacts that **MAY** occur. Then proceed directly to the FULL EAF and/or prepare a positive declaration.

Check this box if you have determined, based on the information and analysis above and any supporting documentation, that the proposed action **WILL NOT** result in any significant adverse environmental impacts **AND** provide, on attachments as necessary, the reasons supporting this determination.

ACCOUNTS DEPARTMENT

IN THE MATTER OF THE APPEAL OF
ANW Holdings, Inc. of 564 Broadway
Saratoga Springs, NY 12866

from the Building Inspector's Denial of Application for Land Use and/or Building for the premises at 27 Jumel Place, Saratoga Springs, New York, identified as Tax Parcel No.: 166.13-1-50.2 in the inside district of the City.

The Applicant has applied for an area variance for relief from the current City Zoning Ordinance applicable to the Urban Residential - 3 zoning district to construct a seven unit condominium development seeking relief from the maximum principal buildings permitted on one lot, maximum principal building coverage, the minimum front yard setback requirements for the two units fronting on Jumel Place, and from the minimum rear yard setback requirements for the two units located at the rear of the property, and public notice having been duly given of a hearing on said application on July 9, 2013 and October 28, 2013.

In consideration of the balance between the benefit to the Applicant with the detriment to the health, safety and welfare of the community, the Board makes the following resolution that the requested area variance for the following relief or such lesser amount, as described in the submitted application, BE APPROVED:

Type of Requirement	Required	Existing	Proposed	Total Relief Requested
Maximum Principal Buildings on one lot	One (1)	One (1)	Seven (7)	6 (600%)
Maximum Building Coverage	30%	49.4%	43.5%	13.5% (45%)
Minimum Front Yard Setback for the 2 units fronting on Jumel Place	10 feet	1 foot	5 feet	5 feet (50%)
Minimum Rear Yard Setback for the 2 units located at the rear	25 feet	.7 foot	6 feet	19 feet (76%)

1. The Applicant has demonstrated that this benefit cannot be achieved by other means feasible. This Board has been asked to consider several prior applications to redevelop this property. It is currently used for mixed commercial and residential purposes with a large cement structure, formerly a manufacturing facility, located on the property. The current use is not conducive to a residential neighborhood and the noise and traffic generated by the current use has been an issue of concern for many of the neighbors. The unique nature

of this property and the prior failed attempts to arrive at a use for this property that is acceptable to neighbors, conforming with the neighborhood and economically feasible has demonstrated that the redevelopment of this property raises unusual and distinct issues. Not only has the Applicant explored alternate means to achieve the requested benefit including a smaller number of units which were evaluated and found to be economically unfeasible, but prior applicants have also attempted to use the structure for varied uses, all of which demonstrates that other alternatives have not been shown to be practical or economically feasible. The applicant has demonstrated that redeveloping this property from an unsightly cement structure used for commercial purposes into a seven unit residential condominium development is the best economically feasible use as shown on the proposed site plan for this property.

2. The Applicant has demonstrated that granting these variances will not create an undesirable change in neighborhood character or a detriment to nearby properties. Applicant had shown that removal of the current cement structure and construction of a seven unit condominium will result in a development that substantially conforms with the residential homes in the neighborhood. The Applicant has demonstrated, and several neighbors have testified in support, that this redevelopment will have a very beneficial impact on the neighborhood. The granting of these variances will result in the removal of a varied use (ballet school), unauthorized use (karate school) and prior nonconforming use (manufacturing facility) and result in a conforming use which is in keeping with the character of the neighborhood. We note that the City Planning Board issued a favorable advisory opinion identifying that "This site can adequately accommodate development of this scale, and that the overall density proposed is compatible with the surrounding neighborhood." Based on the foregoing, the granting the variances will improve the appearance of the property and will not create an undesirable change in neighborhood character or impact on nearby properties, but rather a desirable and valuable change.

3. The relief requested may be considered substantial, but is mitigated by the fact that the current existing structure is non-conforming and by the fact that the lot, at 34,765.50 square feet, would accommodate either five single-family lots or four two-family buildings for total of eight residences. The requested variance, for seven units, is one less than the permitted 8 residences. In order to develop this property in a manner that is most conducive to current needs of our citizens, creating smaller free standing condominiums is beneficial. The construction of one continuous unit would have eliminated the need for a variance for seven units, but would not have resulted in a project that meets the current needs of some members of the community. The minimum front and rear setback variances are necessary to maximize the available parking and the need for service vehicles to access the property. Due to the non-conformance of the current structure and some of the existing structures in the neighborhood, these variances will not have a substantial impact on the neighborhood and therefore mitigates the substantial nature of the variances.

4. The Applicant has demonstrated that the variance will not have a significant adverse physical or environmental effect on the neighborhood. The Applicant has demonstrated, and several neighbors have testified in support, that this redevelopment will have a significant beneficial physical impact on the neighborhood. Not only will the current commercial use with resulting traffic and noise generated by such use no longer interfere with the quiet residential neighborhood, but the physical change to the property will be a significant improvement to the appearance of the neighborhood. Additionally, the proposed construction will improve the permeability of the lot to 35.1%, in excess of the required 25%.

5. The alleged difficulty may be considered self-created in that the Applicant desires to re-develop this property in a manner that will meet the needs of residents of Saratoga Springs who are looking to down size and still create a development that conforms to the neighborhood as a residential development in an economic

manner, however, this is not necessarily fatal to the application.

Notifications/Approvals/Conditions of Approval:

Prior variances are discontinued.

Saratoga Springs City Planning Board site plan review is required – the Planning Board will address local concerns as identified by the Saratoga County Planning Board.

Saratoga County Planning Board issued a finding of no significant county side or inter community impact.

Adopted by the following vote:

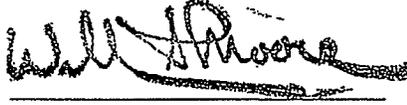

AYES: 6 (B. Moore, K. Kaplan, A. McNeill, G. Hasbrouck, S. Carlson, O. Ludd)

NAYES: 0

Dated: October 28, 2013

This variance shall expire 18 months following the filing date of such decision unless the necessary building permit has been issued and actual construction begun as per 240-8.5.1.

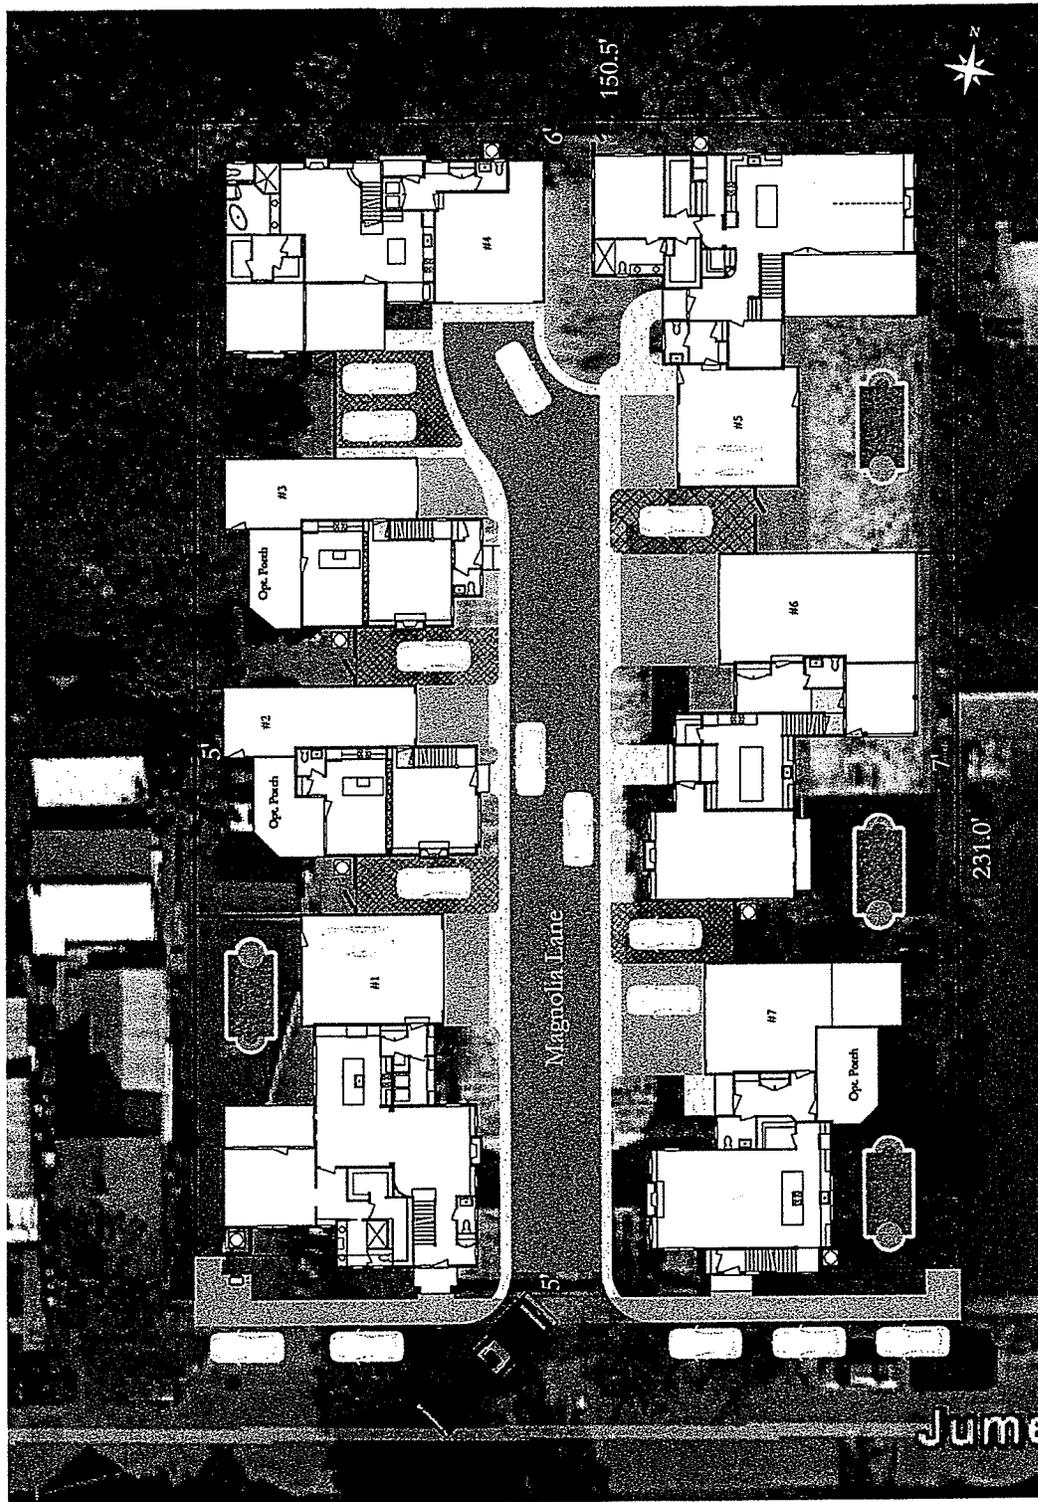

10/30/13

Appeal #2759
IN THE MATTER OF THE APPEAL OF
ANW Holdings, Inc.
564 Broadway
Saratoga Springs, NY 12866

from the Building Inspector's Denial of Application for Land Use and/or Building for the premises at 27 Jumel Place, Saratoga Springs, New York, identified as Tax Parcel No.: 166.13-1-50.2 in the inside district of the City.

The Applicant has applied for modification to Appeal # 2714, a variance granted October 23, 2013, seeking modification of the relief from the maximum principal building coverage and the minimum front yard setback requirements for the two units fronting on Jumel Place, and for additional relief from maximum height of a residential fence, all as provided in the current City Zoning Ordinance applicable to the Urban Residential - 3 zoning district, and public notice having been duly given of a hearing on said application on April 21, 2014 and April 28, 2014.

In consideration of the balance between the benefit to the Applicant with the detriment to the health, safety and welfare of the community, the Board makes the following resolution that the requested area variance for the following relief or such lesser amount, as described in the submitted application, BE APPROVED:

Type of Requirement	Required/ Permitted	Previously Approved	Proposed	Total Relief Requested
Maximum Building Coverage	30%	43.5%	46%	16% (53%)
Minimum Front Yard Setback for the 2 units fronting on Jumel Place	10 feet	5 foot	1 feet	9 feet (90%)
Maximum Height residential fence	6 feet	N/A	8 feet	2 feet (33%)

1. The Applicant has demonstrated that this benefit cannot be achieved by other means feasible. This Board has previously determined in Appeal #2714 that the Applicant has demonstrated that redeveloping this property from an unsightly cement structure used for commercial purposes into a seven unit residential condominium development is the best economically feasible use as shown on the proposed site plan for this property. The modifications to the maximum principal building coverage and the minimum front yard setback requested by Applicant, subject to the conditions provided below, do not change the Board's prior determinations. The request to increase the maximum height of the residential fence is requested to ensure added privacy for the units and for adjacent neighbors. Providing this privacy cannot be achieved by other means due to the limited size of the property.

2. The Applicant has demonstrated that granting the modification to these variances will not create an undesirable change in neighborhood character or a detriment to nearby properties. In granting variance #2714, the Board concluded the granting the variances will improve the appearance of the property and will not create an undesirable change in

neighborhood character or impact on nearby properties, but rather a desirable and valuable change. The modifications do not change this conclusion. Additionally, granting the variance for an increased height in the fence will enhance the character of the neighborhood.

3. The modifications to the relief requested may be considered substantial. However, due to the proximity of the proposed developed structures to the neighbors and to one another, the Board finds the benefit of privacy fencing to offset the adverse impact.

4. The Applicant has demonstrated that the modification of the variances will not have a significant adverse physical or environmental effect on the neighborhood. In the prior Appeal, the Applicant demonstrated and several neighbors testified in support, that this redevelopment will have a significant beneficial physical impact on the neighborhood. The modifications requested in this application do not alter the conclusions reached by this Board in Appeal #2714. Additionally, the request for an increase in the height of the fence does not have an adverse physical or environmental effect on the neighborhood.

5. The alleged difficulty may be considered self-created, however, this is not necessarily fatal to the application.

Notifications/Approvals/Conditions of Approval:

The minimum front yard setback of 5 feet previously approved in Appeal #2714 is modified only to permit front stoops or stairways within the 5 foot setback to the 1 foot setback.

No eight (8) foot fence shall be permitted to be constructed along Jumel Place or extending beyond the front foundation line along Jumel Place.

County Planning Board issued a decision of "No Significant County Impact" on April 17, 2014.

Adopted by the following vote:

AYES: 7 (B. Moore, K. Kaplan, A. McNeill, G. Hasbrouck, S. Carlson O. Ludd and J. Helicke)

NAYES: 0

Dated: April 28, 2014

This variance shall expire 18 months following the filing date of such decision unless the necessary building permit has been issued and actual construction begun as per 240-8.5.1.

5-1-14
Date

Chair

I hereby certify the above to be a full, true and correct copy of a resolution duly adopted by the Zoning Board of Appeals of the City of Saratoga Springs on the date above mentioned, seven members of the Board being present.

Subject: ANW Holdings "Downton Walk"

Dear Ms. Barden -

My husband and I live at [REDACTED] Jumel Place, [REDACTED] across the street from 27 Jumel Place. We received the notice of public hearing for the above mentioned project. It is unlikely that we will be able to attend the meeting on Monday February 22 in person, but wanted to make a statement for the record.

We are in support of the project. The project is an enormous improvement over the existing structure, and its previous uses.

We understand the request for variance from the front yard setback, and agree it will maintain a similar look to what exists on the street.

Thank you.

Sincerely,
Tracy and Johnny Miller

Re: Illegal Application for “seven single family condominiums,”
and requests for substantial Zoning Variances at
27 Jumel Place, Saratoga Springs, by ANW Holdings, Builder, John Witt

Public Hearing #2 to be held at the Zoning Board of Appeals meeting on March 7, 2016

Fr: Neighbors of Surrounding Properties

On Monday night, March 7th, the Zoning Board will be deciding on a major project on Jumel Place which is illegal and out of character with the neighborhood. The builder, John Witt, is asking for 7 single condominiums which would be selling for up to 1.5 million dollars per unit. Condominiums are not allowed in UR-3 zoning and the lot is zoned for only 5 units. The builder should be required to follow the zoning law. Mr. Witt is also asking for substantial variances as well.

The Zoning Board of Appeals needs to protect the residential neighborhoods on East Avenue, Lake Avenue, Granger St, and Jumel Place, which surround 27 Jumel Place, from this massively overdone and illegal application. This project will negatively impact the value of our homes and the quality of life in our neighborhood. There are far too many legal questions and large variances being sought, which if granted, would make zoning law useless.

First and foremost, the Land Use category of Jumel Place in our city’s 2015 Comprehensive Plan is a Core Residential Neighborhood-1 (CRN-1), allowing a maximum density of 10 units/acre. In our city’s Zoning Ordinance, Jumel Place is located in an Urban Residential-3 (UR-3) Zoning District, which allows for only single and two-family homes to be built. By law, this particular parcel of land is large enough to allow five single family homes or four two-family homes.

The applicant is requesting to build “seven single family condominiums.” Condominiums are not allowed on Jumel Place, as by definition in our Zoning Ordinance, condominiums are multifamily. The city’s Zoning Ordinance states the definition of a condominium as follows: “CONDOMINIUM: A multifamily dwelling containing individually owned dwelling units, wherein the real property title and ownership are vested in an owner, who has an undivided interest with others in the common usage areas and facilities which serve the development.”

Multifamily structures are not allowed in a Core Residential Neighborhood-1 or a UR-3 Zoning District. The request by the applicant must be called what they are, 7 single family homes. However, only 5 single family units are allowed on this size lot, or 4 two-family units. (Actually only one unit is allowed, as the applicant has not sub-divided the lot.)

The request for seven single family homes is 40% over the density allowed in an UR-3 Zoning District and creates a 40% density bonus for Mr. Witt's \$700K to \$1.5 million dollar homes. In our city's Zoning Ordinance, a density bonus of this magnitude is only allowed for affordable senior housing. This is not affordable housing.

To allow for the density the applicant is requesting, the city council would have to change the Land Use category of this area in the Comprehensive Plan from a Core Residential Neighborhood-1 (CRN-1), which allows up to 10 units/acre, to a Core Residential Neighborhood-2 (CRN-2), which allows up to 15 units/acre.

Why is the applicant insisting on calling these seven single family homes "seven single family condominiums"?

Is it because the applicant believes he will only have to provide back yards for two of the seven units, as his application shows? Five of the units have no back yards at all. A 25' back yard setback is required for every unit in a UR-3 Zoning District.

Is it so the applicant doesn't have to spend the money to subdivide the lot?

Is it because the applicant thinks he will be allowed more units than the maximum of five single family homes allowed on this lot?

Is it because these \$700K to \$1.5 million dollars homes may receive a condominium tax break, thereby forcing the far more modest homes in the area to virtually subsidize them?

Is it because of all of these reasons? We simply do not know.

Legally, whether these seven single family homes are called condominiums, or not, they are not allowed on this property site. **Only five single family homes are allowed by law on this property.** Approving this application would be in violation of the city's Comprehensive Plan and its Zoning Ordinance.

In addition to the applicant requesting two units more than legally allowed on this lot, the applicant also is asking for the following massive variances.

Variance 1) The maximum building coverage allowed on this lot is 30%. The applicant had previously asked for a 43.5% building coverage allowance, or 45% more than what is allowed. He has recently increased this request to 46%, or 53.3% more than what is allowed. Granting either of these requests would be substantial.

Variance 2) The rear yard setback required for each unit is 25 feet. The applicant is asking that this requirement be eliminated by 100% for five units, going from the 25 feet required to zero (0) feet. For the remaining two units he is asking for a 76% reduction in the rear yard setback from 25 feet to 6 feet.

Variance 3) The front yard setback required for the two front units is 10 feet. The applicant is asking for one (1) foot, a 90% reduction in the front yard setback. The applicant claims that this is so "our (2) front porches [can] be placed on the unit." However, his drawings show that he is not proposing porches, only overhangs.

Variance 4) The fence height allowed in this UR-3 residential area is six feet. The applicant is asking for an eight foot fence, a 33% increase in height over what is allowed. Why is this necessary only for this development? Is the applicant trying to exclude the rest of the neighborhood? A fence this high would create an exclusive walled enclave shutting out the existing neighborhood.

Variance 5) The applicant is asking for a maximum principal building on one lot to be increased from one to seven, a 600% increase. As mentioned earlier, only five single family units are allowed by law on this property, after the property is subdivided. Why is this property not being subdivided?

This project will negatively impact the value of our homes and the quality of life in our neighborhood.

There are far too many legal questions and large variances being sought, which if granted, would make zoning law useless.

This illegal application with its substantial variances needs to be denied by the Saratoga Springs Zoning Board of Appeals at their upcoming meeting on March 7th.

The neighbors would support a more balanced project with 5 single family homes on 30% of the land with more standard setbacks.

Re: APPLICATION FOR CONDOMINIUMS
AND REQUESTS FOR ZONING VARIANCES
27 JUMEL PLACE, SARATOGA SPRINGS, BY BUILDER – JOHN WITT

It appears that the Saratoga Springs Zoning Board of Appeals might be in danger of overstepping its purview if they approve Developer John Witt's current request which will effectively change the zoning ordinance regarding the type of housing allowed in a long-existing Jumel Place neighborhood, within a mile of Saratoga Race Course. Witt has requested an area variance, when what he needs is a use variance, because the condominiums he proposes are not legally allowed within the property's UR-3 zoning. According to our zoning laws – which have the stated interest of maintaining a particular harmony within each of the city's different districts – such use variance would need the approval of the City Council, not an end run through the ZBA. But a vote is scheduled for the ZBA meeting on March 7.

Although the City offers ample opportunity to build cluster housing in UR-1 and SR-2 zones (per Article 4, Section 241-13-A of the city code - ecode.360.com), Witt is attempting to cluster seven single-family condominiums on a 0.79-acre UR-3 lot. Current zoning only allows for either one single family residence or one two-family residential structure. In his proposal, the seven owners would each have an undivided interest in the entire property, while they own their individual structures that sit on the commonly-owned land (which is what defines its condominium status). Contrary to claims that condominiumizing the land alone is only a financial move, it is a clear change of use of the land, in that it automatically includes the clustering model which, in addition to being restricted to specific other areas of the City, allows for tighter lot-lines between homes, albeit they must still follow specific setback and open space codes.

In addition to such change of use, he has also asked for setbacks that would be in violation of code even within a clustered community – as crowded as 1-foot from the existing front sidewalk (10 feet is legal) and 6-feet from the rear (25' is legal). Witt is also requesting additional height, approaching three-storeys, on his structures – which would be interruptively noticeable from Lake Avenue (Route 29), one of the main thoroughfares into the City. He also wants permission to erect an 8-foot fence around three sides of the perimeter to enclose/isolate his Downton Walk community, an English-Cotswold-style development, from the rest of the Victorian/American-turn-of-the-century neighborhood, in which some homes have been there since the late 1800s among others from the 1920s.

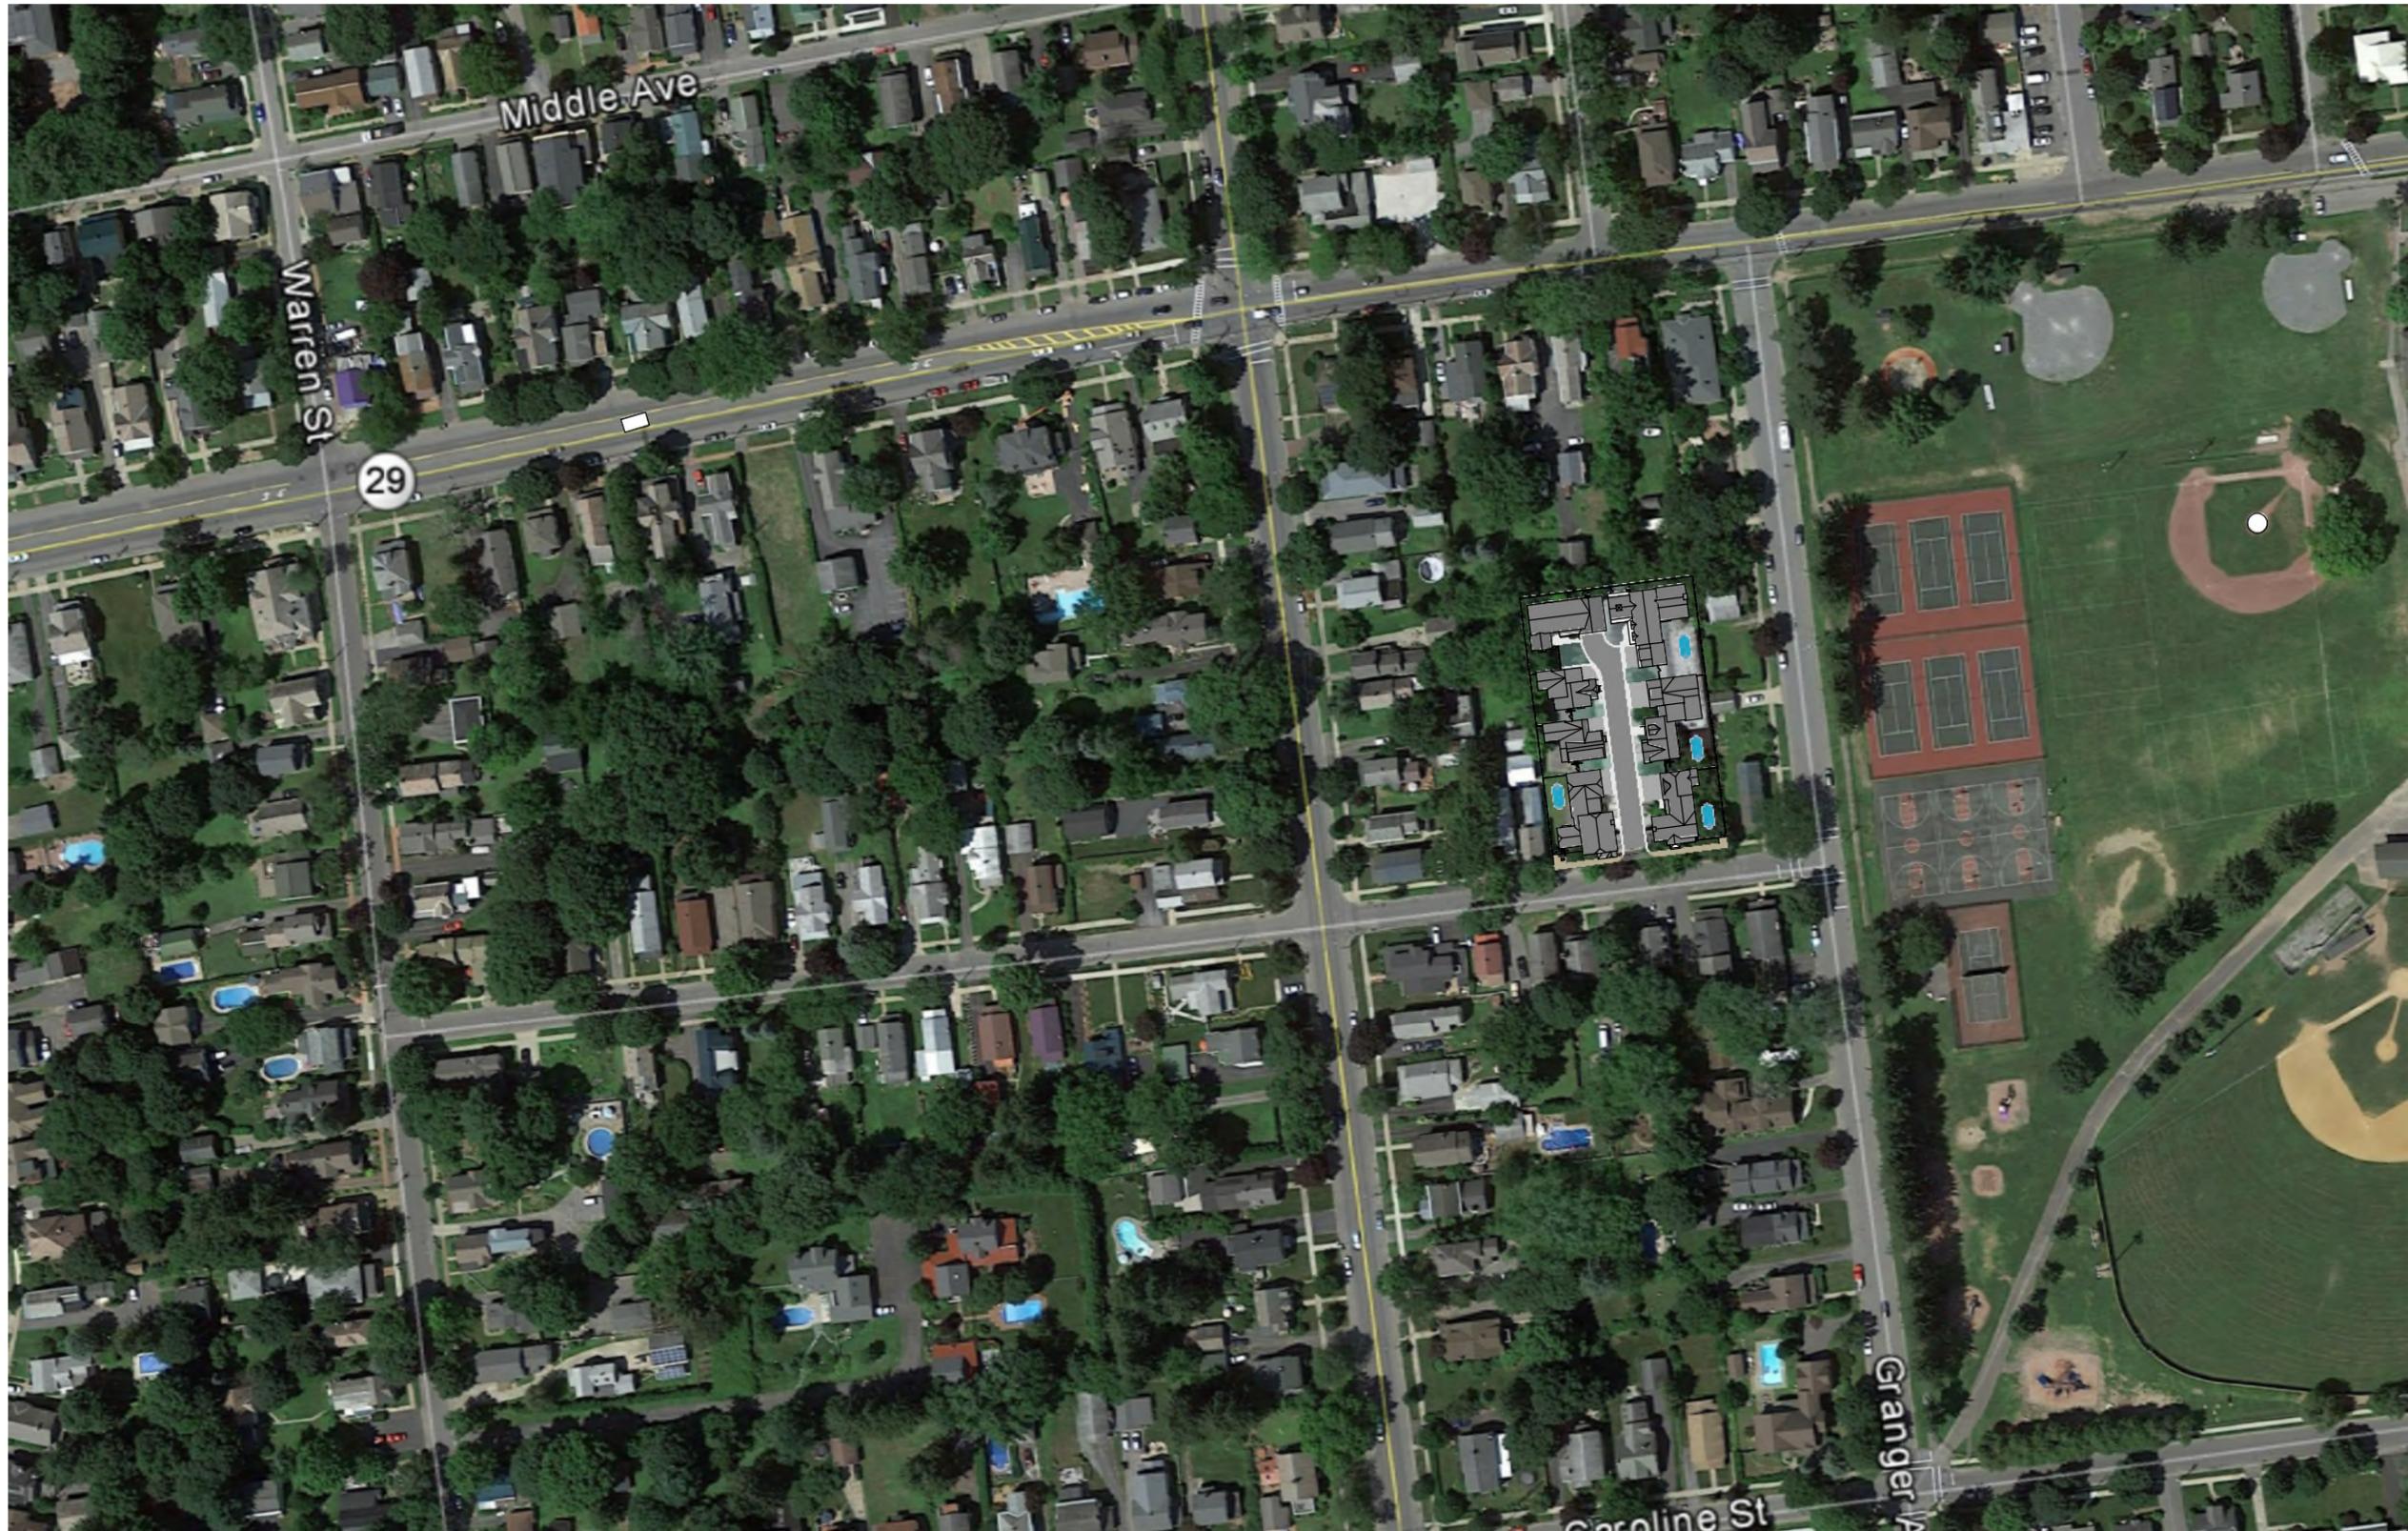

APPLICATION FOR CONDOMINIUMS
AND REQUESTS FOR ZONING VARIANCES
27 JUMEL PLACE, SARATOGA SPRINGS, BY BUILDER – JOHN WITT
PAGE 2 OF 2

Saratoga code (Section 241-13-G) states that new clustered housing – which includes condominiums, townhouses, row houses, zero-lot-line homes, and other multiples – are ONLY allowed in UR-1 and SR-2 locations. In order to build them, even in the specified districts, one must first file for a subdivision of the property, which Witt has not done. That would have resulted in permission to build only five single-family homes or four two-family homes on that size property, ***along with the requirement that each structure must adhere to code setbacks from existing property lines and, within the new multiple community, must meet the percentages of open space.***

The percentage of open space of this project, as presented, does not even adhere to cluster code; nor do the requests for relief from setbacks between the cluster structures and existing neighboring properties, including the City-owned sidewalk. Much of the builder's positive comparison on building standards are irrelevant, as they take into consideration the structure currently on the site, which was built before Saratoga had zoning codes.

Neighbors have no issue with Witt as a quality builder. Nor do they have issue with multiple structures on the property, as long as there is adherence to existing codes. Overloading the space and radically cutting setbacks endangers both the new property and the neighboring structures. It also presents quality of life issues for the current residents, including increased noise and the effect of being walled-off from the contiguous neighborhood. As it is currently planned, the project ***will alter the essential character of the neighborhood and will present an adverse physical impact on the community in which it would be situated.*** The concept of allowing condominiums in UR-3 neighborhoods is a slippery slope that would present an even greater threat to the entire City. Such disregard of our zoning codes will open the door to requests and expectations of similar divergent development in other neighborhoods.

Granger Ave

Proposed Downtown Walk

Examples of drives, paving areas, yards and green space

Area Variance Criteria

1. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties
2. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible
3. Whether the requested area variance is substantial
4. Whether the proposed variance will have adverse physical or environmental effects on neighborhood or district
5. Whether the alleged difficulty was self-created

1. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties

Granting the use and area variance will **not** produce an undesirable change, but rather enhance the neighborhood.

By eliminating a large commercial & multi-family structure that takes up ~50% of the lot and fails to meet the front, side and rear setbacks. Its replacement will be a very attractive single-family condominium project.

2. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible

Other feasible means are **not** available:

Alternative designs options are fewer units, smaller units or taller units.

- Fewer units will make the cost of the land for each unit prohibitive. (See following slide)
- Smaller units would be both undesirable and smaller than the surrounding homes. The proposed home sizes are consistent with that of the existing neighborhood.
- Taller units would not be in keeping with the homes in the existing neighborhood

All adjacent land is currently occupied with single family homes.

Estimated Development Costs

Jumel Place Project

Land Purchase	370,000
4103 Land Development-Professional Fees	23,000
4116 Land Development - Interest	42,000
4117 Land Development - Taxes	20,000
4132 Land Development - Soil Testing	11,700
4140 Land Development - Construction	60,000
4141 Land Development - Fill Dirt	21,000
4142 Land Development - Demolition & Asbestos Removal	155,000
4142 Land Development - Lot Clearing	10,000
4145 Land Development - Silt Fencing	6,000
4155 Land Development - Electric lines	24,000
4183 Land Development - Trees	<u>12,000</u>
Total	754,700
Reasonable Return for Development Risk	<u>150,700</u>
Total Cost of Land to Be Divided by number of Home Sites	905,460

3. Whether the requested area variance is substantial

The requested variance is not substantial due to :

- The new setbacks requested are less than what currently exists with the existing structure.
- The new setbacks are consistent with the setbacks of other single family homes in the neighborhood.
- The percent of lot to be covered is less than the existing multi-use structure.
- The permeable area of the lot will be increased with the new development as compared to the existing development

4. Whether the proposed variance will have adverse physical or environmental effects on neighborhood or district

The proposed variance will **not** have adverse physical or environmental effects on neighborhood or district.

- The proposed single family development will be contained on the one lot with one curb cut for all vehicle access to the property
- The net permeability of the development will be great than the existing development

5. Whether the alleged difficulty was self-created

The difficulty was self-created, **however:**

It was created by the need to change the deteriorating non-conforming multi-family/ mixed-use structure to a use consistent with the existing neighborhood.

- The change will be a win for the neighbors with the replacement of a multi-use / commercial structure with single family homes.
- The change will be a win for the city with additional tax revenues and a higher tax base.

Subject: ZBA area variance at 27 Jumel Place (#2795.1)

March 1, 2016

To: Saratoga Springs Zoning Board of Appeals

RE: #2795.1, ANW Holdings, seeking area variance for 27 Jumel Place

Dear members of the ZBA board,

I appreciated the opportunity to speak to the board during the previous ZBA meeting on Feb 22, and would like to re-iterate my concerns with this area variance request.

In particular, I am concerned about ANW Holding's request for a variance on the minimum rear setback. My understanding is that UR-3 zoning requires a 25' minimum rear setback. My understanding is that ANW Holdings seeks a variance to reduce this to a 6' setback across the entire rear of the property line.

I ask the board to deny this rear setback variance for two reasons.

1. The variance is substantial. I acknowledge that there is a building with an existing variance on the rear setback. However, this existing rear variance is a 1-story structure limited to the northeast corner of the lot. The northwest rear corner is currently open space. ANW's request will substantially increase the existing rear variance. It will extend the variance upwards by at least one full additional story as well as an additional gabled roof. There also appears to be a steeple structure on a rear building. I do not know the exact proposed heights, but I am guessing it increases the rear variance from a 10' height to 30'. It will also extend the rear variance from the northeast half of the lot to the entire rear lot line. This is a significant increase in the mass and scale of the existing rear setback variance.
2. The variance will be a detriment to nearby properties and will produce an undesirable change in the neighborhood. My property is [REDACTED] Lake Ave, corner to the northwest. If the proposed variance is approved, a 2-story gabled roof building will be only 6' from my backyard, and will overshadow my back yard and invade my family's privacy and be a detriment to our enjoyment of our back yard. Although ANW's rendering appeared to show some foliage along this rear setback, I believe that this 6' setback is likely to be insufficient to plant any trees along the setbacks. I believe that allowing large multi-story dwellings 6' from the rear lot line will in fact be a detriment to my property and will produce an undesirable change in my neighborhood.

I ask the board to consider a compromise, whereby the rear setback is limited to the existing variance on the northeast corner. The northwest corner should be left as open space, reducing the number of proposed buildings from 7 to 6, and allowing open space for the planting of trees and green space.

Thank you for your consideration,

Max Peter

Re: 35 Greenfield Ave

Attn: Zoning Board Members

The zoning district is UR-1 which requires a 30 front yard setback and 20 percent lot coverage for the principal structure and 8 percent for an accessory structure. The house is located on the corner and therefore is subject to 2 front yards. The intent of the applicant is to restore the residence back to its original character (Historically as a Second French Empire Style known for mansard roofs and dormers) and thus remove the existing rear portion of the house which is not original or historically significant to the main residence. The front main house will remain and be restored.

There is presently a carriage house on the lot that is considered a contributing historic structure. It also has structural concerns and does not display the same extent of detailing and character as the original house. The client has considered the idea of re-locating the structure however it would affect the lot coverage percentage. The client is willing to re-locate and retain the structure provided that approval for a new 3 car garage is not compromised. However, it cannot stay where it presently is located with the location of the new proposed 3 car garage.

This application is a request to remove the rear addition that is not original and replace it with a new kitchen/mudroom addition and an attached garage. This will integrate architecturally with the house and provide the owner's desire to have an attached garage/mudroom and master bedroom suite.

The increase in lot coverage in order to do this will exceed the 20% allowable maximum, and be at 27.2% lot coverage. There is a precedent with large homes in this neighborhood that have 3 car garages. The 30' front yard setback is technically infeasible to comply with as the setback presently cuts through the original house- thus the existing house is already non-conforming. Any expansion at the rear cannot possibly comply along Woodlawn avenue (as the side of the house that is subject to front yard setback requirements).

There has been extensive time and effort put in to considering design options to meet the program needs and desires of the applicant/client. The proposed submission reflects the preferred option after considering many alternatives.

I trust that this will help clarify.

Property Address (No. & St.) 35 Greenfield Avenue Side of St. (north, east, etc.) North

Tax Parcel No.: _____ - _____ - _____ (for example: 165.52 - 4 - 37) Tax District: Inside Outside

1. Date acquired by current owner: _____ 2. Zoning District when purchased: UR-1

3. Present use of property: single family 4. Current Zoning District: UR-1

5. Has a previous ZBA application/appeal been filed for this property? Yes (when? 12/2014 for what? LOT LINE ADJUSTMENT
 No LOT WIDTH - ADJACENT LOT.

6. Is property located within (check all that apply)? Historic District Architectural Review District
 500' of a State Park, city boundary, or county/state highway?

7. Brief description of proposed action: NEW 3 CAR GARAGE ADDITION - 2 STORIES
TO REPLACE AN EXIST. DETACHED GARAGE

8. Is there a written violation for this parcel that is not the subject of this application? Yes No

9. Has the work, use or occupancy to which this appeal relates already begun? Yes No

10. Identify the type of appeal you are requesting (check all that apply):
 INTERPRETATION (p. 2) VARIANCE EXTENSION (p. 2) USE VARIANCE (pp. 3-6) AREA VARIANCE (pp. 6-7)

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) _____

<u>Dimensional Requirements</u>	<u>From</u>	<u>To</u>
<u>FRONT YARD SETBACK</u>	<u>30'-0"</u>	<u>4'</u>
<u>% LOT COVERAGE</u>	<u>20%</u>	<u>27.2%</u>
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Other: _____

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- 1. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

THE APPLICANT HAS EXPLORED NUMEROUS DESIGNS OVER THE
LAST YEAR. ALL OF THE DESIGNS WILL EXTEND OVER THE 30'-0
SETBACK SINCE IT IS ALREADY NON-CONFORMING. THE APPLICANT
CANNOT PURCHASE ADDITIONAL LAND AS THE ADJACENT LOT HAS
BEEN SUBDIVIDED AND SOLD.

2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

- THE ADDITION IS DESIGNED TO BE ARCHITECTURALLY COMPATIBLE W/ THE EXIST. HISTORIC HOUSE.
- THE NEW GARAGE WILL BE LOCATED WHERE IT IS LEAST VISIBLE AND AROUND SOME OF THE EXIST. TREES TO REMAIN.
- THERE ARE OTHER LARGE HOMES IN THE VICINITY AND THIS HOUSE WILL BE SIGNIFICANTLY LARGER THAN OTHER HOMES IN THE NEIGHBORHOOD.

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

- THE TOTAL LOT COVERAGE WILL BE 27.2% WHEN IT COULD BE 28% (W/ A PRINCIPAL STRUCTURE AND ACCESSORY STRUCTURE)
- THE PRESENT HOUSE CURRENTLY HAS A 30' SETBACK THAT GOES THRU IT, - THE CORNER LOT MAKES IT DIFFICULT (OR TECHNICALLY INFEASIBLE) TO COMPLY.

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

- THE ADDITION IS LOCATED ON THE LOT WHERE IT WILL BE LEAST VISIBLE.
- THE ADDITION WILL BE ARCHITECTURALLY COMPATIBLE TO THE MAIN HOUSE
- THE INTENT IS TO LEAVE AS MANY TREES AS POSSIBLE

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

YES, DUE THE OWNERS REQUEST TO HAVE AN ATTACHED 3 CAR GARAGE, - and IMPROVED KITCHEN, MUD ROOM and MASTER BEDROOM SUITE.

In accord with Article 240-14.4A(1)(b)(6) of the Zoning Ordinance, "any request for an area variance, which shall effect a change in density, shall be applied for and considered as a use variance and decided under criteria for the same". A request that involves any of the following relief will require an application for a use variance and will be decided under the use variance criteria:

- (1) Dimensional relief from minimum lot size requirements that would allow additional permitted units and/or uses
- (2) Relief from on site parking requirements
- (3) Reduction in land area requirements for multi-family units

DISCLOSURE

Does any City officer, employee, or family member thereof have a financial interest (as defined by General Municipal Law Section 809) in this application? No Yes If "yes", a statement disclosing the name, residence and nature and extent of this interest must be filed with this application.

APPLICANT CERTIFICATION

I/we, the property owner(s), or purchaser(s)/lessee(s) under contract, of the land in question, hereby request an appearance before the Zoning Board of Appeals.

By the signature(s) attached hereto, I/we certify that the information provided within this application and accompanying documentation is, to the best of my/our knowledge, true and accurate. I/we further understand that intentionally providing false or misleading information is grounds for immediate denial of this application.

Furthermore, I/we hereby authorize the members of the Zoning Board of Appeals and designated City staff to enter the property associated with this application for purposes of conducting any necessary site inspections relating to this appeal.

A Voice
FOR
PRESERVATION

Mr. Bill Moore, Chair
Zoning Board of Appeals
City Hall
474 Broadway
Saratoga Springs, NY 12866

RE: 35 Greenfield Avenue – Area Variance

Dear Mr. Moore,

The Saratoga Springs Preservation Foundation has reviewed the application for an area variance for 35 Greenfield Avenue to allow for the construction of an addition.

The house located at 35 Greenfield Street was built circa 1870. It is an excellent example of the Second Empire style. Research indicates that the house historically had two accessory stable structures. The house and a stable structure located at the far north of the property first appear on the 1876 Beers & Cramer Atlas Map. The second accessory structure first appears on the 1888 Burleigh Bird's Eye View Map. Please see enclosed documentation. The first accessory structure no longer exists, but the second one still remains on the property. The house and carriage house are "contributing buildings" to the Broadway Historic District listed on the National Register of Historic Places.

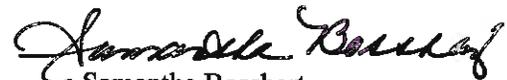

The Foundation has no objection to the proposed removal and addition to the house. The Foundation is supportive of an area variance that would allow for the retention and relocation of the historic carriage house. Carriage houses throughout Saratoga Springs are threatened with demolition-by-neglect and removal. They are important cultural resources of the history and development of our community.

The Foundation appreciates the investment that the homeowner is making into his historic house and commends him for being willing to retain and relocate the historic carriage house rather than demolish the structure. The Foundation respectfully requests that the Zoning Board of Appeals approve an area variance that will allow for the retention of this historic structure.

Thank you in advance for your thoughtful consideration.

Sincerely,

Linda Harvey-Opiteck

ZONING AND BUILDING INSPECTOR DENIAL
OF APPLICATION FOR LAND USE AND/OR BUILDING

APPLICANT: JEAN PIERRE PERRON

TAX PARCEL NO.: 165.36-1-14

PROPERTY ADDRESS: 35 GREENFIELD AVENUE
ZONING DISTRICT: URBAN RESIDENTIAL – I

This applicant has applied to use the identified property within the City of Saratoga Springs for the following:

Proposed construction of an attached garage with second-story master suite addition to an existing single-family residence and maintenance of an existing carriage house (to be relocated on site).

This application is hereby denied upon the grounds that such use of the property would violate the City Zoning Ordinance article(s):

240-2.3 Table 3. As such, the following relief would be required to proceed:

Extension of existing variance Interpretation

Use Variance to permit the following: _____

Area Variance seeking the following relief:

<u>Dimensional Requirements</u>	<u>From</u>	<u>To</u>
<u>Minimum front yard setback: Woodlawn</u>	30 feet	5 feet
<u>Maximum principal building coverage:</u>	20%	27.2%
<u>Minimum front yard setback: to relocated carriage house</u>	30 feet	8 feet

6. Is property located within (check all that apply): Historic District Architectural Review District 500' of a State Park, city boundary, or (county/state highway?) NYS Rte. 9 #50

7. Brief description of proposed action: _____

ADDITION OF ATTACHED 2 CAR GARAGE WITH NEW MASTER SUITE ABOVE.

8. Is there a written violation for this parcel that is not the subject of this application? Yes No

9. Has the work, use or occupancy to which this appeal relates already begun? Yes No

10. Identify the type of appeal you are requesting (check all that apply):

INTERPRETATION (p. 2) VARIANCE EXTENSION (p. 2) USE VARIANCE (pp. 3-6) AREA VARIANCE (pp. 6-7)

FEES: Make checks payable to the "Commissioner of Finance" and attach to top of original application. Fees are cumulative and required for each request below.

- Interpretation \$ 400
- Use variance \$1,000
- Area variance
- Residential use/property: \$ 150
- Non-residential use/property: \$ 500
- Extensions: \$ 150

INTERPRETATION – PLEASE ANSWER THE FOLLOWING (add additional information as necessary).

1. Identify the section(s) of the Zoning Ordinance for which you are seeking an interpretation:

Section(s) _____

2. How do you request that this section be interpreted? _____

3. If interpretation is denied, do you wish to request alternative zoning relief? Yes No

4. If the answer to #3 is "yes," what alternative relief do you request? Use Variance Area Variance

NOT APPLICABLE

EXTENSION OF A VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Date original variance was granted: _____ 2. Type of variance granted? Use Area

3. Date original variance expired: _____ 4. Length of extension requested: _____

5. Explain why the extension is necessary. Why wasn't the original timeframe sufficient?: _____

When requesting an extension of time for an existing variance, the applicant must prove that the circumstances upon which the original variance was granted have not changed. Specifically demonstrate that there have been no significant changes on the site, in the neighborhood, or within the circumstances upon which the original variance was granted:

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) SECTION 2: TABLE 3: AREA & BULK.

Dimensional Requirements

	From	To
1) <u>MIN. YARD SETBACK: FRONT (ALGER ST)</u>	<u>10'</u>	<u>7.8' (22%)</u>
2) <u>MIN. YARD SETBACK: FRONT (BOLSTER LN)</u>	<u>10'</u>	<u>7' (30%)</u>
3) <u>MIN. YARD SETBACK: TOTAL SIDES</u>	<u>12'</u>	<u>4.4' (63.3%)</u>
4) <u>MAXIMUM BUILDING COVERAGE: PRINCIPAL BLDG.</u>	<u>30%</u>	<u>55.5%</u>

Other: _____

5) <u>MINIMUM DISTANCE TO ACCESSORY BLDG:</u> <u>(FRONT LINE)</u>	<u>10'</u>	<u>2' (80%)</u>
--	------------	-----------------

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

I. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

THE EXISTING LOT SIZE, RESIDENCE AND TRIPLE FRONTAGE MAKES THIS PROPERTY DIFFICULT TO DEVELOP. ALTERNATIVES EXPLORED: a) MINIMIZING THE SIZE OF THE GARAGE WIDTH TO REDUCE THE BOLSTER LN. VARIANCE DOES NOT ALLOW FOR GARAGE DOOR WIDTHS NECESSARY TO FIT THE OWNERS' CARS b) RECONFIGURING THE GARAGE TO EXIT INTO BOLSTER LN & NARROWING GARAGE THAT WAY DOES NOT WORK BECAUSE A BUILDING TO THE NORTHWEST, ACROSS THE LANE LIMITS THE REQUIRED TURNING RADIUS TO BACK OUT. c) NO ADDITIONAL LAND AVAILABLE. d) NO BASEMENT EXISTS FOR STORAGE OPTIONS.

2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

- a) THE EXISTING NEIGHBORHOOD, DEVELOPED IN THE LATE 1890'S/EARLY 1900'S, IS VERY DENSE WITH MOST HOMES LOCATED VERY CLOSE TO THE ROAD (OFTEN AT THE SIDEWALK) AS WELL AS CLOSE TO EACH OTHER. THE PROPOSED PROJECT IS VISUALLY CONSISTENT WITH THIS CHARACTER.
- b) THE TWO STORY ADDITION IS LOCATED ALONG THE ALLEY AND IS DESIGNED TO BE ARCHITECTURALLY CONSISTENT WITH CARRIAGE HOUSES, BARNS & GARAGES ALONG THE ALLEY.
- c) THIS HOUSE WILL REMAIN (1) FAMILY (7) NEIGHBORS 7 1 FAMILY
- d) THERE ARE THREE (3) OTHER RESIDENCES IN THE AREA OVER 50% COVERAGE TOTAL

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

- a) THE PRE-EXISTING, NON-CONFORMING LOCATION OF THE HOUSE ALONG ALGER ST. & WOODLAWN DO NOT CHANGE. THE GARAGE ACTUALLY "MOVES" AWAY FROM ALGER AS ONE FOLLOWS THE GARAGE TO THE WEST.
- b) THE PRE-EXISTING, NON-CONFORMING HOUSE COVERAGE IS ALREADY AT 41.3%. A HOUSE WITH A DETACHED GARAGE, MAY COVER 40% IN THIS ZONE. THIS APPLICATION FOR 55.5% ONLY DEVIATES BY 15.5% WHICH IS NOT SUBSTANTIAL.
- c) THE SITE, HAVING THREE FRONTS, MAKES THE TOTAL SIDE SETBACK DIFFICULT TO MEET.

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

- a) THE EXISTING DRIVEWAY ALONG ALGER ST. WILL BE REMOVED AND SEEDED FOR MORE GREEN SPACE/PERMEABLE AREA.
- b) THE CATCH BASIN TO THE NORTH OF THE PROPERTY WILL REMAIN TO FACILITATE SITE DRAINAGE.
- c) NO LARGE OR SIGNIFICANT TREES WILL BE REMOVED.
- d) THE ADDITION, ALTHOUGH 2 STORIES, WILL REMAIN WELL UNDER THE MAX. ALLOWABLE HEIGHT. (PROPOSED HT OF 25-26'/MAX 60')
- e) THE PROJECT SITE IS COMPLIANT WITH THE PERMEABILITY REQUIREMENTS (SEE ATTACHED CALCULATIONS).

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

a) THE HOUSE IS PRE-EXISTING & NON-CONFORMING ON A SMALL LOT, IN A NEIGHBORHOOD WITH OTHER NON-CONFORMING LOTS.

b) THE HOUSE HAS THREE FRONTS WHICH MAKES IT DIFFICULT TO MEET REQUIRED SETBACKS. THE TRUE, ZONING COMPLIANT HOUSE FOOTPRINT WOULD BE 110' x 13' (WITH ROOF OVERHANG THE HOUSE ITSELF WOULD ONLY BE 11')

c) THE HOUSE IS NOT SQUARE ON THE PROPERTY MAKING SETBACKS DIFFICULT

d) CONSTRUCTION ACROSS THE ALLEY LIMITS ACCESS TO A GARAGE ON THIS SITE.

In accord with Article 240-14.4A(1)(b)(6) of the Zoning Ordinance, "any request for an area variance, which shall effect a change in density, shall be applied for and considered as a use variance and decided under criteria for the same". A request that involves any of the following relief will require an application for a use variance and will be decided under the use variance criteria:

- (1) Dimensional relief from minimum lot size requirements that would allow additional permitted units and/or uses
- (2) Relief from on site parking requirements
- (3) Reduction in land area requirements for multi-family units

e) THE EXISTING HOUSE HAS NO BASEMENT FOR ANY STORAGE

DISCLOSURE

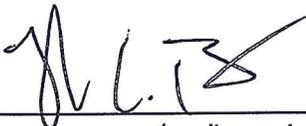

Does any City officer, employee, or family member thereof have a financial interest (as defined by General Municipal Law Section 809) in this application? No Yes If "yes", a statement disclosing the name, residence and nature and extent of this interest must be filed with this application.

APPLICANT CERTIFICATION

I/we, the property owner(s), or purchaser(s)/lessee(s) under contract, of the land in question, hereby request an appearance before the Zoning Board of Appeals.

By the signature(s) attached hereto, I/we certify that the information provided within this application and accompanying documentation is, to the best of my/our knowledge, true and accurate. I/we further understand that intentionally providing false or misleading information is grounds for immediate denial of this application.

Furthermore, I/we hereby authorize the members of the Zoning Board of Appeals and designated City staff to enter the property associated with this application for purposes of conducting any necessary site inspections relating to this appeal.
