3. Date original variance expired: _____

5. Explain why the extension is necessary. Why wasn't the original timeframe sufficient?

When requesting an extension of time for an existing variance, the applicant must prove that the circumstances upon which the original variance was granted have not changed. Specifically demonstrate that there have been no significant changes on the site, in the neighborhood, or within the circumstances upon which the original variance was granted:

USE VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

A use variance is requested to permit the following: _____

For the Zoning Board to grant a request for a use variance, an applicant must prove that the zoning regulations create an unnecessary hardship in relation to that property. In seeking a use variance, New York State law requires an applicant to prove all four of the following "tests".

- I. That the applicant cannot realize a reasonable financial return on initial investment for any currently permitted use on the property. "Dollars & cents" proof must be submitted as evidence. The property in question cannot yield a reasonable return for the following reasons:

A. Submit the following financial evidence relating to this property (attach additional evidence as needed):

1) Date of purchase: _____ Purchase amount: \$ _____

2) Indicate dates and costs of any improvements made to property after purchase:

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- 1. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

- 2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

Re: Interpretation Request

Appeal from Zoning and Building Inspector Determination, February 22, 2016
Tax Parcel No. 166.13-1-50.2
Project: ANW Holdings, LLC, 27 Jumel Place

Dear Zoning Board of Appeals:

We represent Samuel Brewton, Gerald and Debra Mattison, and Sandra Cohen (hereinafter, “*Appellants*”) in connection with the above-referenced matter.

Submitted herewith are the following exhibits:

- Exhibit A** February 22, 2016 Determination of the Zoning and Building Inspector
- Exhibit B** Project Application Materials for the Downtown Walk Project, 27 Jumel Place, S/B/L 166.13-1-50.2
- Exhibit C** Relevant Excerpts of 2015 Comprehensive Plan
- Exhibit D** Tax Map Showing Proximity of Project Site to Appellants’ Properties

The Appellants hereby appeal from the Zoning and Building Inspector Determination dated February 22, 2016 (the “*February 22, 2016 Determination*”), wherein the Zoning and Building Inspector determined that only area variances were required for the seven-unit condominium Downtown Walk project (the “*Project*”) proposed by ANW Holdings, LLC (the “*Developer*”) for 27 Jumel Place (Tax Map Parcel No. 166.13-1-50.2) (the “*Project Site*”). See Exhibit A.

For the reasons that follow, the Project is not a permitted use in the Urban Residential-3 (UR-3) zoning district, and therefore, a use variance is required. The February 22, 2016 Determination finding that no use variance is required for the Project was erroneous and must be reversed.

1. Mr. Brewton, Mr. and Mrs. Mattison, and Ms. Cohen Have Standing to Prosecute this Appeal and To Seek the Interpretation Requested.

The Appellants each live at or own property located at [REDACTED] Lake Avenue are located adjacent to the Project Site. See Exhibit D. As such, Appellants are persons aggrieved by the February 22, 2016 Determination and have standing to appeal therefrom (Matter of Bonded Concrete, Inc. v. Zoning Bd. of Appeals, 268 AD2d 771, 772 [3d Dep't 2000]; Matter of Sun-Brite Car Wash v. Bd. of Zoning & Appeals, 69 NY2d 406, 413 [1987]).

2. This Appeal Seeking an Interpretation Stays All Proceedings in Furtherance of the February 22, 2016 Determination, Including any Decision on the Currently Pending Area Variance Application for the Downton Walk Project.

Please be advised that the filing of this appeal automatically stays all proceedings in furtherance of the February 22, 2016 Determination.

The City's Zoning Code purports to only stay "enforcement proceedings relating to any violation under appeal" (Zoning Ordinance, § 8.4.2 (C)). However, N.Y. General City Law § 81-a [6] stays "all proceedings in furtherance of the action appealed from". The City's Zoning Code does not purport to supersede state law in this regard, and even if it did, it would not be effective to render N.Y. General City Law § 81-a [6] inapplicable (see Kamhi v. Town of Yorktown, 74 NY2d 423, 434-35 [1989]; Cohen v. Bd. of Appeals, 100 NY2d 395 [2003]). Therefore, N.Y. General City Law § 81-a [6] applies to stay "all proceedings in furtherance of the [February 22, 2016 Determination]".

The currently pending area variance application before the Board is a proceeding "in furtherance of the [February 22, 2016 Determination]". The review and decision on the area variance application is therefore automatically stayed until this interpretation appeal is decided. No further proceedings may be taken or any decision rendered on the area variance application until this interpretation appeal has been decided.

3. The Proposed Use of the Lot is Prohibited in the UR-3 Zoning District and a Use Variance is Required.

The Project proposes a seven-unit condominium on a single lot in the UR-3 zoning district. See Exhibit B at 1, 9, 22, 23, 24.

The Zoning Code provides that the district intent of the UR-3 Zoning District is

“[t]o conserve, maintain and encourage single family and two-family residential uses” (Zoning Ordinance, Article 2, Table 1).

Multi-family residential uses are not intended for the UR-3 zoning district, unlike other zoning districts, including the UR-4/4A zoning district, the intent of which is “[t]o accommodate a mix of single, two-family, and multi-family residential uses”, and the UR-5 zoning district, the intent of which is “[t]o accommodate multi-family residential development at moderately high densities and to encourage a mix of housing types” (Zoning Ordinance, Article 2, Table 1 [emphasis added]).

The Zoning Ordinance thus draws a clear distinction between zoning districts intended to accommodate multi-family residential uses, and those intended to be limited to single family and two-family residential uses. The UR-3 zoning district is not intended for multi-family uses.

The term “use” is defined in the Zoning Ordinance as “[t]he specific use for which land or a building is designed, occupied or maintained” (Zoning Ordinance, Appendix A, at 18). A “use” is a “permitted use” where it is a “use which is or may be lawfully established in a particular district” (Zoning Ordinance, Appendix A, at 19). For the UR-3 zoning district, any use not specifically identified as “permitted” in the Table of Uses is a prohibited use (Zoning Ordinance, § 2.2(E)(1)).

For the UR-3 zoning district, the Table of Uses identifies single-family and two-family residential uses as permitted, but does not identify multi-family residential uses as permitted. The Table of Uses does provide that such multi-family uses are permitted in the UR-4/4-A, UR-5, and NCU-3 zoning districts.

Here, the specific “use” proposed by the Developer for the Project Site is a seven-family residential use. Although the Developer represents that each of the seven homes will be occupied by a single family, seven families will be using a single lot. Therefore, the Developer proposes a multi-family residential use as the “specific use for which the land . . . is designed, occupied or maintained” (Zoning Ordinance, Appendix A, at 18).

There will be seven dwelling units on the Project Site, which the Developer does not intend to subdivide into seven lots. The Developer intends to use the lot as a “condominium,” which is defined as a “multi-family dwelling containing individually owned dwelling units, wherein the real property title and ownership are vested in an owner, who has an undivided interest with others in the common usage areas and facilities which serve the development” (Zoning Ordinance, Appendix A, at 7). Multi-family residential uses (condominiums or otherwise) are not permitted in the UR-3 zoning district. In fact, condominiums are only permitted in the T-4, T-5, and T-6 zoning districts (Zoning Ordinance, § 2.2(E)(1); Article 2, Table 2).

Under the 2015 Comprehensive Plan, the Project Site falls within a portion of the Core Residential Neighborhood-1 and Residential Neighborhood-2 designations. With respect to such designations, the 2015 Comprehensive Plan states:

“Core Residential Neighborhood-1 (CRN-1), Core Residential Neighborhood-2 (CRN-2), and Core Residential Neighborhood-3 (CRN-3)

The Core Residential Neighborhood-1, -2, and -3 designations provide a transition from the Downtown Core and Complementary Core to the predominately residential neighborhood areas and represent the historic residential village. These areas are primarily residential in use, with single and two-family homes allowed in all three CRN designations, while multi-family uses are allowed only in the CRN-2 and CRN-3 areas. . . .

. . . .

Residential Neighborhood-1 (RN-1) and Residential Neighborhood-2 (RN-2)

The Residential Neighborhood-1 and Residential Neighborhood-2 designations are characterized by single family residential uses and moderate density two-family. . . .” Exhibit C, at 6–7.

The Project at issue proposes a seven-unit multi-family residential use, and attempts to characterize it as a “single-family” use by separating each unit by a few feet. See Exhibit B at 24. The fact remains, however, that the “use” proposed for the single lot Project Site is a multi-family condominium, a use that is expressly prohibited in the UR-3 zoning district (but permitted elsewhere) and a use that is discouraged for this particular area of the City in the 2015 Comprehensive Plan.

Accordingly, the February 22, 2016 Determination was erroneous in that it failed to require the Developer to secure a use variance to permit the otherwise prohibited multi-family use of the Project Site. The February 22, 2016 Determination must be reversed, and Appellants request that the Zoning Board of Appeals issue an interpretation that the Project is a multi-family use that is prohibited in the UR-3 zoning district in the absence of a use variance.

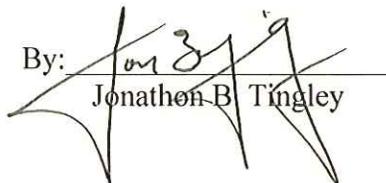

Importantly, the requested reversal of the February 22, 2016 Determination and interpretation does not equate to disapproval of the Project. It merely enforces the current zoning for the UR-3 zoning district, effectuates the 2015 Comprehensive Plan’s intent for this area, and requires the Developer to demonstrate its entitlement to a use variance to permit the Project as currently proposed, or alternatively, to secure subdivision approval to create separate lots so that the use of each lot is either a single-family permitted use or a two-family permitted use.

We thank the Board for its consideration of this appeal.

Very truly yours,

TUCZINSKI, CAVALIER & GILCHRIST, P.C.

9. Has the work, use or occupancy to which this appeal relates already begun? Yes No

10. Identify the type of appeal you are requesting (check all that apply):
 INTERPRETATION (p. 2) VARIANCE EXTENSION (p. 2) USE VARIANCE (pp. 3-6) AREA VARIANCE (pp. 6-7)

FEES: Make checks payable to the "Commissioner of Finance" and attach to top of original application. Fees are cumulative and required for each request below.

- Interpretation \$ 400
- Use variance \$1,000
- Area variance
- Residential use/property: \$ 150
- Non-residential use/property: \$ 500
- Extensions: \$ 150

INTERPRETATION – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Identify the section(s) of the Zoning Ordinance for which you are seeking an interpretation:

Section(s) _____

2. How do you request that this section be interpreted? _____

3. If interpretation is denied, do you wish to request alternative zoning relief? Yes No

4. If the answer to #3 is "yes," what alternative relief do you request? Use Variance Area Variance

EXTENSION OF A VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Date original variance was granted: 5/1/14 2. Type of variance granted? Use Area

3. Date original variance expired: 11/1/15 4. Length of extension requested: _____

5. Explain why the extension is necessary. Why wasn't the original timeframe sufficient?: We were unable to close on the property due to it being held up in probate for the last several months. We are anticipating to close within the next few weeks.

When requesting an extension of time for an existing variance, the applicant must prove that the circumstances upon which the original variance was granted have not changed. Specifically demonstrate that there have been no significant changes on the site, in the neighborhood, or within the circumstances upon which the original variance was granted:

Nothing has changed to this area & no new development

On or near this site.

USE VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

A use variance is requested to permit the following: _____

For the Zoning Board to grant a request for a use variance, an applicant must prove that the zoning regulations create an unnecessary hardship in relation to that property. In seeking a use variance, New York State law requires an applicant to prove all four of the following "tests".

I. That the applicant cannot realize a reasonable financial return on initial investment for any currently permitted use on the property. "Dollars & cents" proof must be submitted as evidence. The property in question cannot yield a reasonable return for the following reasons:

A. Submit the following financial evidence relating to this property (attach additional evidence as needed):

1) Date of purchase: _____ Purchase amount: \$ _____

2) Indicate dates and costs of any improvements made to property after purchase:

<u>Date</u>	<u>Improvement</u>	<u>Cost</u>
_____	_____	_____
_____	_____	_____
_____	_____	_____

3) Annual maintenance expenses: \$ _____ 4) Annual taxes: \$ _____

5) Annual income generated from property: \$ _____

6) City assessed value: \$ _____ Equalization rate: _____ Estimated Market Value: \$ _____

7) Appraised Value: \$ _____ Appraiser: _____ Date: _____

Appraisal Assumptions: _____

B. Has property been listed for sale with the Multiple Listing Service (MLS)? Yes If "yes", for how long? _____ No

1) Original listing date(s): _____ Original listing price: \$ _____

If listing price was reduced, describe when and to what extent: _____

2) Has the property been advertised in the newspapers or other publications? Yes No

If yes, describe frequency and name of publications: _____

3) Has the property had a "For Sale" sign posted on it? Yes No

If yes, list dates when sign was posted: _____

4) How many times has the property been shown and with what results? _____

2. That the financial hardship relating to this property is unique and does not apply to a substantial portion of the neighborhood. Difficulties shared with numerous other properties in the same neighborhood or district would not satisfy this requirement. This previously identified financial hardship is unique for the following reasons:

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) _____.

<u>Dimensional Requirements</u>	<u>From</u>	<u>To</u>	<u>To</u>
Fencing (exterior fence only)	6'	8'	
Lot Coverage	30%	(Prev. Applic.) 43.5%	46.0%
Front Yard Setback	10'	(Pre. APPLIC.) 5'	1'

Other: _____

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- I. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

Our fencing request is new, asking for the height limit to go from 6 – 8' (exterior fence only). This creates privacy along the perimeter, a benefit to both sides of the fence. What is currently there is dilapidated and run down, hence aesthetically a great improvement. Our modified request for front setback of 1' is what currently exists and consistent with surrounding homes. The 5' granted does not allow for our (2) front porches to be placed on the unit. This style entry fits with the street scape. Finally, the area coverage request of 46% is what was originally asked for, and necessary for the option of adding additional back porches on the homes; an opportunity for our clients to enjoy their backyards, since their fronts are quite limited-in size. These variance alternatives are reasonable and contiguous with the urban feel of downtown.

2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

Granting the area variance will enhance the neighborhood by creating privacy, align the two front porches with the neighboring homes, and allow only 2.5% more in area coverage which was originally requested.

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

This request is minimal and less than what currently exists on the property. The fence height increase is not substantial and benefits both the current and new homeowners.

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

This is one lot, seven homes, a singular curb cut and permissible use of the land in lieu of its current nonconforming commercial use. Permeability exceeds the minimum, peaking at 35.10%, parking accommodations are onsite and traffic is reduced due to the applicable Urban Residential 3 zone. The lot will be properly cleaned and abated, a favorable influence both physically and environmentally on the neighborhood.

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

The difficulty was created by the need to change a non-conforming structure to a residential economically feasible solution. A win for all involved; neighbors, city, and a proper sustainable usage by City Standards.

In accord with Article 240-14.4A(1)(b)(6) of the Zoning Ordinance, "any request for an area variance, which shall effect a change in density, shall be applied for and considered as a use variance and decided under criteria for the same". A request that involves any of the following relief will require an application for a use variance and will be decided under the use variance criteria:

- (1) Dimensional relief from minimum lot size requirements that would allow additional permitted units and/or uses
- (2) Relief from on site parking requirements
- (3) Reduction in land area requirements for multi-family units

DISCLOSURE

Does any City officer, employee, or family member thereof have a financial interest (as defined by General Municipal Law Section 809) in this application? No Yes If "yes", a statement disclosing the name, residence and nature and extent of this interest must be filed with this application.

APPLICANT CERTIFICATION

I/we, the property owner(s), or purchaser(s)/lessee(s) under contract, of the land in question, hereby request an appearance before the Zoning Board of Appeals.

By the signature(s) attached hereto, I/we certify that the information provided within this application and accompanying documentation is, to the best of my/our knowledge, true and accurate. I/we further understand that intentionally providing false or misleading information is grounds for immediate denial of this application.

Furthermore, I/we hereby authorize the members of the Zoning Board of Appeals and designated City staff to enter the property associated with this application for purposes of conducting any necessary site inspections relating to this appeal.

ACCOUNTS DEPARTMENT

IN THE MATTER OF THE APPEAL OF
 ANW Holdings, Inc. of 564 Broadway
 Saratoga Springs, NY 12866

from the Building Inspector's Denial of Application for Land Use and/or Building for the premises at 27 Jumel Place, Saratoga Springs, New York, identified as Tax Parcel No.: 166.13-1-50.2 in the inside district of the City.

The Applicant has applied for an area variance for relief from the current City Zoning Ordinance applicable to the Urban Residential - 3 zoning district to construct a seven unit condominium development seeking relief from the maximum principal buildings permitted on one lot, maximum principal building coverage, the minimum front yard setback requirements for the two units fronting on Jumel Place, and from the minimum rear yard setback requirements for the two units located at the rear of the property, and public notice having been duly given of a hearing on said application on July 9, 2013 and October 28, 2013.

In consideration of the balance between the benefit to the Applicant with the detriment to the health, safety and welfare of the community, the Board makes the following resolution that the requested area variance for the following relief or such lesser amount, as described in the submitted application, BE APPROVED:

Type of Requirement	Required	Existing	Proposed	Total Relief Requested
Maximum Principal Buildings on one lot	One (1)	One (1)	Seven (7)	6 (600)%
Maximum Building Coverage	30%	49.4%	43.5%	13.5% (45%)
Minimum Front Yard Setback for the 2 units fronting on Jumel Place	10 feet	1 foot	5 feet	5 feet (50%)
Minimum Rear Yard Setback for the 2 units located at the rear	25 feet	.7 foot	6 feet	19 feet (76%)

1. The Applicant has demonstrated that this benefit cannot be achieved by other means feasible. This Board has been asked to consider several prior applications to redevelop this property. It is currently used for mixed commercial and residential purposes with a large cement structure, formerly a manufacturing facility, located on the property. The current use is not conducive to a residential neighborhood and the noise and traffic generated by the current use has been an issue of concern for many of the neighbors. The unique nature

of this property and the prior failed attempts to arrive at a use for this property that is acceptable to neighbors, conforming with the neighborhood and economically feasible has demonstrated that the redevelopment of this property raises unusual and distinct issues. Not only has the Applicant explored alternate means to achieve the requested benefit including a smaller number of units which were evaluated and found to be economically unfeasible, but prior applicants have also attempted to use the structure for varied uses, all of which demonstrates that other alternatives have not been shown to be practical or economically feasible. The applicant has demonstrated that redeveloping this property from an unsightly cement structure used for commercial purposes into a seven unit residential condominium development is the best economically feasible use as shown on the proposed site plan for this property.

2. The Applicant has demonstrated that granting these variances will not create an undesirable change in neighborhood character or a detriment to nearby properties. Applicant had shown that removal of the current cement structure and construction of a seven unit condominium will result in a development that substantially conforms with the residential homes in the neighborhood. The Applicant has demonstrated, and several neighbors have testified in support, that this redevelopment will have a very beneficial impact on the neighborhood. The granting of these variances will result in the removal of a varied use (ballet school), unauthorized use (karate school) and prior nonconforming use (manufacturing facility) and result in a conforming use which is in keeping with the character of the neighborhood. We note that the City Planning Board issued a favorable advisory opinion identifying that "This site can adequately accommodate development of this scale, and that the overall density proposed is compatible with the surrounding neighborhood." Based on the foregoing, the granting the variances will improve the appearance of the property and will not create an undesirable change in neighborhood character or impact on nearby properties, but rather a desirable and valuable change.

3. The relief requested may be considered substantial, but is mitigated by the fact that the current existing structure is non-conforming and by the fact that the lot, at 34,765.50 square feet, would accommodate either five single-family lots or four two-family buildings for total of eight residences. The requested variance, for seven units, is one less than the permitted 8 residences. In order to develop this property in a manner that is most conducive to current needs of our citizens, creating smaller free standing condominiums is beneficial. The construction of one continuous unit would have eliminated the need for a variance for seven units, but would not have resulted in a project that meets the current needs of some members of the community. The minimum front and rear setback variances are necessary to maximize the available parking and the need for service vehicles to access the property. Due to the non-conformance of the current structure and some of the existing structures in the neighborhood, these variances will not have a substantial impact on the neighborhood and therefore mitigates the substantial nature of the variances.

4. The Applicant has demonstrated that the variance will not have a significant adverse physical or environmental effect on the neighborhood. The Applicant has demonstrated, and several neighbors have testified in support, that this redevelopment will have a significant beneficial physical impact on the neighborhood. Not only will the current commercial use with resulting traffic and noise generated by such use no longer interfere with the quiet residential neighborhood, but the physical change to the property will be a significant improvement to the appearance of the neighborhood. Additionally, the proposed construction will improve the permeability of the lot to 35.1%, in excess of the required 25%.

5. The alleged difficulty may be considered self-created in that the Applicant desires to re-develop this property in a manner that will meet the needs of residents of Saratoga Springs who are looking to down size and still create a development that conforms to the neighborhood as a residential development in an economic

manner, however, this is not necessarily fatal to the application.

Notifications/Approvals/Conditions of Approval:

Prior variances are discontinued.

Saratoga Springs City Planning Board site plan review is required – the Planning Board will address local concerns as identified by the Saratoga County Planning Board.

Saratoga County Planning Board issued a finding of no significant county side or inter community impact.

Appeal #2759
IN THE MATTER OF THE APPEAL OF
ANW Holdings, Inc.
564 Broadway
Saratoga Springs, NY 12866

from the Building Inspector's Denial of Application for Land Use and/or Building for the premises at 27 Jumel Place, Saratoga Springs, New York, identified as Tax Parcel No.: 166.13-1-50.2 in the inside district of the City.

The Applicant has applied for modification to Appeal # 2714, a variance granted October 23, 2013, seeking modification of the relief from the maximum principal building coverage and the minimum front yard setback requirements for the two units fronting on Jumel Place, and for additional relief from maximum height of a residential fence, all as provided in the current City Zoning Ordinance applicable to the Urban Residential - 3 zoning district, and public notice having been duly given of a hearing on said application on April 21, 2014 and April 28, 2014.

In consideration of the balance between the benefit to the Applicant with the detriment to the health, safety and welfare of the community, the Board makes the following resolution that the requested area variance for the following relief or such lesser amount, as described in the submitted application, BE APPROVED:

Type of Requirement	Required/ Permitted	Previously Approved	Proposed	Total Relief Requested
Maximum Building Coverage	30%	43.5%	46%	16% (53%)
Minimum Front Yard Setback for the 2 units fronting on Jumel Place	10 feet	5 foot	1 feet	9 feet (90%)
Maximum Height residential fence	6 feet	N/A	8 feet	2 feet (33%)

1. The Applicant has demonstrated that this benefit cannot be achieved by other means feasible. This Board has previously determined in Appeal #2714 that the Applicant has demonstrated that redeveloping this property from an unsightly cement structure used for commercial purposes into a seven unit residential condominium development is the best economically feasible use as shown on the proposed site plan for this property. The modifications to the maximum principal building coverage and the minimum front yard setback requested by Applicant, subject to the conditions provided below, do not change the Board's prior determinations. The request to increase the maximum height of the residential fence is requested to ensure added privacy for the units and for adjacent neighbors. Providing this privacy cannot be achieved by other means due to the limited size of the property.

2. The Applicant has demonstrated that granting the modification to these variances will not create an undesirable change in neighborhood character or a detriment to nearby properties. In granting variance #2714, the Board concluded the granting the variances will improve the appearance of the property and will not create an undesirable change in

neighborhood character or impact on nearby properties, but rather a desirable and valuable change. The modifications do not change this conclusion. Additionally, granting the variance for an increased height in the fence will enhance the character of the neighborhood.

3. The modifications to the relief requested may be considered substantial. However, due to the proximity of the proposed developed structures to the neighbors and to one another, the Board finds the benefit of privacy fencing to offset the adverse impact.

4. The Applicant has demonstrated that the modification of the variances will not have a significant adverse physical or environmental effect on the neighborhood. In the prior Appeal, the Applicant demonstrated and several neighbors testified in support, that this redevelopment will have a significant beneficial physical impact on the neighborhood. The modifications requested in this application do not alter the conclusions reached by this Board in Appeal #2714. Additionally, the request for an increase in the height of the fence does not have an adverse physical or environmental effect on the neighborhood.

5. The alleged difficulty may be considered self-created, however, this is not necessarily fatal to the application.

Notifications/Approvals/Conditions of Approval:

The minimum front yard setback of 5 feet previously approved in Appeal #2714 is modified only to permit front stoops or stairways within the 5 foot setback to the 1 foot setback.

No eight (8) foot fence shall be permitted to be constructed along Jumel Place or extending beyond the front foundation line along Jumel Place.

County Planning Board issued a decision of "No Significant County Impact" on April 17, 2014.

Adopted by the following vote:

AYES: 7 (B. Moore, K. Kaplan, A. McNeill, G. Hasbrouck, S. Carlson O. Ludd and J. Helicke)

NAYES: 0

Dated: April 28, 2014

This variance shall expire 18 months following the filing date of such decision unless the necessary building permit has been issued and actual construction begun as per 240-8.5.1.

Saratoga Springs**
2015 Comprehensive Plan
Adopted by City Council 6-16-15

Exhibit C, Page 1

In May 2013, the City Council initiated an update to the City's Comprehensive Plan and associated maps.

On December 18, 2014, following 19 months of much dialogue and discussion including 19 public meetings, four public workshops, a 2-day open house and numerous focus groups, the Saratoga Springs Comprehensive Plan Committee voted to send to the City Council its "final work product" consisting of the November 2014 version of the Draft Comprehensive Plan and a list of 53 possible amendments to this draft.

The City Council discussed this work product and the list of possible amendments over the course of four City Council workshops, occurring on February 24, March 24, March 31, and April 14, 2015. At its last workshop, the City Council confirmed consensus on the desired language to be included in this Plan.

On June 16, 2015, following a SEQRA Negative Declaration of Environmental Significance, the City Council voted 5-0 to adopt this 2015 Comprehensive Plan update.

FUTURE LAND USE

4.0

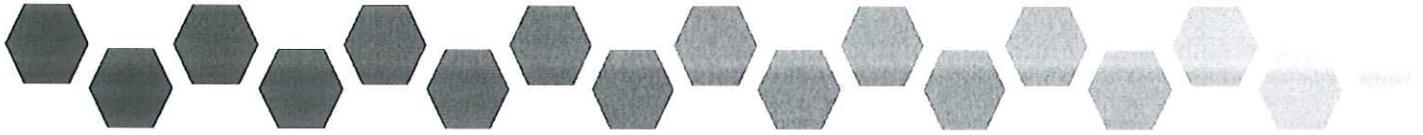

If the City is to be successful in preparing for the future, it must have increased flexibility to accommodate the rapidly changing needs of business, commerce, and our residents. In addition, the City must have increased accountability to ensure and enhance the physical, cultural, and social amenities that make Saratoga Springs an attractive and vibrant locale.

Fortunately, Saratoga Springs is currently in a good position to capitalize on its collective strengths and enthusiasm at a time when many other communities cannot. To maintain and improve upon the City's current position, a close look was given to the City's future land uses and the Comprehensive Plan Future Land Use Map (Map). The Map sets the direction for future land uses within the City. It illustrates the City's vision by identifying broad categories of land use. The Map is not a zoning map. However, the zoning map must follow the direction set forth in the Comprehensive Plan in accordance with General City Law §28-a. The zoning ordinance is typically the regulatory document that addresses densities, area, bulk, and specific permitted uses.

A key factor in revising the Map for this update is to ensure it reflects the City's vision. The vision for the City remains relatively unchanged from the 2001 Comprehensive Plan and, therefore, the Map will appear very similar. That vision includes the most intense uses and greatest mix of uses at the City's Core (Broadway). The intensity of uses becomes less as one travels away from the Core. The concept of the greenbelt, which was represented by the Conservation Development District (CDD) in the 2001 Comprehensive Plan, is reinforced in this updated Map.

The various land use categories shown on the map represent the intended uses and densities desired or anticipated for the community in the future. There are a number of important points to note about these land use categories:

- The land use categories in the Map are not zoning districts. The land use categories are broader and more general than zoning districts.
- The boundaries for each of the land use categories are intentionally non-precise and are meant to be fluid. The boundaries of the zoning districts are far more specific and detailed.
- The land use categories are general guides to future zoning or other regulations. State law mandates that zoning must be in conformance with the policies of the Comprehensive Plan. This means that the

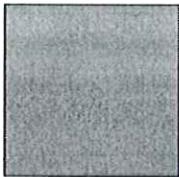

density within the zoning for a particular area must be equal or less than that what is described within this document. When areas are to be rezoned, the uses and densities permitted within the zoning district must be compatible with the ranges presented in the land use category.

- The land use categories reflect a vision for the City in the future. It may take many years for the proposed changes to occur. The vision is something to aim for and work towards. Since zoning is the primary tool to implement this plan, the zoning for an area may be changed or upgraded several times in an effort to reflect community input.

The following descriptions are offered for the proposed land use category designations. The descriptions are intended to include the purpose or intent of the category, an overview of general uses and a description of the character for each land use category.

Downtown Core (DC)

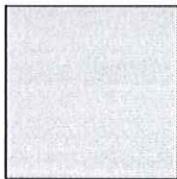

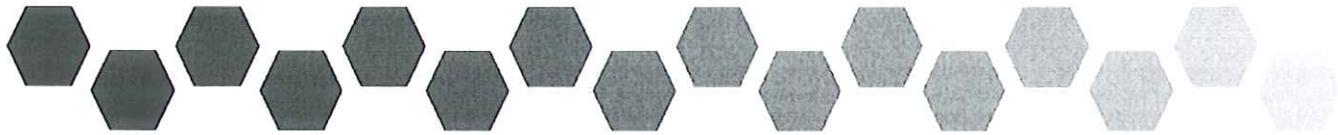

***Downtown Core
(DC)***

The Downtown Core designation represents the heart of the City of Saratoga Springs. It includes areas of the highest density commercial, office, civic, and residential uses that support a highly compact and walkable core, as well as multi-modal transportation options. While the Downtown Core serves local uses, it also attracts people regionally and globally as a vibrant commercial center, employment center, entertainment center, and historic and cultural center.

The Downtown Core is characterized by mixed use buildings with architecturally-interesting facades, streetscape design with ample room for street trees, sidewalks, benches, and other amenities that make the streets pedestrian-friendly. The designation also provides for mid to high-rise residential projects and mixed use projects incorporating housing above non-residential uses.

Looking forward, the Downtown Core will continue to be highly urban in character, with a mix of commercial and residential uses, and a balance between dense infill through development and redevelopment and the creation of attractive public spaces such as plazas and pocket parks.

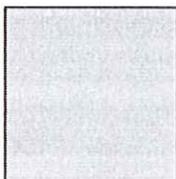

Complementary Core (CC)

Complementary Core (CC)

The Complementary Core designation consists of areas of commercial uses of moderate to high intensity interspersed with higher density residential uses. This area is intended to be pedestrian-oriented with multi-modal transportation options and is a complementary, yet slightly less dense, extension of the Downtown Core. These areas represent a mix of freestanding offices, commercial uses, or clusters of businesses meeting the day-to-day needs of residents. The character of the Complementary Core areas is reflective of an urban environment with buildings near the street, parking to the rear or side, and streetscape elements such as sidewalks, and ample room for street trees.

The Complementary Core designation offers opportunities for infill and new development that continues to support the Downtown Core. Freestanding commercial structures as well as mixed-use, multi-story buildings with residential uses above the commercial uses would both be appropriate in this designation.

Community Mixed Use (CMU)

Community Mixed Use (CMU)

The Community Mixed Use designation includes areas of moderate density residential and community-supported commercial uses. These areas are characterized by mixed use neighborhoods that are walkable and connected to adjacent residential neighborhoods. Each area includes a variety of neighborhood-scale businesses and services that meets the needs of the surrounding community.

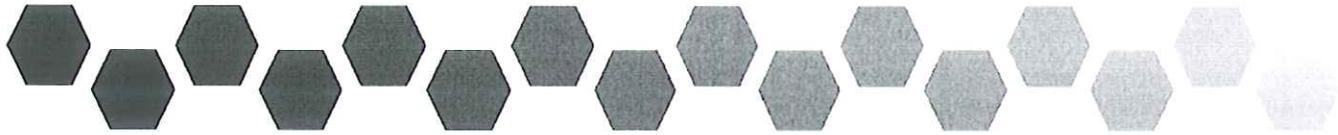

While the character of each Community Mixed Use areas may vary, all areas are intended to be pedestrian-oriented with an attractive streetscape, along with amenities such as small parks and plazas. In some areas, identity is already well established through architecture and streetscape while in others, identity will be shaped by future planning decisions.

Core Residential Neighborhood-1 (CRN-1)
Core Residential Neighborhood-2 (CRN-2)
Core Residential Neighborhood-3 (CRN-3)

Core Residential Neighborhood-1 (CRN-1), Core Residential Neighborhood-2 (CRN-2), and Core Residential Neighborhood-3 (CRN-3)

The Core Residential Neighborhood-1, -2, and -3 designations provide a transition from the Downtown Core and Complementary Core to the predominantly residential neighborhood areas and represent the historic residential village. These areas are primarily residential in use, with single and two-family homes allowed in all three CRN designations, while multi-family uses are allowed only in the CRN-2 and CRN-3 areas. The Core neighborhoods reflect Saratoga’s quintessential residential character and charm through unique architecture, historic elements, front porches, sidewalks, and tree-lined streets.

This area is highly walkable, and should be accessible by transit and a range of multi-modal options.

Although the Core Neighborhood is primarily residential in character, existing neighborhood-scale commercial uses may currently exist to complement residential uses.

CRN-1 Note: The maximum density is 10.0 Units/Acre.

CRN-2 Note: The maximum density is 15.0 Units/Acre.

CRN-3 Note: The maximum density is 30.0 Units/Acre.

Residential Neighborhood -1 (RN-1)

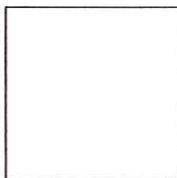

Residential Neighborhood- 2 (RN-2)

Residential Neighborhood -1 (RN-1) and Residential Neighborhood- 2 (RN-2)

The Residential Neighborhood-1 and Residential Neighborhood-2 designations are characterized by single family residential uses with moderate density two-family. While a mix of housing types is present, these areas retain the basic character of single-family neighborhoods, such as front and rear yards, driveways, and garages. Small, neighborhood-scale commercial uses may currently exist to complement the residential uses.

RN-1 Note: The maximum density is 3.5 Units/Acre.

RN-2 Note: The maximum density is 7 Units/Acre.

Conservation Development District (CDD)

Conservation Development District (CDD)

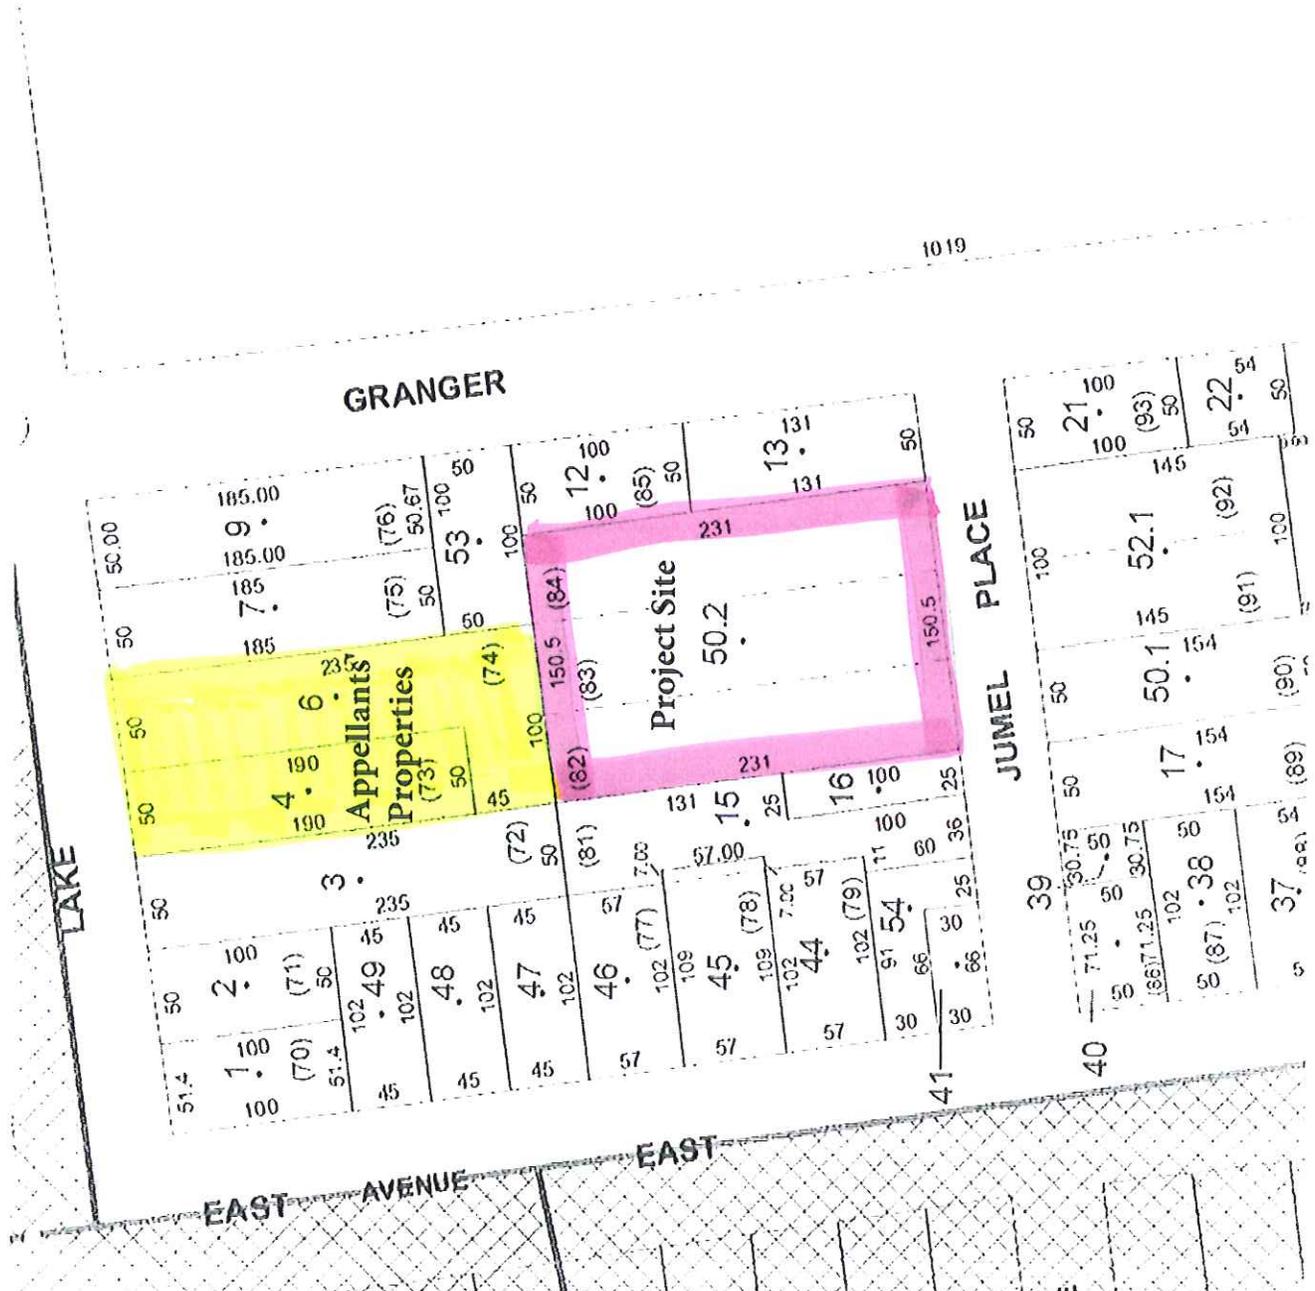

The Conservation Development District designation reflects the “Country” of the City in the Country. This designation allows for low density residential, outdoor recreation, agricultural, and other rural uses utilizing land conservation methods such as clustering. Areas typically include single-family lots and subdivisions, existing planned developments, farms, estates, and natural areas. Commercial activities should be limited to those that support rural and recreational uses and which protect valuable open space, protect natural resources and maintain natural systems. This designation reflects a rural or agrarian character that works to preserve contiguous open spaces, protect natural resources and restore and maintain natural systems, which will all become increasingly important and valuable community resources.

Development in this area shall require a “conservation analysis” and utilize land conservation methods to protect environmentally sensitive areas and features, minimize the development’s edge effects and conserve significant open space.

Re: Interpretation Request – Appeal from Brewton, et al.
27 Jumel Place – UR-3

Dear Chairman Moore:

We represent the interests of ANW Holdings, Inc. (“ANW” or “Respondent”) with respect to its application for the renewal of area variances granted by the Saratoga Springs Zoning Board of Appeals (“Board”) in 2013 and 2014 related to 27 Jumel Place (“Property”). ANW has appeared before the Board once in 2016 in order advance its renewal request for the previously granted variances; however, its application has been removed from consideration purportedly due to the recently filed Appeal and Request for Interpretation (the “Appeal”) of the February 22, 2016 Zoning Determination related to ANW’s project which found that the proposed use was permitted within the zone and no use variances is required. The Appeal has been filed by Jonathon Tingley, Esq, on behalf of his clients Samuel Brewton, Gerald and Debra Mattison, and Sandra Cohen (“Appellants”) which appeal asserts that (1) ANW’s application be stayed automatically until its appeal is decided; and (2) a use variance is required.

While we recognize that the Appeal is directed to a decision by the City Zoning and Building Inspector, ANW has a vested interest in the outcome of the ZBA’s decision on this matter and, as such, respectfully provides this submission for consideration. Based upon all the reasons set forth below, we ask that the Board deny the Appellant’s Appeal because (1) ANW’s proposed project meets the definition of single family residence as permitted in the UR-3 Zone and is thus a permitted use; (2) the arguments advanced in the Appeal are a mischaracterization of both the City Zoning Code, as well as the proposed project itself; (3) the appeal is untimely; and (4) the determination made on February 22, 2016 was not based upon any additional information or change of circumstances to deviate from prior precedent and findings related to this project.

A. Third Party Stay is Impermissible

At the outset, it is noted that Attorney Tingley cites to the City's Zoning Code §8.4.2(c) for the proposition that there is an automatic stay with the filing of his clients' administrative appeal of a zoning determination. Section 8.4.2(c) states in its entirety:

“An appeal shall stay all **enforcement proceedings** relating to any violation under appeal unless the administrative official charged with the enforcement of the Zoning Ordinance finds that such stay would cause imminent peril to life or property.”

It is clear from a reading of §8.4.2 that the City provision stays only proceedings to enforce alleged violations of the Zoning Code. In this case, there is no pending violation or enforcement proceeding against ANW or the appealing neighbors or any other entity. Therefore, the provision of the City Zoning Code cited by Attorney Tingley for an automatic stay of the ANW's application is erroneous.

In light of the clear inapplicability of the City stay provision, Attorney Tingley's letter then cites to the General City Law §81-a[6] for the proposition that the state law applies stays more broadly to “all proceedings in furtherance of the action appealed from” and would operate to create an automatic stay [See Tingley ltr, p. 2]. However, there is binding Appellate Division case law which holds that a third party appeal of a zoning determination **does not** create an automatic stay under the state law. See Bonded Concrete, Inc. v. Town of Saugerties, 282 A.D.2d 900 (3d Dep't 2001) (holding that the NYS Town Law does not operate as an automatic stay for third party appeals; see People v. City of Watervliet Zoning Board of Appeals, 2013 N.Y. Misc LEXIS 6853 (Sup Ct Albany Co 2013) (holding “that the automatic stay provision of NYS City Law §81-a[6] governing appeals to a Zoning Board of Appeals does not apply to the filing of an appeal by third parties”). The courts have found that the legislative intent of the automatic stay provisions for zoning boards of appeals is to protect property owners from enforcement of a notice of violation while his or her appeal is pending and not for third party appeals. See People v. Baris Shoe Co, 174 Misc2d 529 (Dist Ct Nassau Co 1997).

To be sure, an extension of automatic stays to the filing of third-party appeals would subject all applications, not just ANW's, to whim of neighbors who seek to slow or inhibit the due and timely consideration of such applications by the Board. Such a result is neither outlined in the language or expressed as the intent of either the City Zoning Code or General City Law 81-a[6]. As such, ANW respectfully requests that no stay be recognized as applicable to its application for renewal of its area variances and that its application be heard at the next meeting of the Zoning Board of Appeals.

B. Background and History

The Property has been before the Board on several occasions, dating back as far as 1957. The site was home to a manufacturing operation in what was, then and now, a largely residential area. The pre-existing, non-conforming building is a large concrete structure covering approximately 49.5% of the lot. At the front and rear of the lot, there is currently under one foot of setback as the

building is located directly on the property lines. Over time, the use on the site evolved from manufacturing to a ballet school and apartment building; and, even at one time, a non-conforming karate studio.

In 2013, John Witt, ANW's representative, filed an application for area variances to "tear down existing building and build a seven unit **single family** condominium project." (See Exhibit A – 2013 Application; emphasis added). The project had the potential to reduce the overall lot coverage and density both from the existing non-conforming building and the maximum allowable use which is four duplexes (or eight residential units). The 2013 application (currently known as "Downtown Walk") requested several area variances to construct the project, to wit: maximum building coverage, maximum principal building on one lot¹, minimum front yard setback for two units on Jumel Place, and minimum rear yard setback for two units at the rear. Following receipt of ANW's application, the Zoning and Building Inspector determined that solely area variances were required for the project because the single family use was permitted within the zone. The Board requested an advisory opinion from the Planning Board which was issued in favor of the project. Following a public hearing on the matter, the Board voted to approve the area variances as requested and made several specific factual findings related to the relief granted.

In 2014, ANW came again before the Board in order to expand upon the relief granted in the 2013 application. First, ANW requested the ability to increase the fence height from 6 feet to 8 feet in order to provide additional screening to neighbors. Second, the front stoops on the units closest to Jumel Place required additional relief from the front yard setback. Third, the maximum building coverage request increased from 43.5% to 46%; representing a 2.5% change. Again, following receipt of the application, the Zoning and Building Inspector determined that solely area variances were required for the project but that the use was permitted within the zone. Following a public hearing on the matter, the Board voted to approve the area variances as requested and made several specific factual findings related to the relief granted.

In 2016, ANW was finally able to move forward with the process of purchasing the Property following the resolution of issues related to the estate probate process involving the current owner. However, ANW's variances from 2014 had lapsed pursuant to the Saratoga Springs Zoning Ordinance eighteen months after the approval (November 1, 2015). As a result, ANW was required to renew its request for the area variance relief in order to proceed with the project. On January 19, 2016, ANW filed an application for a renewal of the area variances and the application was first heard on February 22, 2016 by the Board. Once again, following receipt of the application, the Zoning and Building Inspector determined that area variances were required for the project but that the use was permitted within the zone. At the meeting, ANW presented the application and reiterated several times on the record that *none* of the project elements has changed since the 2013 and 2014 approvals.

¹The maximum principal building on one lot is of particular importance to the instant matter but was not addressed by the Appellants within the Appeal. Section C of this letter will outline this issue in detail.

C. ANW's Project Contains Single-Family Units on One Lot

While Attorney Tingley presents significant information in the Appeal concerning the alleged limitation of condominiums in the UR-3², the appeal mischaracterizes the facts by intimating that ANW's proposed seven **single-family residences** on the Property are actually multifamily dwellings without a single substantiating fact or reasonable interpretation of the City Zoning Code. From the earliest filing in 2013 and including through to the renderings provided in 2016, ANW has maintained the position that the proposed project is made up of separate single family dwelling units which will be owned pursuant to Article 9-B of the NYS Real Property Law (commonly known as the New York State Condominium Act) as it relates to its common areas – as those terms are defined in the state law. In short, the Appellants are arguing for an interpretation related a multifamily dwelling project which **has not been proposed**.

It is ANW's position that the confusion brought about by the Appeal stems from the difference between "use" and "type of ownership" related to condominiums – an issue which has been addressed by New York State courts.

1. USE:

The discussion of use must begin with the current UR-3 permitted uses and their related definitions. In the UR-3, the principal permitted uses are single family residences and two family residences (Table 2: Use Schedule). According to Appendix A of the City Zoning Code, the definitions of these uses are as follows:

Residence – Single-Family: A residential structure containing one dwelling unit.
Residence – Two-Family: A residential structure containing two dwelling units.

Conversely, Attorney Tingley attempts to mischaracterize ANW's project as proposing multifamily residences which is defined as "a residential structure containing **three or more** dwelling units." It is self-evident that the differentiating factor between each of these definitions is the number of dwelling units located within a single structure. It is equally self-evident that the application of ANW (Exhibit A) and the plans provided to the Board show a site layout which includes seven independent structures, each containing a single family dwelling unit, which is consistent with the definition of Residence-Single Family - a permitted use in the UR-3.

2. TYPE OF OWNERSHIP:

The Appellants make much of ANW's accurate characterization of its project as a "condominium" within ANW's application materials. ANW concedes that the City Zoning Code does contain a definition for "condominium" which is:

"A **multifamily dwelling** containing individually owned dwelling units wherein the real property title and ownership are vested in an owner, who has an undivided interest with others in the common usage areas and facilities which serve the development." (Appendix A) (emphasis added)

² ANW strongly disputes the accuracy of Attorney Tingley's premise that "Residence – Multifamily" is the same as "Condominium" under the City Code.

As such, a condominium as a **use** under the City Zoning Code definition must be a “multifamily dwelling” – which is undefined in the Code but would arguably be similar to “Residence – Multifamily: A residential structure containing three or more dwelling units.”³ As noted above, however, ANW’s proposed **use** is neither a Condominium nor a Residence-Multifamily as those terms are defined by the Zoning Code. Rather, ANW’s proposal is seven single family dwelling units on one lot; not seven dwelling units within one structure as argued by the Appellants –which single family residences are permitted uses.

There is no dispute that Downton Walk will be a condominium property pursuant to the NYS Condominium Act. Importantly, New York State law outlines that which is a “condominium” for statutory purposes with respect to the form of ownership, including the shared ownership of common elements and units. Under the Condominium Act, the Downton Walk project is a lawful condominium form of ownership because of its shared elements and will be reviewed by the NYS Department of Law for approval. Therefore, the definition of a “condominium” as a use under the City Zoning Code is of no consequence to the present application which is describing Downton Walk’s form of ownership. To use the City Zoning Code to thwart New York State’s ability to regulate condominiums as a form of ownership of units with common elements would be barred by the doctrine of preemption and contrary to statutory purpose and intent.

In short, it is ANW’s position that “condominium” under the City Zoning Code is not synonymous with “condominium” under the NYS Condominium Act concerning the form of ownership under Article 9-B. Importantly, courts have noted the limitation of local municipalities to regulate, through zoning, forms of ownership such as condominiums which are regulated by New York State. In P.O.K. RSA v. New Paltz, the Appellate Division, Third Department found that “municipalities have no inherent capacity to mandate the manner in which property may be owned or held. They must acquire such power by the State. Absent such a delegation of power, a municipality cannot employ a zoning ordinance to exclude or discriminate against the condominium form of ownership.” 157 A.D. 15 (3d Dep’t 1990). Such exclusion and discrimination is improper because “it is use rather than form of ownership that is the proper concern and focus of zoning and planning regulations.” North Folk Motel, Inc. v. Grigonis, 93 A.D.2d 883 (2d Dep’t 1983).

³ Notably, “multifamily dwelling” is not defined within the Zoning Code but is contained within the definition of “condominium.” The failure of the Code to define a term within the definition of condominium is construed against the municipality and in favor of the property owner in accordance with ordinary meaning. Mamaroneck Beach and Yacht Club Inc. v. Zoning Board of Appeals of the Village of Mamaroneck, 53 A.D.3d 494, 498 (2d Dep’t 2008). ANW takes the position that the ordinary meaning of “multifamily dwelling” is similar to that of “Residence – Multi-Family” which requires a single structure to contain three or more dwelling units. Appellants assume and speculate that the separation of the buildings “by a few feet” must create multifamily residences – even when their interpretation finds no support in the Code. Such arguments by the Appellants would be an impermissible and a derivation of the law that vagueness or ambiguity is resolved in favor ANW. Assumptions and conjecture are not permitted in order to interpret a zoning code.

3. MAXIMUM PRINCIPAL BUILDING VARIANCE

For the reasons set for in Points 1 and 2 above, there is simply no reading of the Code which supports a finding that there are three or more dwelling units within a single structure in Downton Walk. Furthermore, ANW is free to use the term ‘condominium’ as a description of its form of ownership under Condominium Act. However, as a last resort, the Appellants cite to a lack of subdivision into seven individual lots as a factor upon which this Board may base an interpretation. The Appellants are incorrect.

The principal building limitation per lot is set forth within the City Zoning Code itself and it is self-evident that an owner can seek area variance relief from this restriction so as to allow more than one principal building on a single lot. Section 2.3-A of the Zoning Code states, in relevant part, that “only one principal building may be established on any one lot provided that the minimum area, width and dimensional requirements of the district are met for each principal building.” Therefore, an owner **may** either (1) subdivide his lands to allow for more lots on which to place a single principal building **or** (2) seek an area variance to place more than one principal building on a single lot. In 2013, ANW came to the Board to request an area variance of the maximum principal building limitation under Section 2.3-A from one building on the lot to seven buildings. The relief was granted.

The Appellants attempt to equate “multiple buildings on site” with “multiple dwelling units within a single structure” strains interpretation far beyond the reasonable and into the wholly unfounded. While the word ‘multiple’ is used in the Appeal synonymously, the words are not the same for purposes of this interpretation. ANW was entitled to seek relief from Section 2.3-A to place seven, single-family units on the Property. Any attempt to argue that multiple buildings on site is the equivalent of a ‘multifamily dwelling’ is contrary to statutory interpretation, common usage of the words, and the definitions provided by City Zoning Code itself.

For all the reasons set forth above, ANW’s proposed project does not require relief from the use restrictions in the UR-3 and the determination of the Zoning and Building Inspector should be upheld.

D. The Appeal is Time Barred

It is also the position of ANW that the appeal of the February 22, 2016 determination is time-barred. New York General City Law 81-a(5)(b) provides:

“An appeal shall be taken within sixty days after the filing of any order, requirement, decision, interpretation or determination of the administrative official, by filing with such administrative official and with the board of appeals a notice of appeal, specifying the grounds thereof and the relief sought. The administrative official from whom the appeal is taken shall forthwith transmit to the board of appeals all the papers constituting the record upon which the action appealed from was taken.”

ANW first brought applied for relief for the project in 2013, at which time a zoning determination on the merits was made by the Zoning and Building Inspector. The determination

Moore, William
Page 7 of 7
May 3, 2016

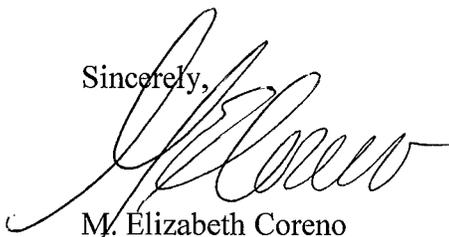

in 2013 was that area variances were necessary for the project but not use variances. It is solely due to a lapse in time that ANW is required to renew its application for relief. There has been no evidence submitted to the Board of any material changes in circumstances for the project components or neighborhood composition since the original determinations were made. Moreover, ANW is not seeking any additional or different relief which would change the previously considered impacts to the neighborhood. As a result, the zoning determination of 2013 is determinative on the issue of whether a use variance is required and the statute of limitations provided by General City Law 81-a(5)(b) of sixty days has long since run. To be sure, the Appellants would like the benefit of a second (or third) bite of the apple, having not appealed the original determination in 2013. Such a bite would be prejudicial to ANW, as well as contrary to principals of res judicata.

The doctrine of administrative res judicata (or claim preclusion) applies to the Appeal of the 2016 determination made by the Zoning and Building Inspector. The Appellants had a full and fair opportunity to seek relief from the zoning determination originally made in 2013 which was based upon the very same facts and project elements for Downton Walk. See DiCostanzo v. Zoning Board of Appeal of the Village of Saltaire, 2015 NY Slip Op 30051(U) (applying the doctrine of administrative res judicata to zoning officer determinations); See Jensen v Zoning Bd. of Appeals of the Village of Old Westbury, 130 AD2d 549, 550 (2nd Dept. 1987), citing Ryan v NY Tel. Co., 62 NY2d 494, 499 (1984). As such, the Appeal is untimely and should be dismissed.

In conclusion, it bears noting that the Appellants' citations to the 2015 Comprehensive Plan are irrelevant and misdirected. As extensively noted above, there is no reading of the City Zoning Code (of which the Comprehensive Plan is not a part) which supports a determination that Downton Walk is a condominium as that term is defined within the Code. In truth, the proposed project is a single family residential development on a single lot with common elements to be owned pursuant to the Condominium Act. Furthermore, the Comprehensive Plan is a planning and supportive tool for the City Council in its efforts to pass zoning legislation for the future of the City. The Board does not exist to carry out the legislative function of the City Council; and even if it did, this project comports with the single and two family residences called for in the CRN-1 and the RN-2.

I respectfully request that this letter be made part of the record for the Appeal. I thank the Board for its courtesies in this matter.

Sincerely,

M. Elizabeth Coreno

6. Is property located within (check all that apply): Historic District Architectural Review District
 500' of a State Park, city boundary, or county/state highway?

7. Brief description of proposed action: relief from minimum area requirements

8. Is there a written violation for this parcel that is not the subject of this application? Yes No

9. Has the work, use or occupancy to which this appeal relates already begun? Yes No

10. Identify the type of appeal you are requesting (check all that apply):
 INTERPRETATION (p. 2) VARIANCE EXTENSION (p. 2) USE VARIANCE (pp. 3-6) AREA VARIANCE (pp. 6-7)

FEES: Make checks payable to the "Commissioner of Finance" and attach to top of original application. Fees are cumulative and required for each request below.

- Interpretation \$ 400
- Use variance \$1,000
- Area variance
- Residential use/property: \$ 150
- Non-residential use/property: \$ 500
- Extensions: \$ 150

INTERPRETATION – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Identify the section(s) of the Zoning Ordinance for which you are seeking an interpretation:

Section(s) _____

2. How do you request that this section be interpreted? _____

3. If interpretation is denied, do you wish to request alternative zoning relief? Yes No

4. If the answer to #3 is "yes," what alternative relief do you request? Use Variance Area Variance

EXTENSION OF A VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Date original variance was granted: _____ 2. Type of variance granted? Use Area

3. Date original variance expired: _____ 4. Length of extension requested: _____

5. Explain why the extension is necessary. Why wasn't the original timeframe sufficient?: _____

When requesting an extension of time for an existing variance, the applicant must prove that the circumstances upon which the original variance was granted have not changed. Specifically demonstrate that there have been no significant changes on the site, in the neighborhood, or within the circumstances upon which the original variance was granted:

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) _____.

Dimensional Requirements

From

To

Creation of a 5,700 sqft
 lot with existing single-family
 residence and creation of a con-
 forming 6,600 sqft lot with
 a new single-family residence

~~12,300~~ 12,300 sqft

5,700 sqft
and 6,600 sqft

Other: _____

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- 1. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

Proposed addition to existing residence
 was not cost effective. Costs would
 exceed value of residence.

- 2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

The neighborhood is diverse with regard to lot size. Some lots are a preexisting nonconforming regarding minimum lot size and some exceed minimum lot size. The neighborhood is also diverse regarding existing use. Some lots have preexisting nonconforming two family and a commercial use also exists.

- 3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

900 sqft smaller (5,700 sqft) than the required (6,600 sqft)

- 4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

The lot is clear of trees or wetland and would not adversely impact surrounding landscape. An ally also borders the West side of the lot.

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

In accord with Article 240-14.4A(1)(b)(6) of the Zoning Ordinance, "any request for an area variance, which shall effect a change in density, shall be applied for and considered as a use variance and decided under criteria for the same". A request that involves any of the following relief will require an application for a use variance and will be decided under the use variance criteria:

- (1) Dimensional relief from minimum lot size requirements that would allow additional permitted units and/or uses
(2) Relief from on site parking requirements
(3) Reduction in land area requirements for multi-family units

DISCLOSURE

Does any City officer, employee, or family member thereof have a financial interest (as defined by General Municipal Law Section 809) in this application? [] No [] Yes If "yes", a statement disclosing the name, residence and nature and extent of this interest must be filed with this application.

Re: Recommendation request for Beyer Subdivision – 199 West Circular Street

Dear Mark,

On March 21, 2016 the Zoning Board of Appeals (ZBA) heard the following application:

#2882 BEYER SUBDIVISION, 199 West Circular Street, area variance to provide for a two-lot residential subdivision; seeking relief from the minimum lot area requirement in the Urban Residential – 2 District.

Per 8.4.6 of the City's Zoning Ordinance, "If a proposed subdivision plat contains one or more lots that do not comply with this Chapter and, therefore, require an area variance; the ZBA shall request that the Planning Board provide a written recommendation concerning the proposed variance.

Thank you for your consideration of this request and we look forward to your input.

Respectfully yours,

Bill Moore, Chair
Zoning Board of Appeals

PROPERTY INFORMATION

1. Property Address/Location: 117 Middle Ave Tax Parcel No.: 166 45 3 25
(for example: 165.52 - 4 - 37)
2. Date acquired by current owner: 8/22/2014 3. Zoning District when purchased: UR3
4. Present use of property: Single Family Home 5. Current Zoning District: UR3
6. Has a previous ZBA application/appeal been filed for this property?
 Yes (when? For what?)
 No
7. Is property located within (check all that apply): Historic District Architectural Review District
 500' of a State Park, city boundary, or county/state highway?
8. Brief description of proposed action:
Add second story and a small addition to a single family home that is currently on the property. The existing home is outside of the setback requirements in that the east side of the home has a side setback of 2.8' and 3.1'. We are requesting no change in this setback. The rear of the home (north) currently is between 1.5' and 2.1'. We are proposing a small addition to the west side of the building. This corner of this addition would be 1.4' from the property line as opposed to the current 1.5'.
9. Is there a written violation for this parcel that is not the subject of this application? Yes No
10. Has the work, use or occupancy to which this appeal relates already begun? Yes No
11. Identify the type of appeal you are requesting (check all that apply):
 INTERPRETATION (p. 2) VARIANCE EXTENSION (p. 2) USE VARIANCE (pp. 3-6) AREA VARIANCE (pp. 6-7)

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) _____

<u>Dimensional Requirements</u>	<u>From</u>	<u>To</u>
Side Setback _____ (Existing home currently has side setback proposed) _____	4 ft _____	2.8 to 3.1' _____
Rear Setback _____ (existing home currently has rear setback of 1.5' to 2.1' - we are proposing an addition that is approx 5' wide and the corner would be 1" closer to property line.) _____ _____	25' _____	1.4' to 2.1' _____ _____

Other: _____

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- 1. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

I have attempted to contact the property owner to the rear of this property who has an oversized lot. I have sent letters and knocked on the door many times and have had no response from either.
 We have explored other designs to try to make the home a bit larger to fit todays standards. The home is very narrow and we feel the small side addition adds much to using the still small square footage to its best use.

- 2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

The nearby neighborhood has many properties that do not fit the current setback requirements and therefore this property would not stand out as being out of character
 As mentioned , the bordering property to the rear has an oversized lot and the home on that property is very close to the far border leaving a large back yard. The bordering property to the East has a home that is also located at the far border(east) of its lot leaving yard in between the 2 properties therefore the homes would not be abnormally close to each other. The bordering property to the West is a double lot that runs between both Middle Ave and York. The portion of the property that borders our lot on Middle ave is used as a driveway. The proposed addition to our property would still be 18.2' from that property line. There is also an existing garage along the same property line that is 8.1' from the property line.

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

The requested variance is not substantial because the only difference between the current setback of the existing structure and the proposed changes is only reduced by 1" on one corner of the home.

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

There are many similar homes in the area that do not fit the current setback requirements and there will be little impact to neighboring properties.

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

This property was purchased knowing that variances would be required but none of the required variances needed are out of character for the surrounding area nor are they substantial.

DISCLOSURE

Does any City officer, employee, or family member thereof have a financial interest (as defined by General Municipal Law Section 809) in this application? No Yes If "yes", a statement disclosing the name, residence and nature and extent of this interest must be filed with this application.

APPLICANT CERTIFICATION

I/we, the property owner(s), or purchaser(s)/lessee(s) under contract, of the land in question, hereby request an appearance before the Zoning Board of Appeals.

By the signature(s) attached hereto, I/we certify that the information provided within this application and accompanying documentation is, to the best of my/our knowledge, true and accurate. Letter of support for 117 Middle Ave. Variance

From : Gillian Black [REDACTED]

Mon, Apr 04, 2016 11:35 AM

Subject : Letter of support for 117 Middle Ave. Variance**To :** lindsey gonzalez <lindsey.gonzalez@saratoga-springs.org>

To Whom it May Concern,

We received notice that Chris Armer & Teri DeSorbo have applied for a variance. My wife Kathryn Strassner and I own the double lot property at [REDACTED] York Ave. Our driveway (and main entrance) is directly adjacent to the western border of 117 Middle Ave. While at first we were concerned that development may encroach on our privacy, after reviewing the proposed plans we fully support this project. The current structure at 117 Middle Ave. is an eyesore. We believe the proposed construction is in the best interest of our neighborhood and the City of Saratoga Springs, as it replaces a derelict structure and will bolster our local property values. Please grant them their variance.

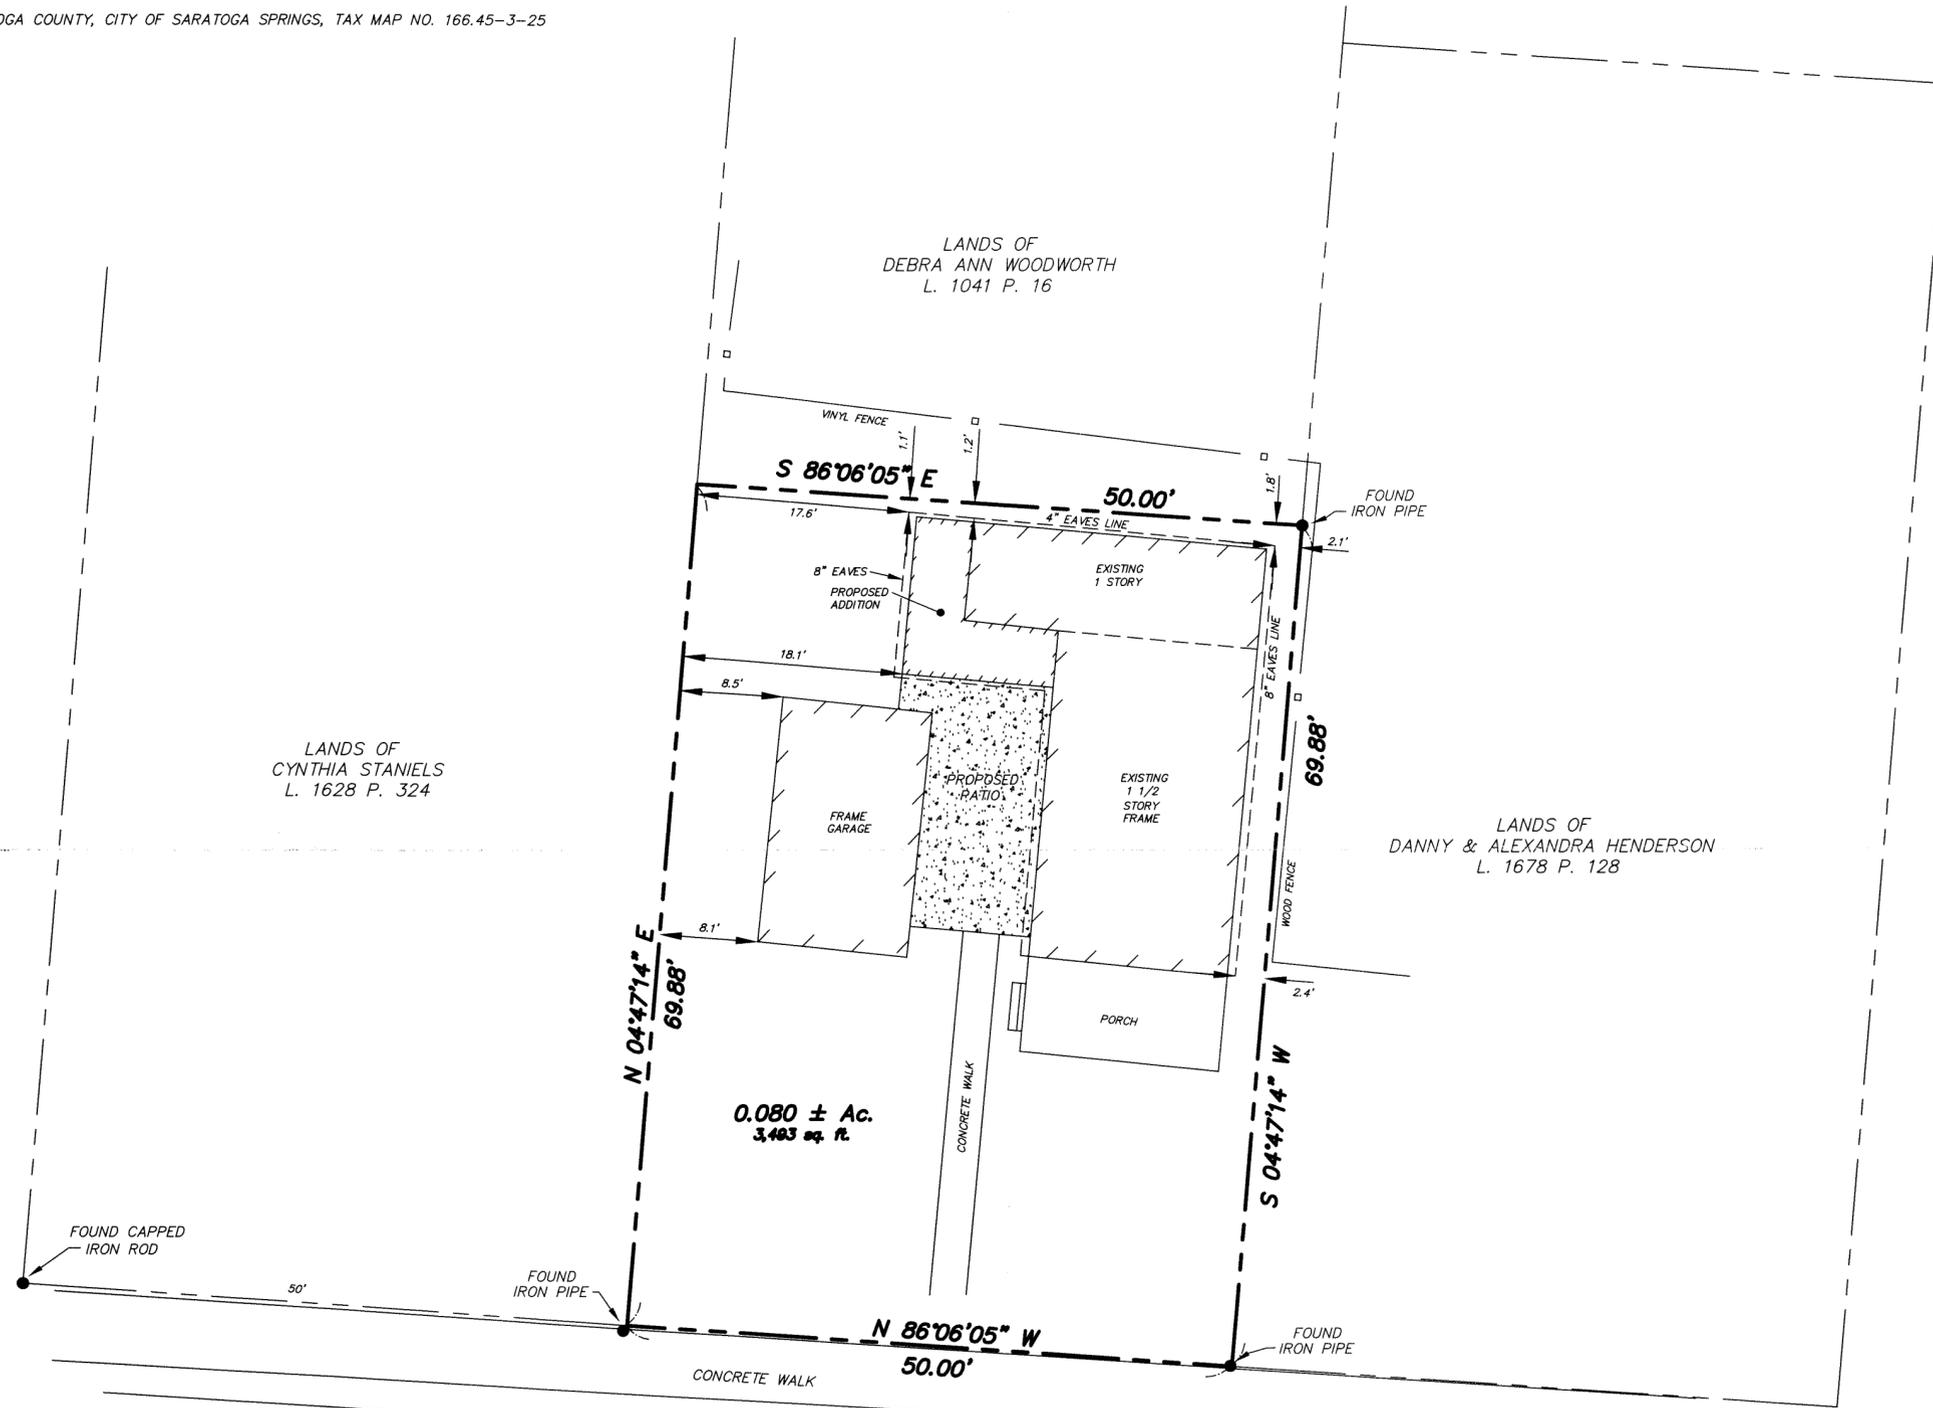

Best Regards,
Gillian Black

1. Date original variance was granted: _____ 2. Type of variance granted? Use Area

3. Date original variance expired: _____

5. Explain why the extension is necessary. Why wasn't the original timeframe sufficient?

When requesting an extension of time for an existing variance, the applicant must prove that the circumstances upon which the original variance was granted have not changed. Specifically demonstrate that there have been no significant changes on the site, in the neighborhood, or within the circumstances upon which the original variance was granted:

USE VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

A use variance is requested to permit the following: _____
2 market rate units and 4 workforce units

For the Zoning Board to grant a request for a use variance, an applicant must prove that the zoning regulations create an unnecessary hardship in relation to that property. In seeking a use variance, New York State law requires an applicant to prove all four of the following “tests”.

I. That the applicant cannot realize a reasonable financial return on initial investment for any currently permitted use on the property. “Dollars & cents” proof must be submitted as evidence. The property in question cannot yield a reasonable return for the following reasons:

7 years of marketing to seniors and not a single offer

A. Submit the following financial evidence relating to this property (attach additional evidence as needed):

1) Date of purchase: ²⁰¹⁰ _____ Purchase amount: \$ ^{377,000} _____

2) Indicate dates and costs of any improvements made to property after purchase:

<u>Date</u>	<u>Improvement</u>	<u>Cost</u>

Appraisal Assumptions: _____

B. Has property been listed for sale with the Multiple Listing Service (MLS)? Yes If "yes", for how long? 7 years No

1) Original listing date(s): 2010 Original listing price: \$ 325,000

If listing price was reduced, describe when and to what extent: \$299,000 in 2011

2) Has the property been advertised in the newspapers or other publications? Yes No

If yes, describe frequency and name of publications: all senior outlets 55+ Living Guide

3) Has the property had a "For Sale" sign posted on it? Yes No

If yes, list dates when sign was posted: since 2010

4) How many times has the property been shown and with what results? multiple times with no offers

2. That the financial hardship relating to this property is unique and does not apply to a substantial portion of the neighborhood. Difficulties shared with numerous other properties in the same neighborhood or district would not satisfy this requirement. This previously identified financial hardship is unique for the following reasons:

seniors do no want this type of housing which is twpo story 2 and 3 bedroom with full basement and attached garage.

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) _____

<u>Dimensional Requirements</u>	<u>From</u>	<u>To</u>
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Other: _____

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

1. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

DISCLOSURE

Does any City officer, employee, or family member thereof have a financial interest (as defined by General Municipal Law Section 809) in this application? No Yes If "yes", a statement disclosing the name, residence and nature and extent of this interest must be filed with this application.

For the Zoning Board to grant a request for a use variance, an applicant must prove that the zoning regulations create an unnecessary hardship in relation to that property. In seeking a use variance, New York State law requires an applicant to prove all four of the following "tests".

I. That the applicant cannot realize a reasonable financial return on initial investment for any currently permitted use on the property. "Dollars & cents" proof must be submitted as evidence. The property in question cannot yield a reasonable return for the following reasons:

In 2110, six senior units were completed and marketing began. Each townhome consisted of 2 or 3 bedrooms, 2 story, full basements and attached garage. Price was \$325,000. From the outset, buyers were available in the 30 to 40 year old range, with none over the 55 age as required by the project approvals. The price was then lowered to \$299,000 (actual builder cost) and subsequently to \$250,000 to determine if price was indeed the factor. It clearly was not. For 7 years and 3 realtors, we still have no buyers over 55.

B. Has property been listed for sale with the Multiple Listing Service (MLS)? Yes If "yes", for how long? 7 years No

1) Original listing date(s): 2010 Original listing price: \$ 325,000

If listing price was reduced, describe when and to what extent: From \$325,000 to 299,000 to \$250,000 in 2011 as well as "Rent With Option To Buy"

2) Has the property been advertised in the newspapers or other publications? Yes No

If yes, describe frequency and name of publications: all senior outlets including 55+ Living Guide for 7 years.

3) Has the property had a "For Sale" sign posted on it? Yes No

If yes, list dates when sign was posted: since 2010

4) How many times has the property been shown and with what results? multiple times weekends, open houses, with no offers over 7 years.

2. That the financial hardship relating to this property is unique and does not apply to a substantial portion of the neighborhood. Difficulties shared with numerous other properties in the same neighborhood or district would not satisfy this requirement. This previously identified financial hardship is unique for the following reasons:

After 7 years of marketing, price reductions and 3 realtors, it is clear that while persons in the age bracket of 30 to 40 will purchase these homes, seniors will not.

124 Jefferson St. – Project History

Background- In 2010, the project was approved for 6 units of senior housing (2 units allowed, plus 4 units (density bonus). Marketing began immediately with age restriction originally at 60, subsequently changed to 55 by the city. However, customers who were willing to purchase were always 30 to 40 years of age.

Unit Design – Two and Three Bedroom, Two story, and full basement with attached garage.

Pricing – \$325,000 in 2010 subsequently reduced to \$299,000 in 2011 and briefly to \$250,000 that year.

Marketing - (Utilized three realtors) (Roohan ,Hunt ,Pro Realty of New York) with specialized outreach to seniors through flyers and visits to all Saratoga Senior centers. In addition, targeted advertising in “55 + Living Guide”. (Attached)

2016 Situation- After 7 years of marketing, it is clear that there is a market for these homes in the 30 to 40 year age range. We are proposing to repurpose the Public Benefit derived from the 4 unit density bonus to “Workforce Housing”

Workforce Housing - would restrict buyers to a maximum of 80 to 120% of the Area Median Income (AMI) for Saratoga County, thus providing affordable housing opportunities for the city, which it sorely needs.

New construction, luxury 55+ condominiums within walking distance to Broadway and historic Saratoga Race Course. A six unit building with two floor plans to choose from. Attached garage, small front porch and back patios overlooking common backyard areas for total outdoor enjoyment.

To whom it may concern:

I (Danielle Warrington) started working with Charles Touhey and property managing 124 Jefferson St. about 4 years ago. Seeming I work for a successful local builder and broker Cecil Provost, and being a realtor myself, we figured this would really help us sell these units. During this time I have set forth several different marketing avenues for 55+ senior living. We have advertised in Saratoga Living, a local magazine, 55 plus living guide, local papers, printed marketing brochures at the Y ,the race track, local business, as well as social media and that's just to name a few. I have spent years showing these units to 55+ seniors week after week just to continue to get the same result. I've done several open house events in hopes to attract seniors. 55+ seniors have no interests in buying these units due to the floor design and layout. They do not want to purchase their final home with 2 sets of stairs and no Bedroom on first floor, and no handicap access. We have rented a few units to 55+ seniors, and as a show of good faith brought every lease and photo id to Brad Birge so he knew we were doing the right thing. All Tenants at this time are moved out due to the reasons I listed above or they have purchased a place with the amenities they need, 1st. floor living.

Also during this time I couldn't even begin to count the number of sales, and rent with option, we have turned away due to the age restriction. What I have seen is that it's the 30+ middle age class that want to buy these condos. We have exhausted every idea, marketing strategy, to get these sold and it's just not happening. We have been honest and worked diligently in this process with just no success!

18. Showing, Married early 40's. Were looking for a second home. Built in still water a Townhome. Age was reason for loss of sale. March 2015.

19. Showing, 42 2nd home, looking to downsize. from Saratoga Area, loss sale to age. Moved to Ballston Spa. April 2015.

20. Showing, 1st time home buyer. from Saratoga. Age reason for loss of sale. bought in ballston spa. June 2015.

21. Showing, 43, second home. downsizing. moved from latham to saratoga, not sure where tho. Age was loss of sale. July 2015.

22. Showing, age 31, from saratoga. works at globalfoundries. loss of sale due to age. relocated to Vermont for job. Aug. 2015

23. Showing, age 33, from saratoga area works at local business, loss of sale due to age.

Every month 1 open house since 2013-2016, no sales due to age restriction!

This is just some of the contacts that I kept record of. There were also several agents in Saratoga that brought clients to show, age the number one reason for loss of sale. Second reason 55+ does not want to buy due to design layout being 2 story, the concern is in a few years from now the stairs being a huge issue. Just wanted to give you an idea of the hardship we have dealt with on this project. Thank you Brad for your time and consideration.

Sincerely,

Danielle

Board Members,

This morning I received a call from a concerned citizen who received a neighbor notification for the above referenced project. She reflected that she was unable to access internet at this time to provide her own statement, so I am summarizing her concerns below:

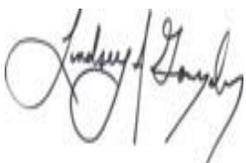

Aimee Miller
121 Madison St
Re: 124 Jefferson St Use Variance Request

Was comfortable with said property being utilized for senior housing, but NOT for workforce housing. Does not want another Jefferson Terrace in the neighborhood, and feels there is not enough senior housing in Saratoga. Disagrees with any further expansion as there is already a lack of greenspace in the neighborhood.

(for example: 165.52 - 4 - 37)

2. Date acquired by current owner: 3/1/84 3. Zoning District when purchased: UR 2

4. Present use of property: Vacant Land 5. Current Zoning District: UR 2

6. Has a previous ZBA application/appeal been filed for this property?
 Yes (when? _____ For what? _____)
 No

7. Is property located within (check all that apply)? Historic District Architectural Review District
 500' of a State Park, city boundary, or county/state highway?

8. Brief description of proposed action: _____
Construction of a new single family home

9. Is there a written violation for this parcel that is not the subject of this application? Yes No

10. Has the work, use or occupancy to which this appeal relates already begun? Yes No

11. Identify the type of appeal you are requesting (check all that apply):

INTERPRETATION (p. 2) VARIANCE EXTENSION (p. 2) USE VARIANCE (pp. 3-6) AREA VARIANCE (pp. 6-7)

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) 2.3

<u>Dimensional Requirements</u>	<u>From</u>	<u>To</u>
Minimum Lot Square Feet	6600	5400
Minimum Average Width	60 ft	45ft

Other: _____

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

1. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

The current lot size can not be expanded due to fact that there is an existing building located to the south that is currently located at the minimum setback for it's lot. The lot located to the north is already below the minimum width for the zoning district and narrowing this lot to enhance the width of the subject lot would only further exaggerate it's non-compliance. The lot located to the west is below the minimum area for the zoning district and shortening this lot to enhance the subject lot would only further exaggerate it's non-compliance.

2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

The new single family home that is being proposed will fit within the setback and lot coverage zoning requirements and would be in character with other new homes that have been built on the street. There are other lots located on the same street that have less square footage than the subject lot and have recently had, or current have, new construction of single family homes. Both 12 Bensonhurst, (ID 165.57-1-6) and the property directly adjacent to it, (165.57-1-67), have only 5000 sq/ft compared to the 5400 sq/ft of the subject lot. The subject lot is also in character with the lots immediately surrounding it, all of which are similar in width and square footage.

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

The variance is not substantial because the subject lot is currently similar in both width and square footage to all of the immediate surrounding lots. Although the subject lot's width is 15' short of the zoning requirement, it is only 5' less than the neighboring lots to the north and west, and 10' less than the neighboring lot to the south. Also, although the subject lot is 1200 square feet smaller than the zoning requirement, it is only 600 square feet smaller than the lots located to the north and west.

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

The variance will not have any adverse environmental effects due to the fact that any proposed new home would need to meet other requirements of the zoning regulation. This would ensure adequate area on the subject lot for water drainage and roof runoff. There are easily accessible water, sewer and gas lines already in the immediate area.

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

The alleged difficulty was self-created in so far that a new home is desired for the lot. The lot is currently vacant land and the construction of a new single family home will require the necessary variance(s).

1. Date original variance was granted: _____ 2. Type of variance granted? Use Area

3. Date original variance expired: _____

5. Explain why the extension is necessary. Why wasn't the original timeframe sufficient?

When requesting an extension of time for an existing variance, the applicant must prove that the circumstances upon which the original variance was granted have not changed. Specifically demonstrate that there have been no significant changes on the site, in the neighborhood, or within the circumstances upon which the original variance was granted:

USE VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

A use variance is requested to permit the following: _____

For the Zoning Board to grant a request for a use variance, an applicant must prove that the zoning regulations create an unnecessary hardship in relation to that property. In seeking a use variance, New York State law requires an applicant to prove all four of the following "tests".

- I. That the applicant cannot realize a reasonable financial return on initial investment for any currently permitted use on the property. "Dollars & cents" proof must be submitted as evidence. The property in question cannot yield a reasonable return for the following reasons:

A. Submit the following financial evidence relating to this property (attach additional evidence as needed):

1) Date of purchase: _____ Purchase amount: \$ _____

2) Indicate dates and costs of any improvements made to property after purchase:

<u>Date</u>	<u>Improvement</u>	<u>Cost</u>

If listing price was reduced, describe when and to what extent: _____

2) Has the property been advertised in the newspapers or other publications? Yes No

If yes, describe frequency and name of publications: _____

3) Has the property had a "For Sale" sign posted on it? Yes No

If yes, list dates when sign was posted: _____

4) How many times has the property been shown and with what results? _____

2. That the financial hardship relating to this property is unique and does not apply to a substantial portion of the neighborhood. Difficulties shared with numerous other properties in the same neighborhood or district would not satisfy this requirement. This previously identified financial hardship is unique for the following reasons:

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

6.1.5.3

The applicant requests relief from the following Zoning Ordinance article(s) _____

<u>Dimensional Requirements</u>	<u>From</u>	<u>To</u>
Sign Height	12'	15'
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Other: _____

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- 1. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

There is an existing sign on the property from the previous business owner with the exact same height being requested in this application. Alternatives are not feasible due to the expense of creating a new post and sign. It is more cost effective to insert a new sign face into the existing frame and post. Also, the current sign is installed at the base of a slight decline in the ground so the additional height in the post is necessary for the sign to be visible from the road.

- 2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

Granting the variance will not produce an undesirable change in the character of the neighborhood or a detriment to nearby properties since I will be using a post and frame that has been on the property for many years. I will just be inserting a new sign face into the existing frame/post so it is in keeping with current character of the neighborhood and it will also be an improvement to the existing sign.

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

The requested variance is not substantial due to the fact that I am not requesting a change from the height and dimensions of the current sign on the property.

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

I will be inserting a new sign face into an existing frame and post on the property.

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

The alleged difficulty was self created because I am electing to keep the existing post and frame on the property since this is the most cost effective method for a new sign. The height of the sign helps make the sign more visible from the road since the sign sits at the base of a slight decline in the ground making it below the street level.

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- I. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

As described in the Narrative two prior plans were fully developed with regard to this site. One involved the adaptive reuse of the existing structure and the other the demolition of th existing structure. This Project attempts to use the concepts that were previously approved to construct condominiums consistent in mass, scale and design with the neighborhood while proposing a use of the land that is economically viable to finance, build and sell. There is no other adjacent land for sale and building two large single structures up to the permitted 70ft would not be consistent with the neighborhood.

2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

As depicted on the attached plans, elevations and streetscapes, the proposed buildings are consistent with the buildings throughout the neighborhood. Most of the original Skidmore buildings have been converted into multi-family structures. The City of Saratoga Springs has recognized this by modifying the Union Avenue property from Institutional Education Zoning to UR-4 (See October 1990 adopted Zoning Map). The removal of a vacant Moore Hall and construction of those residential units will be to the benefit of the nearby properties and be significantly more consistent with the streetscape of Union Avenue and White Street.

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

The reality of this undertaking is that larger numbers of multi-family dwellings are needed to replace the previously approved Moore Hall. The front yard setback for the Union Avenue building is maintained and is at a point that is consistent with the existing structures in close proximity on the south side of Union Avenue. The building on White Street is generally in line with other structures on that side of the street. The placement of the structures on North Lane are also consistent with neighboring improvements. The use of the "build-to line" also allows for structure placement that will allow for the optimum consistency with neighboring structures. Finally, the term "substantial" is not merely a request for a mathematical calculation. It calls on the Board to review "substantiality" in the context of the existing and historic neighborhood. In this case, the requested variances are not "substantial".

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

The use of this Property as proposed is consistent not only with the Zoning Code, but the stated "Intent" for this particular Zone. The placement and size of the structure will be consistent with other historic buildings in this area of the City. There will be no demand or requirement to use on-street parking for the proposed number of units. The granting of this variance will replace, with a permitted use, a structure that is wholly inconsistent with the neighborhood and, as a result, will have a positive effect on the neighborhood.

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

The proposed need for Area Variance, may be self-created, but the adaptive re-use of the legal pre-existing, non-conforming structure, did not appear to be consistent with the wishes of many neighbors.

As a result, the construction of an economically viable Project consistent in mass and size with the neighborhood had to be designed. That is what has been done with the proposed utilization of this site. As a result, with the use of some "Area Variances" we have self-created a Project that is consistent with the neighborhood as it actually exists today.

In accord with Article 240-14.4A(1)(b)(6) of the Zoning Ordinance, "any request for an area variance, which shall effect a change in density, shall be applied for and considered as a use variance and decided under criteria for the same". A request that involves any of the following relief will require an application for a use variance and will be decided under the use variance criteria:

- (1) Dimensional relief from minimum lot size requirements that would allow additional permitted units and/or uses
- (2) Relief from on site parking requirements
- (3) Reduction in land area requirements for multi-family units

DISCLOSURE

Does any City officer, employee, or family member thereof have a financial interest (as defined by General Municipal Law Section 809) in this application? No Yes If "yes", a statement disclosing the name, residence and nature and extent of this interest must be filed with this application.

APPLICANT CERTIFICATION

I/we, the property owner(s), or purchaser(s)/lessee(s) under contract, of the land in question, hereby request an appearance before the Zoning Board of Appeals.

By the signature(s) attached hereto, I/we certify that the information provided within this application and accompanying documentation is, to the best of my/our knowledge, true and accurate. I/we further understand that intentionally providing false or misleading information is grounds for immediate denial of this application.

Furthermore, I/we hereby authorize the members of the Zoning Board of Appeals and designated City staff to enter the property associated with this application for purposes of conducting any necessary site inspections relating to this appeal.

Narrative

The history of Skidmore College within Saratoga Springs is that of a quality institution of higher education that has transitioned from approximately 1100 students in 1957 and 80 buildings predominately in the Union Avenue section of the City to its present location on North Broadway. As the college grew so did its need for a more centralized dormitory facility and cafeteria. As a result, in approximately 1957 Moore Hall was completed and dedicated. This facility, with associated parking, spreads from the south side of Union Avenue, across North Lane and up to the north border of White Street. The building itself is constructed of steel and concrete and, if properly maintained, will continue to be a viable structure for decades to come.

Moore Hall continued to be used as a remote Skidmore dormitory until the turn of the Century when it was sold to 46 Union Avenue, LLC, which intended to demolish the building and replace it with a very high end condominium project. The Project for this redevelopment of the site proved not to be an economically viable project, and as a result, the building remained vacant.

In 2014-2015, amid the communal request to find a more affordable living option for the workers in Saratoga Springs, a project was presented to convert the existing building into 53 residential units. This application, which continues to be before the municipal land use boards, brought forth the concept of urban “micro apartments” to reduce the individual units’ size and thus rental costs. Although the proximity of the structure to the urban core of the City was ideal for eliminating the need for the tenants to own and/or operate a motor vehicle, this application is opposed by many of the neighbors, because of the need for on street parking. As a result, Moore Hall continues to be vacant and looms over this important entrance to the City.

Project

There are certain realities that exist with this site. The only reasonable adaptive reuse of Moore Hall is not acceptable to many of the neighbors and the previously approved condominium project was not large enough to absorb the cost associated with the full redevelopment of this real property.

As a result, this Project presents a proposed use of this site that is consistent in mass, scale and design with this location and neighborhood, presents on-site parking in full compliance with the Zoning Code, is economically viable, and will result in the removal of Moore Hall from the street scape.

The four tax parcels that are to be used are all located in the UR-4 Zone. As depicted on the Plans, elevations and maps attached, the integrated Project consists of 22 units on the Union Avenue Parcel consisting of 18 units in the structure predominantly facing Union Avenue and two (2) units each in the two (2) connected building on the north side of North Lane. The parcel extending from White Street on the south to the south side of North Lane will consist of three (3) units structure facing White Street and one unit on the north side of the site adjacent to North

Lane for a total of twenty six (26) total units in the project. As specified above, all buildings in this land owner's association will have on-site parking as required by the Code.

To give the developer minor flexibility with regard to the placement of the structures, we are seeking Area Variances that are based on a "build-to" line and not the specific location of the overhang roof line of any one of the structures.

The structures on the Union Avenue parcel will share a foundation that connected all proposed buildings so that only one principal structure is being constructed on that Parcel. The Parcel on White Street will contain one 3 unit building and a single unit building. Section 2.3 (A)(2) and (3) of the City Zoning Code allows for more than one principal building on a lot in this zone.

Table 1 set out in Section Two of the Zoning Code specifies that the Urban Residential 4 (UR-4) Zone of the City is set up to "accommodate a mix of single family, two family and multi-family uses". That is exactly and specifically what this Project is intended to achieve.

Part 1 - Project and Setting**

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the project sponsor to verify that the information contained in Part 1 is accurate and complete.

C. Planning and Zoning

C.1. Planning and zoning actions.

Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed? Yes No

- If Yes, complete sections C, F and G.
- If No, proceed to question C.2 and complete all remaining sections and questions in Part 1

C.2. Adopted land use plans.

a. Do any municipally- adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located? Yes No

If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located? Yes No

b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?) Yes No

If Yes, identify the plan(s):

c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan? Yes No

If Yes, identify the plan(s):

C.3. Zoning

a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance. Yes No
If Yes, what is the zoning classification(s) including any applicable overlay district?
UR-4

b. Is the use permitted or allowed by a special or conditional use permit? Yes No

c. Is a zoning change requested as part of the proposed action? Yes No
If Yes,
i. What is the proposed new zoning for the site? _____

C.4. Existing community services.

a. In what school district is the project site located? Saratoga Springs City School District

b. What police or other public protection forces serve the project site?
City of Saratoga Springs

c. Which fire protection and emergency medical services serve the project site?
City of Saratoga Springs

d. What parks serve the project site?
All parks with the City Limits

D. Project Details

D.1. Proposed and Potential Development

a. What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed, include all components)? Residential

b. a. Total acreage of the site of the proposed action? _____ 1.29 acres
b. Total acreage to be physically disturbed? _____ 1.29 acres
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? _____ 1.29 acres

c. Is the proposed action an expansion of an existing project or use? Yes No
i. If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles, housing units, square feet)? % _____ Units: _____

d. Is the proposed action a subdivision, or does it include a subdivision? Yes No
If Yes,
i. Purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify types) _____
ii. Is a cluster/conservation layout proposed? Yes No
iii. Number of lots proposed? _____
iv. Minimum and maximum proposed lot sizes? Minimum _____ Maximum _____

e. Will proposed action be constructed in multiple phases? Yes No
i. If No, anticipated period of construction: _____ 12 months
ii. If Yes:
• Total number of phases anticipated _____
• Anticipated commencement date of phase 1 (including demolition) _____ month _____ year
• Anticipated completion date of final phase _____ month _____ year
• Generally describe connections or relationships among phases, including any contingencies where progress of one phase may determine timing or duration of future phases: _____

f. Does the project include new residential uses? Yes No
 If Yes, show numbers of units proposed.

	<u>One Family</u>	<u>Two Family</u>	<u>Three Family</u>	<u>Multiple Family (four or more)</u>
Initial Phase	_____	_____	_____	26 condominiums
At completion of all phases	_____	_____	_____	26 condominiums

g. Does the proposed action include new non-residential construction (including expansions)? Yes No
 If Yes,

i. Total number of structures _____
 ii. Dimensions (in feet) of largest proposed structure: _____ height; _____ width; and _____ length
 iii. Approximate extent of building space to be heated or cooled: _____ square feet

h. Does the proposed action include construction or other activities that will result in the impoundment of any liquids, such as creation of a water supply, reservoir, pond, lake, waste lagoon or other storage? Yes No
 If Yes,

i. Purpose of the impoundment: _____
 ii. If a water impoundment, the principal source of the water: Ground water Surface water streams Other specify: _____
 iii. If other than water, identify the type of impounded/contained liquids and their source. _____
 iv. Approximate size of the proposed impoundment. Volume: _____ million gallons; surface area: _____ acres
 v. Dimensions of the proposed dam or impounding structure: _____ height; _____ length
 vi. Construction method/materials for the proposed dam or impounding structure (e.g., earth fill, rock, wood, concrete): _____

D.2. Project Operations

a. Does the proposed action include any excavation, mining, or dredging, during construction, operations, or both? (Not including general site preparation, grading or installation of utilities or foundations where all excavated materials will remain onsite) Yes No
 If Yes:

i. What is the purpose of the excavation or dredging? Foundation excavation
 ii. How much material (including rock, earth, sediments, etc.) is proposed to be removed from the site?
 • Volume (specify tons or cubic yards): 25 tons
 • Over what duration of time? 6 weeks
 iii. Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispose of them.
Concrete foundation from existing building
 iv. Will there be onsite dewatering or processing of excavated materials? Yes No
 If yes, describe. _____
 v. What is the total area to be dredged or excavated? _____ .75 acres
 vi. What is the maximum area to be worked at any one time? _____ .75 acres
 vii. What would be the maximum depth of excavation or dredging? _____ 6 feet
 viii. Will the excavation require blasting? Yes No
 ix. Summarize site reclamation goals and plan: _____
The excavated foundation will be the site of new structures or parking.

b. Would the proposed action cause or result in alteration of, increase or decrease in size of, or encroachment into any existing wetland, waterbody, shoreline, beach or adjacent area? Yes No
 If Yes:

i. Identify the wetland or waterbody which would be affected (by name, water index number, wetland map number or geographic description): _____

ii. Describe how the proposed action would affect that waterbody or wetland, e.g. excavation, fill, placement of structures, or alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in square feet or acres:

iii. Will proposed action cause or result in disturbance to bottom sediments? Yes No

If Yes, describe: _____

iv. Will proposed action cause or result in the destruction or removal of aquatic vegetation? Yes No

If Yes:

- acres of aquatic vegetation proposed to be removed _____
- expected acreage of aquatic vegetation proposed to be removed _____
- purpose of proposed removal (e.g. beach clearing, invasive species control, boat access): _____

• proposed method of plant removal: _____

• if chemical/herbicide treatment will be used, specify product(s): _____

v. Describe any proposed reclamation/mitigation following disturbance: _____

c. Will the proposed action use, or create a new demand for water? Yes No

If Yes: Existing 53 room dormitory and dining hall - approx. 12,000 gal/day

i. Total anticipated water usage/demand per day: _____ 6,600 gallons/day

ii. Will the proposed action obtain water from an existing public water supply? Yes No

If Yes:

- Name of district or service area: Saratoga Springs
- Does the existing public water supply have capacity to serve the proposal? Yes No
- Is the project site in the existing district? Yes No
- Is expansion of the district needed? Yes No
- Do existing lines serve the project site? Yes No

iii. Will line extension within an existing district be necessary to supply the project? Yes No

If Yes:

• Describe extensions or capacity expansions proposed to serve this project: _____

• Source(s) of supply for the district: Saratoga Springs

iv. Is a new water supply district or service area proposed to be formed to serve the project site? Yes No

If, Yes:

- Applicant/sponsor for new district: _____
- Date application submitted or anticipated: _____
- Proposed source(s) of supply for new district: _____

v. If a public water supply will not be used, describe plans to provide water supply for the project: _____

vi. If water supply will be from wells (public or private), maximum pumping capacity: _____ gallons/minute.

d. Will the proposed action generate liquid wastes? Yes No

If Yes: Existing 53 room dormitory and dining hall - approx. 12,000 gal/day

i. Total anticipated liquid waste generation per day: _____ 6,600 gallons/day

ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe all components and approximate volumes or proportions of each): _____
Sanitary waste

iii. Will the proposed action use any existing public wastewater treatment facilities? Yes No

If Yes:

- Name of wastewater treatment plant to be used: Saratoga County Sewer District #1
- Name of district: Saratoga County Sewer District #1
- Does the existing wastewater treatment plant have capacity to serve the project? Yes No
- Is the project site in the existing district? Yes No
- Is expansion of the district needed? Yes No

- Do existing sewer lines serve the project site? Yes No
- Will line extension within an existing district be necessary to serve the project? Yes No

If Yes:

- Describe extensions or capacity expansions proposed to serve this project: _____

- iv. Will a new wastewater (sewage) treatment district be formed to serve the project site? Yes No

If Yes:

- Applicant/sponsor for new district: _____
- Date application submitted or anticipated: _____
- What is the receiving water for the wastewater discharge? _____

- v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including specifying proposed receiving water (name and classification if surface discharge, or describe subsurface disposal plans):

- vi. Describe any plans or designs to capture, recycle or reuse liquid waste: _____

- e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point source (i.e. sheet flow) during construction or post construction? Yes No

If Yes:

- i. How much impervious surface will the project create in relation to total size of project parcel?

_____ Square feet or .96 acres (impervious surface) .88 acres existing

_____ Square feet or 1.29 acres (parcel size)

- ii. Describe types of new point sources. the redevelopment project will have storm pipe connections to existing city storm system. Connections to system exist as part of current development.

- iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent properties, groundwater, on-site surface water or off-site surface waters)?

Stormwater runoff will be collected on site for infiltration and detention.

- If to surface waters, identify receiving water bodies or wetlands: _____

- Will stormwater runoff flow to adjacent properties? Yes No

- iv. Does proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater? Yes No

- f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel combustion, waste incineration, or other processes or operations? Yes No

If Yes, identify:

- i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)

- ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)

- iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)

- g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit, or Federal Clean Air Act Title IV or Title V Permit? Yes No

If Yes:

- i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet ambient air quality standards for all or some parts of the year) Yes No

- ii. In addition to emissions as calculated in the application, the project will generate:

- _____ Tons/year (short tons) of Carbon Dioxide (CO₂)
- _____ Tons/year (short tons) of Nitrous Oxide (N₂O)
- _____ Tons/year (short tons) of Perfluorocarbons (PFCs)
- _____ Tons/year (short tons) of Sulfur Hexafluoride (SF₆)
- _____ Tons/year (short tons) of Carbon Dioxide equivalent of Hydrofluorocarbons (HFCs)
- _____ Tons/year (short tons) of Hazardous Air Pollutants (HAPs)

h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)? Yes No

If Yes:

- i. Estimate methane generation in tons/year (metric): _____
- ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to generate heat or electricity, flaring): _____

i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations? Yes No

If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust): _____

j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services? Yes No

If Yes:

- i. When is the peak traffic expected (Check all that apply): Morning Evening Weekend
 Randomly between hours of _____ to _____.
- ii. For commercial activities only, projected number of semi-trailer truck trips/day: _____
- iii. Parking spaces: Existing _____ Proposed _____ Net increase/decrease _____
- iv. Does the proposed action include any shared use parking? Yes No
- v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing access, describe: _____

vi. Are public/private transportation service(s) or facilities available within 1/2 mile of the proposed site? Yes No

vii. Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles? Yes No

viii. Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing pedestrian or bicycle routes? Yes No

k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand for energy? Yes No

If Yes:

- i. Estimate annual electricity demand during operation of the proposed action: _____
420,000 kWh
- ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/local utility, or other):
Local grid utility
- iii. Will the proposed action require a new, or an upgrade to, an existing substation? Yes No

l. Hours of operation. Answer all items which apply.

i. During Construction:

- Monday - Friday: _____ 7 am - 9 pm
- Saturday: _____ 7 am - 9 pm
- Sunday: _____ 7 am - 9 pm
- Holidays: _____

ii. During Operations:

- Monday - Friday: _____ 24 Hours - residential
- Saturday: _____ 24 Hours - residential
- Sunday: _____ 24 Hours - residential
- Holidays: _____ 24 Hours - residential

m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both? Yes No
 If yes:
 i. Provide details including sources, time of day and duration:
Construction and Demolition Activities

ii. Will proposed action remove existing natural barriers that could act as a noise barrier or screen? Yes No
 Describe: _____

n.. Will the proposed action have outdoor lighting? Yes No
 If yes:
 i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:
Lighting will be included for building entrances and exits, low level lighting along walks, dark-sky friendly lighting for parking spaces between building.

ii. Will proposed action remove existing natural barriers that could act as a light barrier or screen? Yes No
 Describe: _____

o. Does the proposed action have the potential to produce odors for more than one hour per day? Yes No
 If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures: _____

p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons) or chemical products (185 gallons in above ground storage or an amount in underground storage)? Yes No
 If Yes:
 i. Product(s) to be stored _____
 ii. Volume(s) _____ per unit time _____ (e.g., month, year)
 iii. Generally describe proposed storage facilities: _____

q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? Yes No
 If Yes:
 i. Describe proposed treatment(s):

ii. Will the proposed action use Integrated Pest Management Practices? Yes No

r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? Yes No
 If Yes:
 i. Describe any solid waste(s) to be generated during construction or operation of the facility:
 • Construction: _____ 4 tons per _____ 12 months (unit of time)
 • Operation : _____ 1 tons per _____ 1 month (unit of time)
 ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste:
 • Construction: Cardboard recycling

 • Operation: Recycling of all recyclable materials

 iii. Proposed disposal methods/facilities for solid waste generated on-site:
 • Construction: Local Hauler

 • Operation: Local Hauler

s. Does the proposed action include construction or modification of a solid waste management facility? Yes No

If Yes:

- i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or other disposal activities): _____
- ii. Anticipated rate of disposal/processing:
 - _____ Tons/month, if transfer or other non-combustion/thermal treatment, or
 - _____ Tons/hour, if combustion or thermal treatment

Dear Mr. Hale:

Thank you for requesting the comments of the Office of Parks, Recreation and Historic Preservation (OPRHP).

At your request, OPRHP is providing you with our comments regarding the archaeological component of your project's review. During the review OPRHP considers the proposed project's impacts to previously identified archaeological sites as well as the likelihood of there being unidentified archaeological sites and whether or not the project could impact those archaeological resources.

After reviewing the project and our records we determined that there were no previously identified archaeological sites in the project area and the potential for unidentified archaeological deposits being present was limited due to substantial prior ground disturbance from previous development of the site.

OPRHP has no archaeological concerns with the proposed project. Please continue the consultation process as impacts to buildings and structures are still being evaluated by other staff members.

Sincerely,

Daniel A. Bagrow

Re: Moore Hall student residential building, Union Avenue
Town/City: City Of Saratoga Springs. County: Saratoga.

Dear Michael Hale:

In response to your recent request, we have reviewed the New York Natural Heritage Program database with respect to the above project.

We have no records of rare or state-listed animals or plants, or significant natural communities at your site or in its immediate vicinity.

The absence of data does not necessarily mean that rare or state-listed species, significant natural communities, or other significant habitats do not exist on or adjacent to the proposed site. Rather, our files currently do not contain information that indicates their presence. For most sites, comprehensive field surveys have not been conducted. We cannot provide a definitive statement on the presence or absence of all rare or state-listed species or significant natural communities. Depending on the nature of the project and the conditions at the project site, further information from on-site surveys or other resources may be required to fully assess impacts on biological resources.

This response applies only to known occurrences of rare or state-listed animals and plants, significant natural communities, and other significant habitats maintained in the Natural Heritage Database. Your project may require additional review or permits; for information regarding other permits that may be required under state law for regulated areas or activities (e.g., regulated wetlands), please contact the appropriate NYS DEC Regional Office, Division of Environmental Permits, as listed at www.dec.ny.gov/about/39381.html.

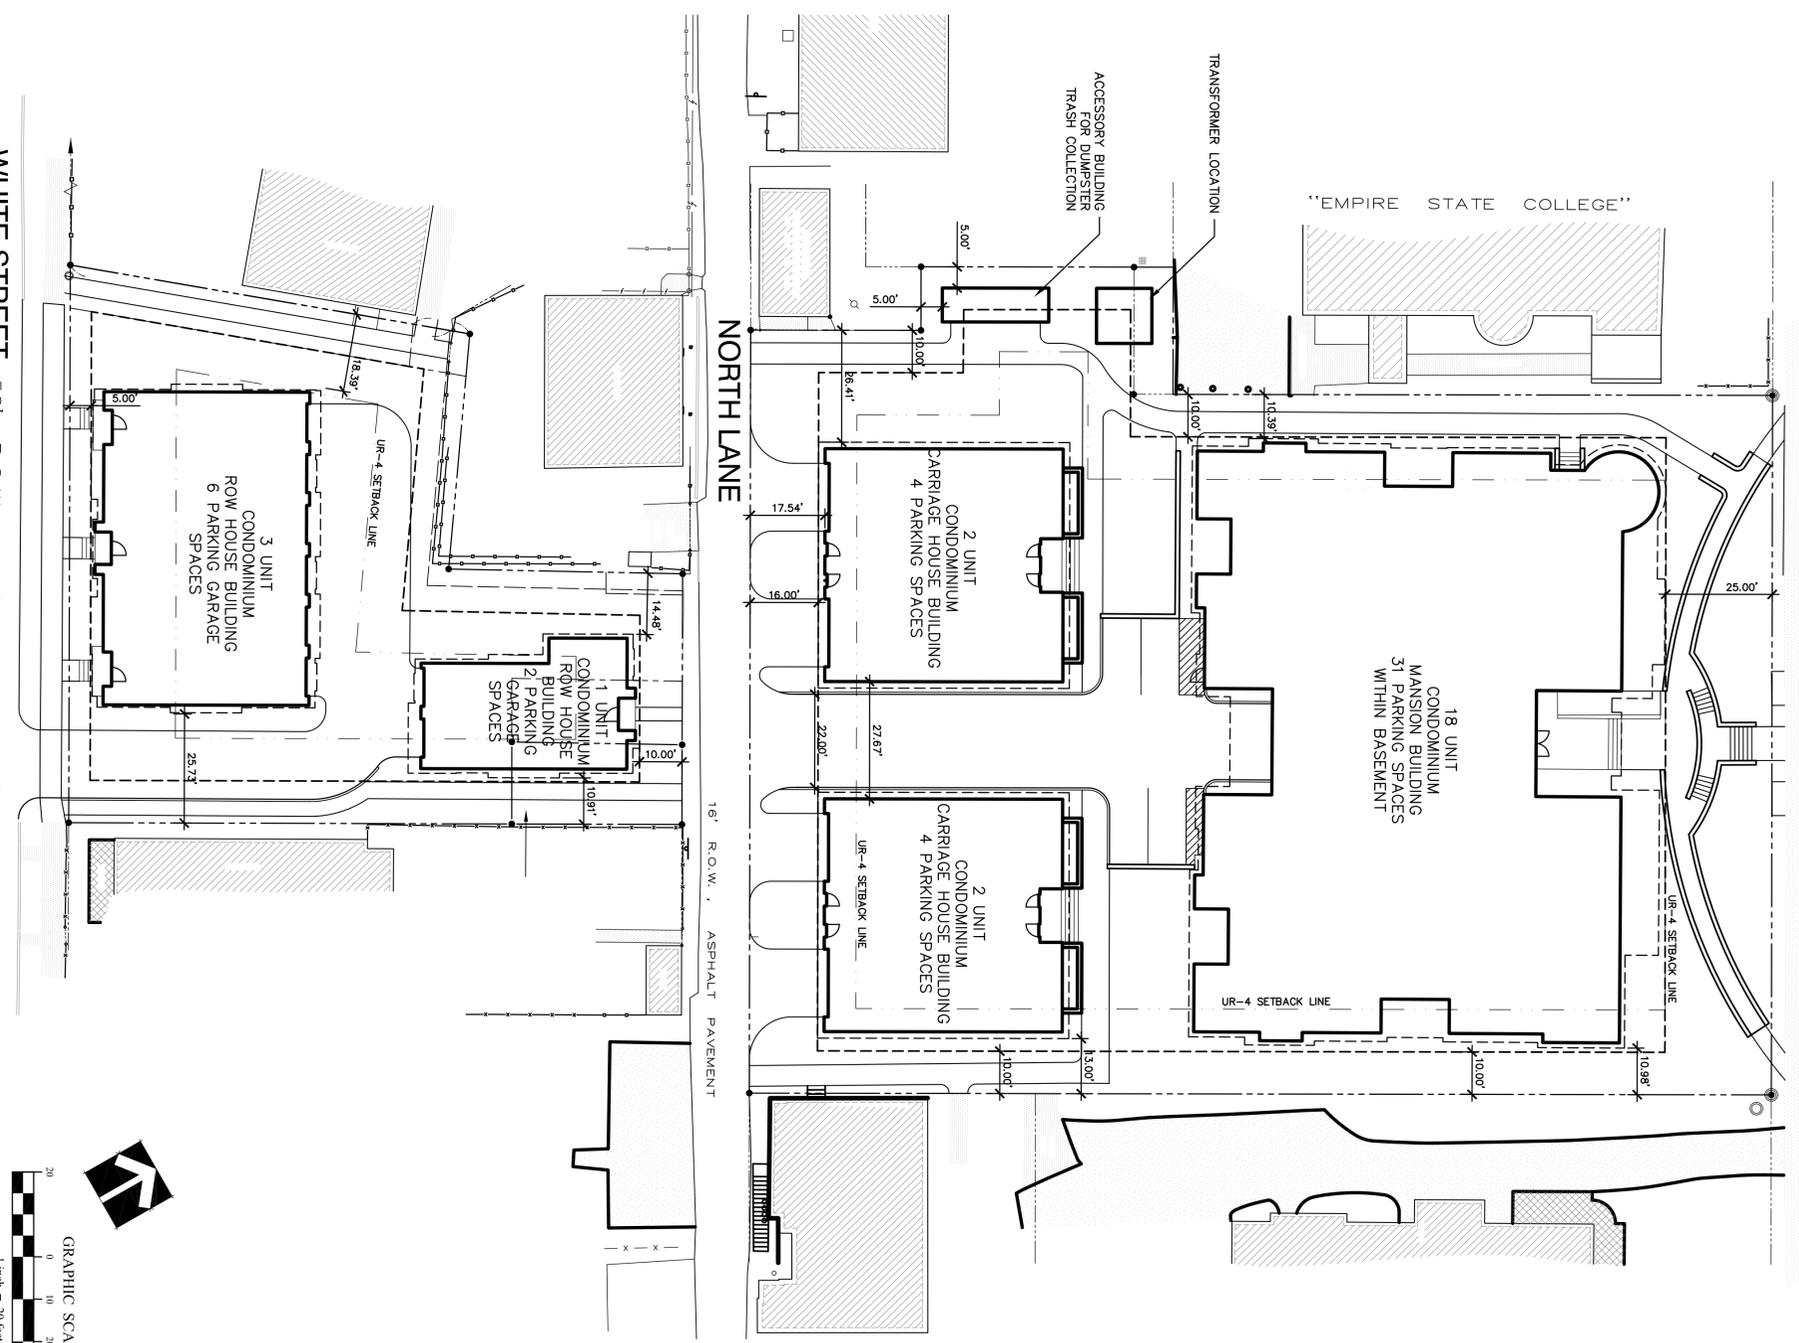

Sincerely,

Saratoga Neighbors for Zoning Enforcement

Recipient: Saratoga Springs Zoning Board of Appeals and Susan Barden

Letter: Greetings,

Keep Saratoga Springs Neighborhoods Special: Enforce our Zoning codes!

Comments

Name	Location	Date	Comment
Sam Brewton	Saratoga Springs, NY	2016-03-15	We're not against developing this plot, but we opposed the massive scope of the requested variances, loss of setbacks, and the cramming-in of more buildings than this lot is zoned for. What's the point of zoning if it can be this easily skirted? This lot can be successfully developed, and we'd welcome this same developer if a more reasonable plan were presented.
Holly Bates	Saratoga Springs, NY	2016-03-16	Saratoga Springs is changing far too quickly and losing the character that made it so beloved. These changes are so often the result of wealthy developers making their way around zoning laws that are there for a reason. Our officials have been elected by the citizens of Saratoga Springs, and as such, they are the people to whom they should listen.
jeannine moran	saratoga springs, NY	2016-03-16	Uphold our zoning laws and do not cave to developers.
Kira Cohen	Saratoga Springs, NY	2016-03-16	I grew up in Saratoga Springs and have lived 25 years in the neighborhood that is threatened by this development. I do not want to see my neighborhood put at risk by the casting aside of our city's zoning ordinance. The Saratoga Neighbors for Zoning Enforcement does not oppose new housing in our neighborhood, we simply feel that the scale of this project is beyond necessary and asks for too many variances to the zoning laws of our district. This puts not only our homes at risk, but the new homes as well. It also opens the door for these types of overboard developments to move into other residential neighborhoods throughout town - thus dismantling the core ideology behind our comprehensive plan and zoning ordinance, and disrupting the historical character and dignity of our beautiful town.
Margaret Selikoff	Saratoga Springs, NY	2016-03-16	There is no reason for this type of development in this neighborhood.
Kim Fonda	Saratoga Springs, NY	2016-03-16	I am sick and tired of double standards. The Zoning Board is a disgrace and our hopes for good stewardship decline day by day!
Janice Pancake	Saratoga Springs, NY	2016-03-16	If this goes as planned, it will set a precedent in our city that builders can get zoning laws changed and build wherever they want. Seems to me that our city has allowed all kinds of new, unaffordable, condos, etc. and taken the charm away from my hometown...
Joann Lorman	Porter Corners, NY	2016-03-16	Saratoga is getting to many large buildings. ..let's not lose its charm!
Robert Bostick	Arlington, VA	2016-03-16	I love the Saratoga of my childhood, my youth and to alter those memories of the alleys, streets and diverse neighborhoods would be sacrilege.
John Veitch	Saratoga Springs, NY	2016-03-16	This is not proper for that neighborhood. Simply out of character. I live next to the old St. John Neumann residence, and that conversion was fine for that building. This is not appropriate for Jumel Place
Liam Sheji	Saratoga Springs, NY	2016-03-16	It's important to preserve our cities history, and replacing our historic buildings is a crime to our lifestyle
Marie falls	Lorton, VA	2016-03-16	I hate seeing my hometown lose its charm!
Steven McCarthy	Saratoga Springs, NY	2016-03-16	Enough is Enough
Martha Strohl	Saratoga Springs, NY	2016-03-16	The Comprehensive Plan and our zoning codes are meant to be observed, not abused.
Lillian Spost	Saratoga Springs, NY	2016-03-16	Saratoga risks losing the charm that is its reputation.
Michael Gent	Saratoga Springs, NY	2016-03-16	Once you open the floodgates,there'll be no stopping them.The town is enough of a mess already.

Name	Location	Date	Comment
Anthony Smith	Washington, DC	2016-03-16	I'm shocked that the lovely tree-lined streets of my hometown would be destroyed by this condo developer. Enforce the zoning laws and stop this blight on the community.
shawn banner	Saratoga Springs, NY	2016-03-16	Our town is special because far sighted folk created a charter and zoning codes that preserve what is best about Saratoga. Lately, it seems that special dispensation keeps getting given to folks who want to build exactly what those far-sighted zoning laws and city planning decisions were meant to avoid. Growth is good--in fact, growth is great, but not growth that breaks the carefully crafted rules that make Saratoga a pleasure to reside in. Please do not keep giving in to developers' whims at the expense of what makes our fair city both fair and special!
Z. Parisi	Saratoga Springs, NY	2016-03-16	cp
Amber Duffney	Keeseville, NY	2016-03-16	O remember Saratoga the way it used to be. I have seen neighborhoods destroyed by "improvement", I would hate to see Saratoga to become a city of high rises, and loose it's charm and historic value.
Sunshine Stewart	Greenfield Center, NY	2016-03-16	Keep Saratoga beautiful!!!!
Meghan Cherny	Corinth, NY	2016-03-16	Bit by bit we are losing our history and our roots, that which makes it all beautiful. Saratoga is beautifully old, we must fight for her.
Janice Bellamy	Saratoga Springs, NY	2016-03-16	Too many extreme variances requested. This won't blend in with the neighborhood. The builder is asking the Zoning Board for special treatment.
Amy Barakat	Saratoga Springs, NY	2016-03-16	I don't like the direction my hometown has headed since I was a child. Too much commercialization and too much building.
patricia rubio	saratoga springs, NY	2016-03-16	I am concerned about the violation of the City zoning laws the variance would entail.
Kathleen Brown	Saratoga Springs, NY	2016-03-16	Wrong plan, wrong place, & more overpriced real estate not needed!
bob mctague	saratoga sp, NY	2016-03-16	Our neighborhoods are under attack by greedy builders who have no regard for families that live in the communities.
Daniel Schwank	xxxxxxxxx, NY	2016-03-16	I'm against the overdevelopment that's destroying this town
Shealyn Heritage	Ballston Spa, NY	2016-03-16	I for one may not live I Toga directly but was born at Saratoga hospital lived in the outside towns all my life and have many Saratoga relatives of all era of Saratoga. It sadden my heart thinking about the stories I've heard of old Saratoga, Stories I have from Saratoga In the times before all the condo when we went to see our Saratoga family and The Saratoga now. Why does everything have to be so glamorized. We need some original and not just Original historical. Stop changing zoning laws for these big wig glamizatation.
Cindy June	Ballston Spa, NY	2016-03-16	Save my hometown from the developers who only see \$\$\$\$\$
Lori LeBarron	Gansevoort, NY	2016-03-16	There seems to an influx of developers who are presenting proposals that do not adhere to Saratoga Springs zoning laws. This needs to stop!
Leslie Brown	Saratoga Springs, NY	2016-03-16	There is way too much development in Saratoga and we're losing the quietness of the city. Please stop the building.
Joan Nellhaus	Saratoga Springs, NY	2016-03-16	This is wrong in so many ways. Integrity must be maintained.
Hillary Takahashi	Saratoga Springs, NY	2016-03-16	Protect our picturesque and wonderful neighborhoods.
Mary O'Donnell	Saratoga Springs, NY	2016-03-16	As a native, I have watched our city change way too much and not for the better in my estimation. This project would set a precedent and continue to ruin the very reason some people moved here. We want to keep our city's character.

Name	Location	Date	Comment
Jay Rogoff	Saratoga Springs, NY	2016-03-16	Approval of Downton Walk, a development entirely out of character with the neighborhood, would send a signal to developers that our zoning regulations are meaningless and can be circumvented at will.
Judi Duclos	Saratoga Springs, NY	2016-03-16	I do not like the path that our beautiful city seems to be on!!!!
Penny Jolly	Saratoga Springs, NY	2016-03-16	This is a residential neighborhood, protected supposedly by our zoning laws. Please observe those laws! Do NOT permit all these special variances. Don't overcrowd our neighborhoods and try to make them into something they are not: a pretentious "Downton Walk" with expensive condos instead of separate one-family homes of modest size.
Brucie Rosch	Saratoga Springs, NY	2016-03-16	Developers can make their money elsewhere. It would be one thing if they had a track record of building affordable housing in Saratoga Springs, but They. Do. Not.
Tracy Millis	Saratoga Springs, NY, NY	2016-03-16	The entire project is foolish.
Regina Camilletti	Saratoga Springs, NY	2016-03-16	This development will scar an otherwise homogenous, established neighborhood of older homes. People are invested in these homes and that neighborhood. Who has the right to step in and on behalf of a builder and his cohort, threaten their investment? If anything goes, how about lets build some stables next to City Hall and put those 7 condos on East, really close to Skidmore. Sure. I would sue you if I could.
Jacklyn Clark	Saratoga Springs, NY	2016-03-16	I don't want this in my neighborhood, I've lived on this street for 24 years and to alter the streetscape with gaudy condos would be a disgrace. More importantly if the city government allows this to become reality that would be sinful. Keep within the parameters of the neighborhood, amen!!!!!!
Barbara Ungar	Saratoga Springs, NY	2016-03-16	Developers and greed are ruining what makes Saratoga Springs a desirable place to live and visit.
Celete Caruso	Saratoga springs, NY	2016-03-16	I'm signing because the Integrity of each neighborhood within the city needs to be maintained
Suzanne kwasniewski	Saratoga Springs, NY	2016-03-16	Too many projects are approved that deviate from zoning ordinances.
Richard Hibbert	Burlington, VT	2016-03-16	My mother has lived on Jumel Place, in the other block, since 1959. My siblings and I spent part of our formative years in that neighborhood. The house belongs to our family, and we value the character of the neighborhood. That includes the portion of the street for which this project is proposed. I believe that this would be a drastic, and negative, change in the character of this part of the city.
Annette Damron	Lecanto, FL	2016-03-16	I was born and raised there and don't want to come home to a metropolis.
Susan Traylor	Saratoga Springs, NY	2016-03-16	I don't want Saratoga Springs, my beautiful home town to turn into a Clifton Park!
Marisa Wade	Saratoga Springs, NY	2016-03-16	Saratoga is starting to loose some of it's charm to all of these apartments and condominiums
JOHN DUANE	Middle Grove, NY	2016-03-16	to keep saratoga saratoga !
Arthur Porter III	Saratoga Springs, NY	2016-03-16	I believe that this is yet another example of the abuse of the zoning variance process to circumvent existing zoning designations and the Comprehensive Plan.
Katherine Totten	Saratoga Springs, NY	2016-03-16	Enough is enough
Karin Vollkommer	Saratoga Springs, NY	2016-03-16	This project is too big for the neighborhood.
kathleen orefice	westport, CT	2016-03-16	I want Saratoga to stay the way it is. It's already changing too much.

Name	Location	Date	Comment
Amy Syrell	South Glens Falls, NY	2016-03-16	Saratoga Springs needs to be a place for all people, not just those with a lot of money.
Jill P McMahon	Saratoga Springs, NY	2016-03-16	The project seems too large for the space available. More shoehorning of big houses out of character with the neighborhood that loom over their neighbors.
Frank Capone	Saratoga Springs, NY	2016-03-16	preserve the residential character
Bette Brill	Saratoga Springs, NY	2016-03-16	Just do not change the zoning laws for this or any project in a neighborhood that is not zoned for it....
amejo amyot	saratoga springs, NY	2016-03-16	I like green space around homes and consistent density in neighborhoods. this is a 1 and 2 family area.
Patricia Cornute	Saratoga Springs, NY	2016-03-16	Too many developments already in our town, hard to recognize the charming place it used to be., when the sun can't even shine down on you as you walk down certain streets any more.
sue scherer	Saratoga Springs, NY	2016-03-16	Enough with the overgrowth.
linda battiste	Schenectady, NY	2016-03-16	I grew up in Saratoga and it's beautiful the way it is!
Mary Frances Healy	Saratoga Springs, NY	2016-03-16	I have lived here my whole life and don't like the direction we are going
MaryAnn Wager	Saratoga Springs, NY	2016-03-16	I have lived in Saratoga my entire life and I am concerned for the future of our beautiful city. It is quickly losing its historical look and feel.
Patricia Mathews	Sanford, ME	2016-03-16	I strongly believe in preserving the integrity of all cities, but most importantly those cities that represent the history of our country. I lived on Jumel Place until I graduated from college. When I go back to visit family I am often disappointed to see yet another set of new and expensive Town Houses, apartment buildings, hotels, and condos. With each change Saratoga Springs loses a little of its identity. Just take a walk on Jumel Place, and you will clearly see that a development of this type is out of character with the neighborhood. Saratoga, a city I have always been proud to call my hometown, should not lose its charm to moneymaking investments.
Deb Garrelts	Saratoga Springs, NY	2016-03-16	I agree that we are being over-run with condominiums and that our neighborhoods need protection
Denise Dart	Clifton Park, NY	2016-03-16	I'm signing because I am a native Saratogian and the alleged zoning codes worked against my Dad and now we have foreigners coming in and being allowed to build wherever and however big they want just because they have the money.

Paul Hibbert	Broken Arrow, OK	2016-03-16	My family has property on Jumel place
Chris Pringle	Saratoga Springs, NY	2016-03-16	I've lived in saratoga almost all my life and I'm sick of seeing this great little town desecrated by these monstrosities being built with no thought what so ever. The west side of town now looks like a haven for yuppies and has driven out the families that have resided there for years. Downtown hardly looks the same as I remember it as a child. All the once family owned businesses that occupied Broadway are now gone and these corporate goons have bullied their way in forcing the rent to a ridiculous level that only 6 figure a year income families can afford. This use to be a great place to live a place I called home now I don't even recognize the town I grew up in. Enough is enough.
Joyce McKnight	Lake Luzerne, NY	2016-03-16	Saratoga Springs already has empty developments...the zoning board is either ineffectual or "on the take."

Ann Diller	Gansevoort, NY	2016-03-16	I am appalled at the over-development that has changed our city so that it unaffordable to longtimers, courtesy of boards that are overly generous to developers.

helen travis	Saratoga Springs, NY	2016-03-16	They are destroying Saratoga making hard for families to live homeless rase now its more homeless families working families that can't effored Saratoga price or anywhere els for that matter rent has raise so high everywhere its sad and decrees
kayla rynasko	Schenectady, NY	2016-03-16	Born and raised in Saratoga. Graduate of Saratoga high. All my family lives here!
Kathy Becker	Greenfield Center, NY	2016-03-16	I was born and raised in Saratoga Springs. I am so upset by huge changes that have been made in Saratoga. What ever happened to preserving the historical buildings in the city. It looks like the almighty dollar has won out. It is such a shame and so sad.
Liz Mark	Gansevoort, NY	2016-03-16	Saratoga is being overrun by greedy developers like Bonacio and losing its charm.
Charles Kish	Saratoga Springs, NY	2016-03-17	The character of too many neighborhoods are at stake when projects are granted that require numerous large scale changes to existing zoning. When developers profit concerns trump zoning considerations and justifiable and considered opposition by neighbors to this degree, who's opposition is totally supported by current zoning, the zoning board is not doing it's job. There is zoning for a reason based on long term plans and consideration for the city as a whole. Wholesale variances granted solely for the purpose of developer profit is a travesty.
Nancy Flynn	Buskirk, NY	2016-03-17	We have a family home on the other block of Jumel Place that my mom lives in and believe this will hurt the whole street and set a bad precedent.
Ann Haller	Saratoga Springs, NY	2016-03-17	This is an inappropriate use if the land. It is not in accordance with the zoning. developers should not be exempt from rules just because they want to maximize their profits. The city is running out of build-able lots, so the developer is trying to squeeze as much profit as he can out of this lot.
renee harder	gansevoort, NY	2016-03-17	way to much development now
Richard Dunham	Saratoga Springs, NY	2016-03-17	I do not believe that a previous factory/Dance Studio in a residential neighborhood needs to be re-zoned to accommodate more living space than the current regulations allow. Enough croneism. Build a house, or two.
Kelly Mackison	Gansevoort, NY	2016-03-17	I am bored in raided is Saratoga
Jodi Stevens	Saratoga Springs, NY	2016-03-17	I grew up on this area and just can't stand by and watch the integrity of this beautiful, quaint neighborhood be destroyed...
Jennifer Kleindienst	Middletown, CT	2016-03-17	I grew up near Saratoga and visit often. I would hate to see the city's charm erode with a project like this.
Patricia Duval	Portland, OR	2016-03-17	To oppose approvals requested for this project. Plan is totally irrelevant to the existing neighborhood. Approving these requests would set a bad precedent and many of Saratoga neighborhoods would be at risk.
Gloria Burke	Waterville, ME	2016-03-17	This would set a terrible president.
Dorene Couch	Saratoga Springs, NY	2016-03-17	I want to show my support for our local residents and weigh in on matters of development that will have a negative impact on our neighborhoods

Wayne T. Senecal	Saratoga Springs, NY	2016-03-17	I believe the developer's application is a change in use requiring City Council Approval not just Zoning Board of Appeals approval.
Jerome Luhn	Saratoga Springs, NY	2016-03-17	People are entitled to know what development plans are being proposed so that they, and the officials entrusted with authority over zoning decisions, can make informed judgments that affect the character of the place where they live over the long term. Seemingly material omissions in presentation, together with behavior by the developer and relevant board officials, have given neighbors reason to raise questions, such as whose interests enjoy primacy in this proposal? No one wants to wake to rude surprises after the foundations are poured. That's something any developer should understand.
Sheila Levo	Saratoga Springs, NY	2016-03-17	I'm signing because although I am a Saratoga native, I no longer live in the city. After my husband died, I sold my house as the upkeep (lawn, snow, etc.) was too much for me. The prices for decent rentals in the city were outrageous. I was forced to look elsewhere and as a consequence, I now live in Ballston. This project, if allowed, would be another example of pricing the middle class out of Saratoga.
Melanie Herter	New York City, NY	2016-03-17	Trying to keep my neighborhood from illegal property use and major congestion
Ina Harney	Saratoga Springs, NY	2016-03-17	This has to stop in Saratoga, not only in my backyard but this one too. Residents have to pay attention to all of these plans, not only their neighborhoods. Every time the builders manage to get one over on our city government leaders and build these monstrosities it gives them permission to ruin another neighborhood.
Nicholas Rossi	Parrish, FL	2016-03-17	I lived in Saratoga 62yrs. I grew up in that part of town & owned a home at 213 East AVE. Allowing this development is wrong
James Lestrangle	Saratoga Springs, NY	2016-03-17	Stop putting the interests of the wealthy ahead of long time Saratoga residents. We have enough development already. Too many people moving in making everything more expensive and causing traffic congestion.

Tara graul	Lyndhurst, NJ	2016-03-18	I oppose this development. Anyone else who truly loves Saratoga Springs and the neighborhood surrounding Jumel Place knows that approving zoning for this project would be inappropriate. I hope that the board does the right thing.

Mary-Ellen Callahan	Edgewater, NJ	2016-03-19	My family lives in Saratoga Springs and this is a dangerous proposal to all future zoning. There is a greater need for protecting the zoning code than a need for a seven unit development.
Reginald Lilly	Saratoga Springs, NY	2016-03-19	I live around the corner from this project and it would transform the character of the neighborhood in a very negative way. It would have a negative impact as well on property values in the neighborhood. I strongly oppose this project.
Connie Crawford	Ballston Spa, NY	2016-03-19	I'm sick of all the condos and ugly huge boxy buildings going up in Saratoga, especially the UNAFFORDABLE high rents they charge....
Nancy Toole	Saratoga Springs, NY	2016-03-19	DOWNTON WALK should NOT be allowed to be built in this neighborhood. And if it is, a bad precedent will have been set.

Dillon Moran	Saratoga Springs, NY	2016-03-19	The invasiveness of development in Saratoga Springs is more than enough without bending all of the rules put in place to govern it. This project is simply too much
Steven Mattison	Saratoga Springs, NY	2016-03-20	I think it is ridiculous that there are zoning laws in place and a high profile builder can sweep in and have multiple zoning ordinances changed just to get the big buck without regard to the neighbors and neighborhood.

Robert Vogel	Saratoga Springs, NY	2016-03-20	I am opposed to the Downtown Walk development project
Kim Stevens	Saratoga Springs, NY	2016-03-20	I live in the neighborhood and I don't want to start the precedent of building large condos among single family homes.
Joanie Rupprecht	Saratoga Springs, NY	2016-03-20	I like the feel of Saratoga w/ old, private houses, I esp. like that feel on JUMEL where I LIVE !!! Please respect the current zoning !!!
Peggy Tayler-MacNeill	Saratoga Springs, NY	2016-03-20	I care about keeping keeping this a family neighborhood without the density discussed in this petition. Imagine if each condo had 4 children? Or more? It is an outrageous expectation for that small property to expect to fit seven condos with any size family. What about sewer and water capacity?
James Pollard	Saratoga Springs, NY	2016-03-20	I object to this development in my neighborhood because it violates current zoning law, seeks variances and exceptions which, if granted, would significantly and negatively impact the density and character my immediate environment, and of the city

John Boardman	Saratoga Springs, NY	2016-03-20	The stepped up assault on the zoning ordinances, under the cover of the vaguely worded "Comprehensive Plan", has got to stop. This is the third major project in 6 months (see Moore Hall and the hospital expansion) where developers have attempted to slip projects that would need a major zoning change as simple variances. The ZBA and Planning Board need to see these for what they are and insist development comply with the existing ordinance. The Comprehensive Guide does not overrule the Zoning Ordinance - it's the reverse.
James Pollard	Saratoga Springs, NY	2016-03-20	I object to the project as proposed because it is non-compliant with current zoning regulations, and because it seeks an audacious and unprecedented number of variances, most of which (if granted) would have a severe negative impact to the density and character of my neighborhood and are therefore unacceptable.
Lisa Wilcox	Huntsville, AL	2016-03-20	I loved the old Saratoga. Too many changes, too fast
Laura Giannini	Saratoga Springs, NY	2016-03-20	Although I support rejuvenation of the property at 27 Jumel Place, I strongly feel that the proposed project is not appropriate for our neighborhood. I down the street from the subject property, and we ask the zoning board to respect the wishes of our family and our neighbors and reject the requested radical variances to the current laws. We feel this project itself is not beneficial to the neighborhood and its invaluable character, and allowing the violation of the zoning laws would set a dangerous precedent moving forward.
Russell Pittenger	Saratoga, NY	2016-03-20	The variances asked for seem excessive.
Chris Bernd	Saratoga Springs, NY	2016-03-20	The condominium/townhouse growth in Saratoga is out of control, taking away open spaces and I believe zoning laws need to be followed.
Albert Mather	Saratoga Springs, NY	2016-03-20	I'm signing because I do not want our neighborhood to become "mansionized" like the neighborhood from which we moved in Wellesley MA
Tina K. Morris	Saratoga Springs, NY	2016-03-20	The proposed Downton Walk Development is near my home. A large development is not in keeping with the existing small early 20th century homes. I strongly object to waiving zoning regulations which will set a negative precedent for the entire city of Saratoga Springs.
Ralph Yusavage	Saratoga Springs, NY	2016-03-21	Its not okay to ignore the rules whenever its convenient. The developers will build the charm right out of our city if we let them.

The Zoning Board of Appeals
City Hall
474 Broadway
Saratoga Springs, NY 12866

Dear Zoning Board of Appeals:

We are writing in favor and to further offer our resounding support for Witt Construction's proposed Downton Walk Project. It goes without saying that Downton's European exterior would be a welcome improvement from the dilapidated, vacant building that exists on Jumel Place today, but, moreover, these variance's have previously been approved and this site plan of single-family condominiums are better suited for the wholly residential neighborhood.

Three years ago, we, too, were up against varying public discourse from both the neighbors and the City of Saratoga Springs. After a year of meetings with the Zoning Board of Appeals, we were approved for a front yard setback of 27.3 feet (91% relief) and rear yard setback of 24 feet (80% relief) from the minimum 30 feet setback requirement. In addition, we also received maximum building coverage of principal building of 11% (55% relief). Given what on paper appears to be a huge concession, the finished product fits perfectly on this city lot and has garnered positive feedback from most of the people that were against the project. One of the most common comments is that the house "looks like it has been on the lot for years." This is a testament to Mr. Witt's ability to uphold the characteristic of the neighborhood, as well as, the city of which he has been a lifelong resident.

It is apparent that our Witt home added both aesthetic beauty and increased surrounding property values. Downton Walk will enhance our neighborhood and add to the continued development and enrichment of the City of Saratoga Springs.

Sincerely,

Thomas and Rachel Uccellini

OUR STANCE AS NEIGHBORS of proposed "Downton Walk":

- We don't oppose Mr. Witt per se, or that he should develop this property.
- But we are concerned about the scale of the variances he is requesting and of the project as currently designed.
- We are concerned that the current design and density of the proposal and the number and size of the proposed homes are out of character with this historic neighborhood.
- We would like a revised more reasonable proposal.

Subject: Condos on Jumel

Susan,

I used to live at [REDACTED] Jumel and I currently live at [REDACTED] Circular St., on the corner of Circular and York.

Please do not approve the proposed multi-unit condo unit at 27 Jumel place. It would not be a good precedent to start on the east side. I have seen this pattern in other communities and it really breaks up the neighborhood.

I know we have many single family homes that have been split into 2 -3 apartments, but 7 units, surrounded by small modest homes would not work. The one apartment-only home in the other section of Jumel already creates some stress on that block.

I appreciate the controlled home renovations that have been taking place on York. The upgraded homes fit in with their neighbors. Please keep with this pattern.

Thanks,
Kim Stevens

Subject: Downtown Walk John Witt

Good Morning Susan, my wife and I live at [REDACTED] Lake Ave very close to the proposed sub-division. I am opposed to this project as the size of the houses proposed do not fit with the neighborhood, the total lack of yard and space between the new houses and the neighborhood and the asking price of the new houses. Currently the old factory has no set back to any of its neighbors and the drawings Mr. Witt has passed around seem to carry this forward with the proposed project. All the houses that border this project are very modest at best and this would upset the balance and perhaps lead to further demolition and more upscale housing in the neighborhood.

Subject: 27 Jumel Condos

Hi,

I live at [REDACTED] Jumel Place. Several times per week, I walk to the East Side rec field to use the tennis courts. Please do not approve the multiple zoning variances requested for the proposed condo at 27 Jumel. The spread of condos in the town should not spread into the east side neighborhood.

Thanks,
Joan Rupprecht

Susan,

Hi my name is Bob McTague and I very much support your efforts to stop greedy developers.

I will be attending the ZBA meeting tonight. I run the face book page SACRAP Chat. We need to support all our neighbors with a watch full eye.

Hope to meet you at the meeting.

Dear Ms. Barden,

I am a nearby neighbor to the project area of John Witt's proposal, and wish to register my opposition to the scale and density required by it. I have to say I share the dismay registered by other neighbors in whose judgment this undertaking, however skillfully crafted in the abstract, is simply too much for the neighborhood and, in a word, wrong.

The zoning plan for that area is relatively recent and thoughtful, and could even accommodate the greater part of the proposal being put forward. I urge you to exert your influence and your own best judgment to keep faith with the plan we have for this area, and in so doing to protect the character of the neighborhoods around Jumel Place and elsewhere in town.

Respectfully,
Jerry Luhn

Hi Susan - I meant to e-mail you much earlier today, but it slipped my mind. I hope I'm not too late to show my support for all you folks who are up against the proposed development at 27 Jumel. I've lived in my house at [REDACTED] Jumel since I was 4 years old - I'm in my 60s now and I remember the Tarant Mfg. Company like it was yesterday. The proposed project would be a wonderful addition to our little street. BUT not on the scale that John Witt has proposed. I will be at the 7 pm mtg tonight and will voice my opinion if I'm allowed.

Hope to talk to you there.

Susan,

Good afternoon, I would like to express my support for the Down-Ton Walk project. This will be an enormous improvement to the neighborhood, I'd really like to see this moving forward, since being on hold for some time now. There are more positives than negatives to this wonderful project. I know and trust Witt construction to do the right thing, for us as neighbors, and to the great city of Saratoga Springs.

Thank you, Richard Ball

Also, my property at [REDACTED] Granger Avenue, border's 150 feet of the existing structure, which is in dire need of demolition. Looking forward to it.

Thank you once again!

Hi Susan,

As a homeowner on Lake Ave, I am writing to encourage you to deny the existing "Downton Walk" proposal. East Side Saratoga is known for its authenticity and community. A high-end cookie-cutter development does not fit with this neighborhood. The high fence is especially upsetting. The people who might buy these homes have no idea how unwelcome this development will be - and why would we put them in a position of being resented rather than welcomed by their new neighbors? It doesn't make any sense to change the existing zoning. Let him build five single family homes with tasteful architecture and appropriate fencing - he'll still make money, the new homeowners will be welcomed, and the existing neighborhood will retain its unique and historic character.

Best,
Elizabeth DiNuzzo

Subject: Downtown walk

We are writing to express concern about the proposed project referred to as "Downtown Walk" located on Jumle Place. John Witt came to our door last week looking for support, he presented the project in a way that made sense. That he was planning on knocking down a old unused building and would like to replace it with some nice homes. This sounded great except Mr. Witt was not forthcoming with the fact that he was looking for exemptions and variances with the code for the area and that he was looking to exceed what was allowed. Because of this I (Mark) signed a paper in support when in fact after seeing off the facts I do not support this project in its current state.

The amount of housing Mr. Witt wants to place on this lot exceeds what it should hold. Looking at the first hand, I have no idea how he would be able to fit everything he wishes, for if he did he would create a distraction in the neighborhood. Multiple structures that would not fit in with the pre-existing homes, as well as creating a problem with parking. Mr. Witt isn't just asking for one exemption, or modification to the code, he is asking for numerous ones which just prove that his plans need to be scalled back because in their current state they do not fit the land or the neighborhood.

I do however believe and would support a project to replace this building that followed the city guidelines and code for our neighborhood. After all the codes were created for a reason, to make sure over crowding did not happen and to preserve the community and

neighborhood. I'm sure when the codes were created much care and thought was put into them.

With these concerns and more I sincerely hope the Zoning Board of Appeals rejects proposal and requests Mr.Witt to modify his plans to fit within the zoning regulations the city has set.

Thank you for your time.

Susan,

I agree that the density of the project is too high and should comply with the zoning codes currently in place. I live across the street and was denied a variance for expanding my carriage house beyond the allowable lot coverage, therefore I built it according to the allowable size.

I'm for a project that is in compliance with the zoning codes.

Enjoy,

Subject: 27 Jumel Proposal

Ms. Barden:

First, please know I appreciate the dedication and excellent work by the Zoning Board in dealing with the many challenging issues and proposals in our city.

The proposed development at 27 Jumel concerns me deeply. As currently documented, I object to it strenuously.

I'm a (retired) architect, I live at [REDACTED] Ludlow Street and the view from my property is up Jumel Place to the project site.

The character and density of my neighborhood is surely worth preserving. My wife and I have owned our home since 1977 and are grateful that zoning regulations have guided construction and development here, including several appropriate zoning variances that we've supported. We believe the neighborhood's defining character has (to date) been successfully retained.

The variances and exceptions requested for the 27 Jumel Place project are truly astonishing! If approved, their dramatic negative impact to the neighborhood character would be devastating in my opinion. The proposed change in density and contrasting setbacks is an affront to abutting neighbors and to the design vocabulary of the area.

The property at 27 Jumel is potentially a clean slate. But the applicant has chosen a design which seems to totally ignore its context and city regulations, creating a self imposed dilemma. It

completely disrespects the neighborhood and its long established and protected attributes.

I remain confident that the Board will reject such wrongheaded proposals, and further, will foster the possibility that the applicant may make future application for a project at 27 Jumel Place that is consistent with Saratoga's Comprehensive Plan and with zoning regulations, and which would require minimal, if any, variances. Thank you, and your Board colleagues, for your continued attention to this matter.

James (Jay) Pollard

The Zoning Board of Appeals of the City of Saratoga Springs, NY

Re: Application for "seven single family condominiums,"
and requests for substantial Zoning Variances at
27 Jumel Place, Saratoga Springs, by ANW Holdings, Builder, John Witt
Public Hearing #2 to be held at the Zoning Board of Appeals meeting on March 21, 2016

I am writing this letter prior to the March 21st, 2016 meeting of the Saratoga Springs Zoning Board in regard to the proposed zoning variances being requested by builder John Witt for the property located at 27 Jumel Place in Saratoga Springs, New York. I am hoping that you will forward this to members of The Zoning Board of Appeals of Saratoga Springs.

Mr. Witt is creating an oversized project which is out of character with the existing homes on the street. He is making intrusive variance requests. In his letter to neighbors dated February 11, 2016 he understated the variances requested, (3 rather than 5). Therefore neighbors were given incomplete and deceptive information about the project. His letter asked for:

- Increased lot coverage by 16%
- Decrease minimum front yard setback by 9 feet
- Raise the height of the residential fence by 2 feet

In actuality, there are five variances being requested that include:

1 – The maximum building coverage allowed on this lot is 30%. The previous request was for a 43.5% building coverage allowance, or 45% more than what is allowed. The request has been increased to 46%, or 53.3% more than what is allowed.

2 – The rear yard setback required for each unit is 25 feet. The applicant is asking that this requirement be eliminated by 100% for five units, going from the 25 feet required to zero (0) feet. For the remaining two units he is asking for a 76% reduction in the rear yard setback from 25 feet to 6 feet.

3 – The front yard setback required for the two front units is 10 feet. The applicant is asking for one (1) foot, a 90% reduction in the front yard setback.

4 – The fence height allowed in this UR-3 residential area is six feet. The applicant is asking for an eight foot fence, a 33% increase in height over what is allowed.

5 – The applicant is asking for a maximum principal building on one lot to be increased from one to seven, a 600% increase.

It would be a travesty for the board to disregard the above facts and override zoning ordinances that have been in effect for years. At the very least, a compromise of the extreme variance requests needs to be negotiated.

It is my hope that these substantial variances, as they are proposed, be denied.

Sincerely,
Debra Mattison

Sam Brewton	Saratoga Springs, NY	2016-03-15	We're not against developing this plot, but we opposed the massive scope of the requested variances, loss of setbacks, and the cramming-in of more buildings than this lot is zoned for. What's the point of zoning if it can be this easily skirted? This lot can be successfully developed, and we'd welcome this same developer if a more reasonable plan were presented.
Holly Bates	Saratoga Springs, NY	2016-03-16	Saratoga Springs is changing far too quickly and losing the character that made it so beloved. These changes are so often the result of wealthy developers making their way around zoning laws that are there for a reason. Our officials have been elected by the citizens of Saratoga Springs, and as such, they are the people to whom they should listen.
jeannine moran	saratoga springs, NY	2016-03-16	Uphold our zoning laws and do not cave to developers.
Kira Cohen	Saratoga Springs, NY	2016-03-16	I grew up in Saratoga Springs and have lived 25 years in the neighborhood that is threatened by this development. I do not want to see my neighborhood put at risk by the casting aside of our city's zoning ordinance. The Saratoga Neighbors for Zoning Enforcement does not oppose new housing in our neighborhood, we simply feel that the scale of this project is beyond necessary and asks for too many variances to the zoning laws of our district. This puts not only our homes at risk, but the new homes as well. It also opens the door for these types of overboard developments to move into other residential neighborhoods throughout town - thus dismantling the core ideology behind our comprehensive plan and zoning ordinance, and disrupting the historical character and dignity of our beautiful town.
Margaret Selikoff	Saratoga Springs, NY	2016-03-16	There is no reason for this type of development in this neighborhood.
Kim Fonda	Saratoga Springs, NY	2016-03-16	I am sick and tired of double standards. The Zoning Board is a disgrace and our hopes for good stewardship decline day by day!
Janice Pancake	Saratoga Springs, NY	2016-03-16	If this goes as planned, it will set a precedent in our city that builders can get zoning laws changed and build wherever they want. Seems to me that our city has allowed all kinds of new, unaffordable, condos, etc. and taken the charm away from my hometown...

shawn banner	Saratoga Springs, NY	2016-03-16	Our town is special because far sighted folk created a charter and zoning codes that preserve what is best about Saratoga. Lately, it seems that special dispensation keeps getting given to folks who want to build exactly what those far-sighted zoning laws and city planning decisions were meant to avoid. Growth is good--in fact, growth is great, but not growth that breaks the carefully crafted rules that make Saratoga a pleasure to reside in. Please do not keep giving in to developers' whims at the expense of what makes our fair city both fair and special!

Jacklyn Clark	Saratoga Springs, NY	2016-03-16	I don't want this in my neighborhood, I've lived on this street for 24 years and to alter the streetscape with gaudy condos would be a disgrace. When developers profit concerns trump zoning considerations and justifiable and considered opposition by neighbors to this degree, who's opposition is totally supported by current zoning, the zoning board is not doing it's job. There is zoning for a reason based on long term plans and consideration for the city as a whole. Wholesale variances granted solely for the purpose of developer profit is a travesty.

Wayne T. Senecal	Saratoga Springs, NY	2016-03-17	I believe the developer's application is a change in use requiring City Council Approval not just Zoning Board of Appeals approval.
Jerome Luhn	Saratoga Springs, NY	2016-03-17	People are entitled to know what development plans are being proposed so that they, and the officials entrusted with authority over zoning decisions, can make informed judgments that affect the character of the place where they live over the long term. Seemingly material omissions in presentation, together with behavior by the developer and relevant board officials, have given neighbors reason to raise questions, such as whose interests enjoy primacy in this proposal? No one wants to wake to rude surprises after the foundations are poured. That's something any developer should understand.
Sheila Levo	Saratoga Springs, NY	2016-03-17	I'm signing because although I am a Saratoga native, I no longer live in the city. After my husband died, I sold my house as the upkeep (lawn, snow, etc.) was too much for me. The prices for decent rentals in the city were outrageous. I was forced to look elsewhere and as a consequence, I now live in Ballston. This project, if allowed, would be another example of pricing the middle class out of Saratoga.
Melanie Herter	New York City, NY	2016-03-17	Trying to keep my neighborhood from illegal property use and major congestion
Ina Harney	Saratoga Springs, NY	2016-03-17	This has to stop in Saratoga, not only in my backyard but this one too. Residents have to pay attention to all of these plans, not only their neighborhoods. Every time the builders manage to get one over on our city government leaders and build these monstrosities it gives them permission to ruin another neighborhood.

A NOT-SO-LITTLE BIT OF INTERESTING DOWNTON INFO . . .

On closer inspection of the plans for Downton Walk, I realized that I had picked up **footprint** square footage for the homes from the permeability chart. It is my understanding that, for permeability numbers, one presents the square-foot measurements of the footprint of the home **only**. That means **only the first floor** of a multi-story home.

That is where I got the size figures I posted in my previous letters. That begins to explain why, in the builder's response to my latest missive, the square footage **he** presented had jumped at the high end, to 3,000+ square feet. **Note the plus sign.**

We believe it's there for a reason . . .

If a builder puts the square footage of the footprint on a permeability chart, and it is 2,700 square feet for example, it is likely that the square footage of the entire house -- all floors -- will be much larger than that.

So, using rough figures as an example, because it's impossible to know if the second floor will cover every square foot of what is below it (some homes have slightly smaller second floors – but not usually very much so), one **could** estimate that a home that we thought was 2,700 sq. ft. could really be as large as 4,000 to even 5,400 square feet (the discrepancy being any porches and overhangs included in that 2,700 figure; and the second floor might or might not extend over them.)

This leads us to the permeability chart for Downton Walk . . .

The numbers are not all easy to read, as this is a small side chart, on a plan that has fuzzy type. And, keep in mind, this is supposed to be the **footprint** of the building – including **only** the first floor (overhangs and porches are in other areas of the chart).

The footprints of the seven homes alone add up to 14,526 sq.ft. (builder's numbers).

The builder has already told us that two of the structures are 1,800 sq.ft. – which would probably be those with the 1,357 sq.ft. and 1,472 sq.ft. footprints on his chart. Let's assume they will be exactly 1,800 sq.ft. each. That means that the second floor adds just under 40% to the footprint size.

On the larger ones, he has quoted 2,800 – 3,000+ sq.ft.

To begin at his 2,800-sq.ft. number for the larger homes, you also need to add around 40% to the smallest large home.

So we'll use 40% as a general guide.

(**ALERT:** This is where that plus sign after the 3,000 sq.ft. quote comes in; because a 2,759 sq.ft. home footprint – which is the size of one footprint on his chart – **without** its attached garage that would add almost 600 sq.ft. more -- with only 40% added for a second floor, means there likely will be at least a 3,900 sq.ft. structure [and the overhangs will add an additional 228 sq. ft. and the garage almost 600 sq. ft. more, for a total of approximately 4,700 sq.ft.]. We have no way of knowing if the builder will be including living space over the garage, so we didn't include that in these figures.) Obviously, much more detail is needed from the builder.

The builder has said that the total **footprint** for all seven homes is 14,526 sq. ft. That does NOT include the roof overhangs. In addition, the garages themselves total 4,175 sq.ft. (Again, please keep in mind that, not having seen full architectural plans, we can't tell if there will be any living space built above the garages, so although we are adding in the builder's number, we are not adjusting the garage number with the additional 40 percent.)

The following total is likely on the small side, because we're assuming that the second floor is only 40% the size of the first floor (not very likely); and we're **ignoring** that the plans show windows in four different floors of the buildings. Why would there be windows in a basement, if it is only used for storage? And the window on the top floor is a clue to the possibility of a small attic room as well.

Please keep in mind that the surrounding homes on Jumel Place average about around 1,450 sq.ft., with half of them being somewhat smaller, and one as small as 900 sq. ft. **(This includes the total interior square footage of all floors.)**

Because of the way Downton Walk homes are situated in the plans, and because there is such little room for green space between them, they will mass visually, on Jumel Place, as if they are one giant compound, likely exceeding 25,000 sq. ft. -- including the homes, the (*single-story*) garages, and the porches. (Note: There is also something labeled "Living" that is another 5,665 sq.ft. in the non-permeable section. Because we cannot determine what that is, exactly, it is not included in the 25,000 estimated sq.ft. size of the "Downton Walk Enclosure".

If this project goes through to completion as currently designed, the only upside we see, in addition to the removal of the existing factory building, might be the possibility of more Hershey bars at Halloween.

###

MORE THAN 25,000 SQUARE FOOT MASS ?
A NOT-SO-LITTLE BIT OF INTERESTING DOWNTON INFO . . .

On closer inspection of the plans for Downton Walk, it appears that there has been some misconception regarding the actual size of the development. If people are visualizing the quoted sizes that have been used in the various articles that have previously been presented, they might be in for a surprise.

It appears that a complex that felt large at the 14,526 sq.ft.-total of first-floor footprints -- which is the only measurement that was written the drawings -- when massed together as complete homes -- will likely produce what, visually, will appear to be an almost contiguous structure well in excess of 25,000 sq.ft.

This writer, for one, previously referred to square-footage for the homes from the builder's permeability chart. However, for permeability numbers, only the square-foot measurements of the first floor of the home are used, regardless of how many stories will be added to that. So the actual structure, once it is built, unless it is single-story construction, will be appreciably larger. And the drawings of Downton Walk indicate homes with two or more floors.

Please note that, to get to the larger figure, we have used 40% as a conservative addition for the second floors of these homes. There is no way of knowing how these homes will really lay out, because Mr. Witt has not provided this important information to the neighbors or community. Many homes in Saratoga are built

almost like boxes, with the first floor and second floor being exactly the same size. In such case, one would simply double the square footage to get the total living area. Others have a more modest upper level. So 40% was our compromise.

And keep in mind that we're ignoring that the plans show windows for four different levels. Why would there be windows in a basement, if it is only used for storage?

And the window on the top floor is sometimes a clue to the possibility of a small attic room as well. We also have added nothing for any space that might be built above the garages. So that "in excess of 25,000 sq.ft." could easily become a much larger number. Obviously, more detail is needed from the builder to be complete on this.

But this begins to explain why, in the builder's response to my latest missive, the square footage he presented had jumped at the high end, to 3,000+ square feet. His plus-sign is quite accurate, because the addition of multiple floors to the home sizes written on that chart makes a huge difference.

For perspective, please keep in mind that the surrounding homes on Jumel Place average about 1,450 sq.ft., in size, with half of them being somewhat smaller, and one as small as 900 sq. ft. (This includes the total interior square footage of both floors on any two-story structures.)

So, visually, five of those average-size Jumel Place homes, if placed on that lot after subdivision to the maximum number of homes allowed there by Code, would create a visual mass of only 12,100 square feet, including relative proportions of Mr. Witt's figures for overhangs, garages, porches, and such -- less than half of what is proposed (and only conservatively approximated) -- and much more in keeping with the character of the neighborhood.

The ZBA should allow Mr. Witt to build what **is** permitted there: five single-family homes or four two-family homes, not "seven single-family condominiums" which are not permitted in an Urban Residential-3 Zoning District.

Susan Barden
Zoning Board of Appeals
Saratoga Springs City Hall

17 March, 2016

Ms. Barden & Members of the Zoning Board of Appeals,

I have lived on the 200 block of Lake Avenue for 25 years. The back property line of my home abuts the property of 27 Jumel Place and runs nearly its entire length. I have a great many concerns in regard to the Downton Walk development plan that is proposed for that location.

Our current zoning laws forbid developments of this kind, not only in our Urban Residential-3 classification, but also within the larger Core Residential Neighborhood-1. Multi-family housing is against the codes.

Mr. Witt's proposal that this project is a "single-family condominium" attempts to skirt these codes by tying together two separate types of housing. Either it is a single-family designation, or it is a condominium. To go forward as single-family and fit multiple homes on the lot, he would have to subdivide – for which he has not applied. This would only allow up to five homes on the lot, not seven as proposed. Without subdivision, it goes forward as a condominium, which is forbidden in this district.

In order to accommodate seven homes onto the lot, several variances to the legal property setbacks have been requested. However, these variances are not within an acceptable range. They seek to nullify nearly all space between properties. The legal setback is 25 ft. A variance bringing that space down to 6 ft. is unacceptable. It poses privacy issues, as well as safety issues for not only the existing neighbors, but for those who will be living in these new homes.

Yes, the current building at 27 Jumel sits on top of its property lines. It was built before zoning laws were implemented to protect the character and safety of our neighborhoods. The proximity of the current structure has always been a sore point, but I feel that adding only 6 ft. of space is still not adequate to provide privacy and prevent noise. Especially since the trees that exist along the back will be removed and cannot be replaced, as they would pose a risk to the foundations of these new homes.

I, and my neighbors, do not oppose new housing being brought into our neighborhood. We fully support Mr. Witt's effort to provide residential infill for the city and beautify the street of Jumel Place. However, we feel the scale of this project is over-zealous and out of character - not only for our neighborhood, but with the rest of Saratoga as well. A neighborhood boasting very modest sized homes (averaging 1450 sq.ft.) that are late American victorian/craftsman/turn-of-the-century in design is not the proper place for extremely large English country style homes.

Should the Downton Walk development be approved with the current variance requests, it paves the way for future developments of this scale to move into other neighborhoods throughout town, thus threatening the integrity and historical character of our city.

The neighbors ask that there be negotiation on the scale of the project and the requested variances. We would love to welcome Mr. Witt's talents into our neighborhood. But we desire our zoning laws to be upheld. They were not put in place just to be cast aside on a whim. We ask that you please take our concerns into consideration.

Thank you for your time.

Sincerely,

Kira Cohen

WATER UNDER THE BRIDGE . . .

After spending much time with the drawings and plans for Downton Walk, something about the numbers has not felt right. But, this time, it had to do with permeability, the amount of vacant land on a lot that is available to absorb water, such as rain, melting snow, pipe break, swimming pool overflow, etc.

Because we were previously pursuing other issues, we didn't really look at the math in the permeability charts presented on the drawings. A closer examination reveals some inconsistencies and numbers don't seem to add up.

If you want to follow along, we draw your attention to the builder's package presented at the March 7, 2016 meeting of the Zoning Board of Appeals. Copies of the documents can still be found online at <http://www.saratoga-springs.org/AgendaCenter/ViewFile/Item/379?fileID=1546>

We are referring specifically to pages 14 & 17. The numbers on page 14 are very fuzzy, because they are reduced copies of what appears to be a blueprint. So, our figures might not be exact, but we are confident that they are very close. Also, it is our understanding that, to find the permeable area that is left on a lot, one adds the footprints of the homes planned for the land to the other areas designated as non-permeable, because the areas under roof are considered non-permeable.

Witt states on the drawings chart that the **non-permeable area** (listed as the size of the road, driveways, pavers, porches, “living”, and garages -- **excluding** the housing footprints) is roughly **21,300** sq.ft. When we add in the home **footprints** total from the other chart – roughly **15,900** sq.ft. – we arrive a grand total of non-permeable surface of **37,200** sq.ft. Yet, the area of the lot itself is only **34,765** sq.ft. So something **must** be wrong, especially when 25% of the land – in this case, **8,691** sq.ft. – must be kept permeable.

At best, perhaps we could remove the “Living” line item in the Non-Permeable Areas part of the chart on page 14. That represents about 5,660 sq.ft. We cannot understand what that is. So we’re thinking perhaps it was a mistake? That would **adjust** the designated **Non-Permeable area** to **15,640** sq. ft. Added to the **15,900** sq.ft. of **home footprints**, the **total Non-Permeable** would be reduced to **31,540**. However, the difference of **3,225 sq.ft. (9.28%)** does not meet the City’s need for **8,691 sq. ft. (25%)** of permeability.

At a glance, it appears to all work beautifully for him on page 17, **because** he has only cited Roads and Driveways as non-permeable, **neglecting to add in the other non-permeable items on his chart on page 14: specifically pavers, porches, “living”, and garages.** If there is a viable reason for this, we would greatly appreciate an explanation. If not, we think the City has an obligation to make certain he’s not accidentally taking advantage of more area variances than he is requesting.

We feel quite certain that, should this project proceed, detailed plans with accurate measurements will be forthcoming. But that might be far too late, because it is not impossible that the ZBA will have already cast the die for the Jumel Place “seasonal swimming pool” which -- because of non-permeability of the land -- could periodically replace the street itself.

So we ask the ZBA to stop this process and request accurate accounting of permeability as well as further information on the expected final sizes of the homes being planned, as at least five of the square footages being discussed in the media either match or come close to the sizes that appear as **single-story footprints** on the permeability chart -- while the project elevations call for multiple story structures.

Subject: Downton Walk Proposal-27 Jumel Place

Ladies and Gentleman of the Zoning Board of Appeals,

There is no reason that Mr. Witt should be granted any variance to the current zoning law of the City of Saratoga Springs. The lot upon which he wishes to build is in a UR3 zone which does not permit the type or size of structure which he seeks permission to erect. The homes surrounding this site are single family residences with no more than 2000 square feet of living space. The structures proposed by Witt simply do not fit in the neighborhood, and clearly will change or alter the character of this neighborhood.

Mr. Witt can build homes that do, in fact, blend with the neighborhood, that do not violate

the zoning law and do not require any variances and still realize a profit..

This seems another example of local builders trying to convince the Zoning Board that in order to make a profit they must be given a variance. There is no hardship that he will suffer if not granted the variance that he seeks.

As an owner of two homes in Saratoga's Historic District (one on Circular Street and one on White Street) and a resident of Saratoga's historic district for over thirty years, I am appalled by the gross changes that have begun to encroach on our neighborhoods.

Please deny the variance for the benefit of the city and the residents who have made Jumel Place their home.

Thank you,
Kira Lajeunesse

Ms. Barden,

I'd like to express my objection to the proposed Downton Walk project and the associated variance requests for the 27 Jumel Place property. I live several houses away on Jumel Place, and I strongly feel that the scope of the project is not fitting or appropriate for our neighborhood. Additionally, the proposed density and the number of requested variances are concerning for both this particular property and the precedent that approval may set moving forward. I am not opposed to rejuvenation of this property in general, just the specifics of this particular proposal. I would support a more balanced project in line with

the invaluable character of our neighborhood.

I often walk past this property on my way to East Side Rec with my young son, and I do not want that part of our street to be built up in a fashion so incongruous with the scale, architecture, and lot set-up as the rest of the street.

Thank you for your consideration of the views of the neighbors as you evaluate this decision.

Dear Ms. Barden,

I wish to urge the ZBA to turn down the request for all the variances so that the builder can build 7 codos in what is clearly a neighborhood of one-family houses on individual plots of land. I live about 3 blocks away from the site and often walk there; Downton Walk simply does not fit in: it's pretentious, crowded, and totally out of character with the neighborhood. That's why we have zoning laws: to maintain certain types of structures in certain parts of the city. Please do NOT waive these zoning restrictions.

Thank you,
Penny Jolly

Ms. Barden and zoning board of appeals,
I am voicing objection to the downtown walk project.
the zoning variances and elimination of set backs is an intrusion
on the existing neighborhood.

The "charm" of the condo units does not fit at all in the existing
character of the neighborhood despite Mr. Witt's extensive
reputation. It calls to mind a McMansion that was built on
North Broadway which inspires ridicule for being over the top and pretentious.

The project impacts its immediate neighbors in a negative way
through loss of trees, loss of light by towering over other structures, and
loss of privacy through reduced or eliminated setbacks.

I urge the zoning board of appeals to reject the project as it is until changes are made
to lessen the negative impacts on neighbors and the neighborhood.

Dear Members of the Zoning Board of Appeals

I am writing to express my concerns about the project called "Downton Walk" proposed by John Witt. My husband, William Yusavage and I currently own a two-family home at [REDACTED] East Avenue, and I own a a single family home located behind my house at [REDACTED] East Avenue, around the corner from Jumel Place. I pass the lot in question on a daily basis when walking. I have lived in Saratoga Springs since 1991, and have owned four houses in the city, including three in this neighborhood. I have lived on East Avenue for a combined total of 20 years, and I love it because of the neighbors who all look out for one another.

Its a warm and inviting neighborhood of middle-class families, and I know a number of them personally.

First, let me say that I mistakenly signed a letter of support for the project last week when Mr. Witt came to my house on a door-to-door mission to gain support. I was pleased to hear that the stucco building that is currently at the location on Jumel Place would be replaced with housing, however now I am concerned with the style and scope of the project.

My current understanding is that the lot is zoned for five single-family homes or four two-family homes. I understand that Mr. Witt wants to build seven single family homes on this lot. Unfortunately, the project he has put forth does not appear to fit into the neighborhood, because of its design and scope. It is my understanding the required setbacks are being violated with this plan. Looking at the rendering, it appears to have a stone facade and an Elizabethan design. Contrast this with the modest wood-framed Victorian homes surrounding the lot on all sides, and it looks completely out-of-place. It certainly appears that there would be no back yards, front yards or even adequate parking spaces on the lot, which is concerning to me as a local resident. It means that these houses would not appeal to families, but rather to retirees or those purchasing a second home, who don't want the trouble of yard upkeep. As second homes these houses may sit empty for much of the year. In addition, I am concerned that the lot may be fenced in at a height of 8 feet. Nothing says "I don't want to get to know my neighbor" more than an 8 foot high fence! Look around the neighborhood and note that there are almost no high fences separating yards. In fact, our fences are 3 or 4 feet high so that we can chat with our neighbors, and keep an eye on each other's homes, especially during the racing season when burglaries and other crimes spike in our neighborhood.

For these, and many other reasons, I respectfully request that the Zoning Board of Appeals deny Mr. Witt's current proposal and ask him to modify his plans to include no more than five single-family homes, with Victorian style architectural elements, adequate off-street parking, and that no high fences be erected that would wall-off the houses like a gated community.

Thank you for your consideration of my request.

Subject: Jumel Redevelopment Proposal

Dear Mayor Yepsen and the City Council.

I'm sure by now you are aware of the Downton Walk Development proposed for 27 Jumel. Though we all probably agree that the removal of the factory building that presently occupies the property and replacing with residential housing would be the ideal for all involved parties, the present proposal before the Zoning Board of Appeals violates the spirit and intent of the current zoning ordinances. This is not only manifested by the number of variances sought (5) but also by the significant amount of relief requested for each variance. The net result is not just a minor tweak such as to allow a homeowner change a deck, or perhaps enlarge a garage built for buggies to accommodate a vehicle, but rather the variances are being used to subvert the local Zoning. It is important that this **not** become a precedent that can be cited for development in other City residential areas!

To be sure I do not blame the developer. It is in the realm of the City Planners and the Zoning Board of Appeals to protect the spirit of the Zoning ordinances yet provide case specific variances that will minimally alter the spirit of the zoning. This is especially important in residential areas. I contend, at least in this case, those we have hired or appointed, have fallen short in carrying out the mission that the residents have entrusted them to perform.

The Zoning Board of Appeals has yet another chance on Monday to review the application and hopefully recommend to the developer a resubmission of a plan that will not subvert the intent of the Zoning Ordinances. I would hope the Mayor and City Council would also agree that the spirit of the zoning should not be compromised and will also express their concerns to the Zoning board of Appeals.

Respectively,

Gerald Mattison,

Susan

I have been following the approval process regarding Downton Walk and wanted to express my support. It is my understanding the Saratoga Springs Planning Board has agreed to an extension of the previously received approval of the development and a similar extension request will be reviewed by the Saratoga Springs Zoning Board.

Before moving to Saratoga Springs in 2014 I lived in Manhattan so I am familiar with housing density. The plans I have seen for Downton Walk are aesthetically appealing and representative of "the art of the possible" when designing residences in an existing neighborhood.

My Saratoga residence (Park Alley North) is in an area that was developed by John Witt. While I did not purchase my home from Witt Construction, I bought the home because I was impressed with the quality of the construction and what Witt Construction was able to create in a relatively small area. I am confident Witt Construction will deliver a similar result with the development of Downton Walk.

Dear Ms. Barden- we are in favor of the Witt Construction project on Jumel Place in the City of Saratoga Springs. We recently met with Mr. Witt to learn more about the proposed single family condominium project. We believe that the project will improve the neighborhood by eliminating the existing commercial building and constructing attractive homes which will fit in the neighborhood. The proposed homes will have similar setbacks to the existing homes on the street. This project is sure to enhance the neighborhood and increase property values.

Thank you for your time.

I'm writing to express my concern about the proposed Jumel Place development, which would be unacceptably out of scale with the surrounding neighborhood. Not only would the variances requested result in irrevocable harm to what is now a beautiful area, but granting them would set a very dangerous precedent. I ask that the variances be denied, and only a neighborhood-compatible plan approved.

Thank you.

Dear Ms. Barden and members of the zoning board,

I am writing to express my concern about the variances requested by Mr. Witt for the proposed project on Jumel Place. The size and scope of the project is not in scale with the existing neighborhood, and the density for the size of the property is inappropriate for this UR3 zoned area. The current zoning exists for a reason, and if you grant these variances, this will give license to any builder who wishes to do the same. The city is already choking under all the growth, and we are losing the quaint character of what was Saratoga.

Mr. Witt builds beautiful homes. I respectfully ask that he submit a project that is smaller

in size, more fitting to the surrounding homes (most of which are under 2000 square feet), which do not encroach on the neighbors, and one that keeps more green space in our neighborhood. Deny this change in zoning for the good of our city, and the neighbors on Jumel.

Respectfully Submitted,

Linda Reese Church

Susan,

I live very near-by this proposed project and am extremely concerned.

Seven single condominiums could easily be only the beginning of a major change to our small early 20th century neighborhood.

I was born and raised in Los Angeles, CA where set backs and limits on the number of stories have been ignored. The results are in a word, a "mess"!

If zoning regulations/laws are waived for Mr. Witt then a long line of developers will follow! A precedent should definitely not be set here, no exceptions!

Ms. Barden,

We own [REDACTED] Jumel Place, which has a long shared property border with the proposed property.

The issue of the application for variance for 27 Jumel has only recently come to our attention.

We oppose the variance for the number of proposed properties for the sight.

Furthermore, we particularly opposed the variances for the setback, since buildings would be within 6 feet of our property, as well as the proposed 8 foot fence, if indeed that fence will border the back yard of [REDACTED] Jumel.

These variances will adversely impact the enjoyment and aesthetics of our property. In fact, I am sure the zoning codes were designed to protect property owners from precisely such an adverse impact.

Dear Ms. Barden,

I've read the Saratogian article on Downton Walk and I have been aware of this project. I'm worried that it is a clever way to get around zoning laws. What is the point of zoning laws if you can get around them so easily? I'm not from this neighborhood. I live in Saratoga. If John Witt is granted what he's asking for then why do we have laws if any developer can come in and develop any way he/she wants in this City? I don't understand how this project was approved the first time and why it is being considered again. Thank you and I appreciate the opportunity to make my feelings known.

Ms. Braden -

My wife Linda and I live at [REDACTED] East Ave. and also own the residence at [REDACTED] East Ave. As we have previously communicated to Mr. Witt, we are in support of his project and believe it will ultimately improve the neighborhood. Our one concern, also communicated to Mr. Witt, is in regards to the demolition of the current property. Specifically, this property has been (mostly) vacant and in disrepair for several years and we are worried that there may be various 'pests' living in/on the property that may become dislodged during demolition and then relocate throughout the neighborhood. Mr. Witt has assured us that he will take proper measures to ensure this does not happen. We would ask that the city be aware of this concern and stress/ensure remediation measures are taken when granting Zoning approval.

All,

We are pleased to inform you that we are moving along with our plans for the property on 27 Jumel Place, Saratoga Springs. Due to the lengthy probate process the City approvals we received have expired. We received approval for an extension from the Planning Board last night and we are scheduled to go before the Zoning Board again this month to apply for an extension. Attached is a drawing of the proposed 7 lot single family condominium project. The project will improve the neighborhood by eliminating the existing commercial building and constructing attractive homes which will fit in the neighborhood with similar setbacks to the existing homes on the street. This project is sure to enhance the neighborhood and increase property values.

We hope that you will express your support by sending a brief email to Susan Barden (the planner assigned to the ZBA) susan.barden@saratoga-springs.org. as we go before the City Zoning Board of Appeals for approval on Monday, March 21, 2016 at 7pm. It is important to include your name and physical address on the email. Please send the email to Susan Barden and cc me so that John Witt will have a copy of all letters supporting the project.

Once the extension is approved, we plan to close on the property and move full speed ahead with construction!

Best,

Subject: Downton Walk Zoning Variance

Dear Ms. Barden,

I wish to add my voice to those City residents in opposition to the proposed zoning variances necessary to permit the Witt subdivision called Downton Walk. John Witt has repeatedly shown his insensitivity to the needs of the communities where his subdivisions are being developed. His only concern is to maximize the return on his investment in the parcels he purchases. He has wantonly cleared in a designated "no cut" zone in the Town of Greenfield and has proposed clear cutting in a designated "Open Space" in a planned Conservation subdivision in the town of Saratoga. In the furtherance of his plans, he has repeatedly attempted to misconstrue the provisions of the zoning regulations and the explicit provisions of the Comprehensive Plan to achieve his ends.

While he is fully aware of the Zoning requirements in a Urban Residential-3 zone, Witt simply believes that the Zoning laws and the provisions of the City's Comprehensive Plan do not apply to him. Below I have reproduced an excerpt from an well written and researched article by City resident, Sandy Cohen. The article succinctly describes Witt's attempt to manipulate the zoning provisions well beyond their original intent and shows his total disregard to the explicit provisions of the City's Comprehensive Plan. His lack of concern for community character simply knows no bounds.

Please advise the Zoning Board of Appeals to deny this application.

Respectfully,
John Cashin

The most basic of the issues was the **seven condominiums** he is proposing to build. All will be free-standing structures. So, in his mind, they are basically single-family homes. However, the owners will only be buying the walls and the space within them. The land under and around them will be owned by all the homeowners with an undivided interest and managed by a Homeowners Association that they will direct to maintain and care for it – thus the condominium moniker. The ZBA feels that such ownership is not enough to consider the project a “regular” condominium for zoning purposes – because it will “look like” it’s made up of single-family homes. This becomes a confusing issue, because, on one hand, the builder is admitting he is building condos, only because of the land-ownership factor; but, on the other hand, he wants special consideration for his request to place more structures on the lot than allowed by law.

Most communities refer to Witt’s model as “zero-lot-line” homes and do not “condominiumize” the land. Zero-lot-line homes are considered **cluster housing** and, in Saratoga Springs, are allowable **only** in the Urban Residential-1 (UR-1) and Suburban Residential-2 (UR-2) districts. The codes for those types of communities require the land to be subdivided before it can be approved. Witt has not applied for subdivision, which requires much heavier oversight before approval. The codes addressing cluster housing **require** adherence to proper set-backs to existing properties, although they can be ignored between the homes within land being developed. They also require a strict percentage of the land to be left green. Witt is requesting relief from those setbacks; and has not even made a request for as much relief as he would need, because of the orientation of the homes on the land. And he is not leaving anywhere near as much green land surrounding those homes as required by law. But even those two issues are trumped by the fact that these **are** condos that may NOT be built in a UR-3 district.

If Witt wants to continue to ask for such allowances, especially for condos/multi-family housing in a UR-3 area, we believe it is incumbent on him – by the City’s Comprehensive Plan, Charter, and Zoning Codes – to petition the City Council, which we also believe is the **only** group that can make such exception, by changing language in the Comprehensive Plan itself to allow multi-family housing in a Core Residential Neighborhood-1 (CRN-1) category. However, such a drastic change as this would be opposed by most of the more than 10,000 homeowners throughout the residential neighborhoods in our city.

We contend that the Zoning Board of Appeals will be operating outside of its purview, if it approves Witt’s application.

To: Saratoga Zoning Board of Appeals

Saratoga Council and Planning Board,

First of all I can appreciate the awkward position in which the proposal to develop 27 Jumel Place puts the Zoning Board of Appeals, after having already approved the numerous substantial variances two years ago. Having said that, this also gives the Zoning Board, the neighborhood, and the Saratoga Community at large, another opportunity to take a second look at this proposal and its potential city wide long term effects.

I think we all agree the development of the property into residential use could be an asset to the neighborhood and the City Tax Rolls as well.

The broader questions, First : Is this is the right development for this piece of property? John Witt and his construction company are well-known at producing high quality, high end units. By John's own description this would add six million + to the tax rolls. However, a project of this magnitude on this property is requiring numerous (at least 5) and substantial variances (90% and more) relief with major modifications to the zoning regulations in a residential area.

Second: There are questions as to this type of development in the UR-3 zoning. This kind of development seems to be a first for the City's residential areas...Do we really want to make quasi-single family / condominium a precedent for change for other parts of the City's residential zoning?

One of the criteria that the Zoning Board of Appeals must consider is **"Whether the benefits sought by the applicant can be achieved by any other means"**.

Does anybody really believe you need a six million dollar plus project to reasonably and economically develop this site? It seems reasonable that a scaled back project even in the 3 to 4 million dollar range that stays within zoning requirements would be feasible and lucrative. Even at that level it far surpasses the value of any property in the area, perhaps even the Eastside. Understandably a developer wants to maximize their investment; however it should not be the role of the Zoning Board of Appeals to grant variances to ensure increased profitability of the development. A more modest development that remains within the guidelines is in order.

Another criterion the ZBA must consider is **"Whether the variances will produce an undesirable change in the neighborhood or a detriment to nearby properties"**.

An increase of lot coverage over 50% above Zoning restrictions is very significant, especially considering this is one of the largest parcels in the neighborhood. Although none of the public materials available indicate the height of any of the buildings, presumably all are well under the 60 ft zoning limit. Pertaining to the two Jumel Place facing structures however, the graphics indicate 3 stories with copula's which are well above the surrounding 1 to 1 ½ story homes; in addition they rise up 1 foot from the sidewalk. Slightly smaller homes appear to be depicted toward the rear of the property. At such heights privacy to the surrounding neighboring back yards is reduced. The development is also surrounded with a 6 to 8 foot opaque wall separating the older neighboring properties from the new development. All of these would seem to be an undesirable change if not a detriment to the neighborhood. A more modest development that remains within the guidelines would be appropriate.

A third consideration of the ZBA is **"Whether the variance is substantial"**

All Five of the variances sought after seem very substantial, ranging from a 50% to 90% relief in the codes. A more modest development that remains within the guidelines is obtainable.

And the last ZBA consideration: **"Was the alleged difficulty self created?"**

The concerns of criteria 1, 2, & 3 can all be resolved with: A more modest development that remains within the guidelines of the zoning.

I urge the Zoning Board of Appeals to deny the zoning variances and to suggest a redesign of the proposed development.

Respectively Submitted,

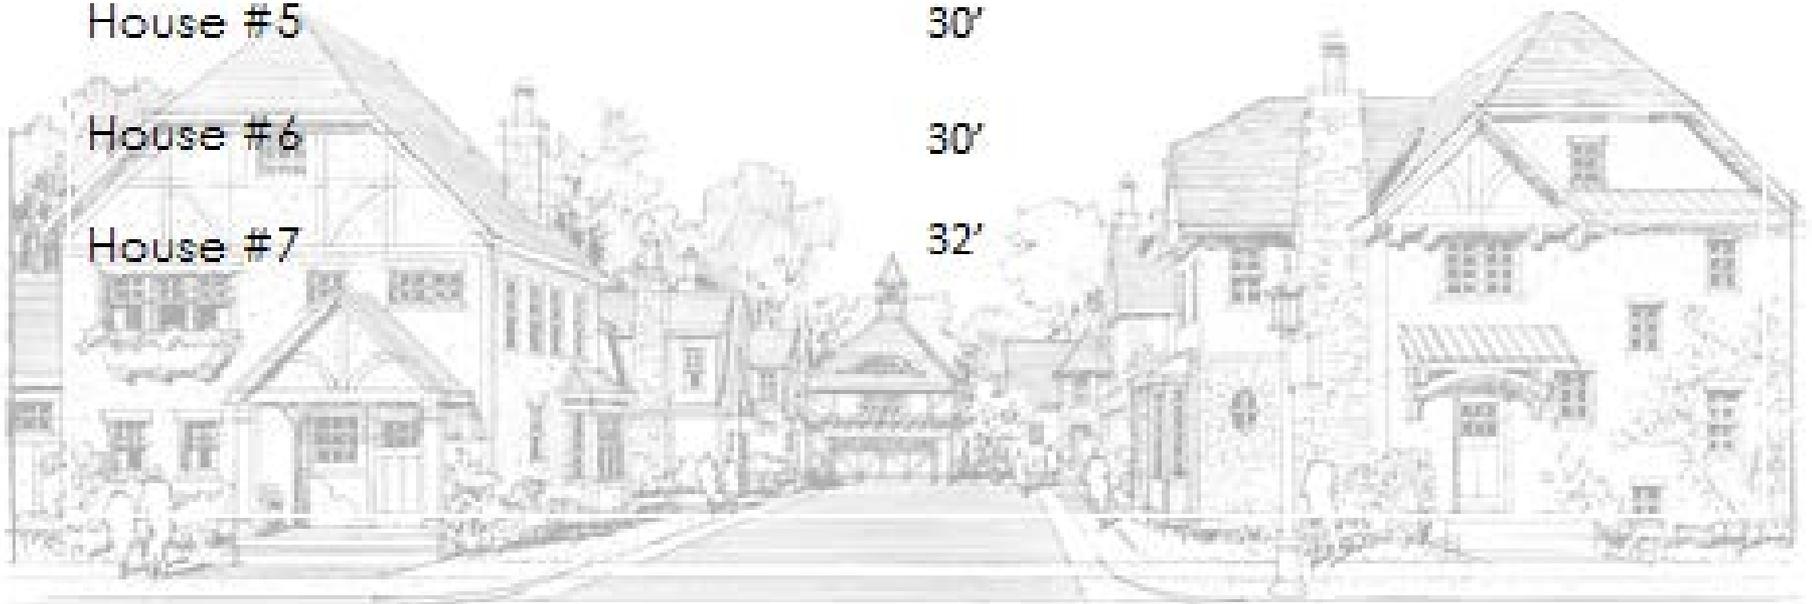

Gerald Mattison

We are writing to ask you to deny the zoning appeal from ANW Holdings for variances to build 7 unit condominium project on the property of 27 Jumel Place. We would welcome the development of our adjoining property; however we feel the variances that have been requested are too excessive. In addition, according to the definition of condominium in our city zoning ordinance as a multi-family dwelling, it is not allowed in the UR-3 zoning district.

The Saratoga Springs Zoning Ordinance defines a condominium as follows:

"CONDOMINIUM: A multifamily dwelling containing individually owned dwelling units, wherein the real property title and ownership are vested in an owner, who has an undivided interest with others in the common usage areas and facilities which serve the

development."

A subdivided lot this size, of which this request for a variance is not, in a Core Residential Neighborhood-1 or a UR-3 Zoning District would allow for 5 single family homes or 4 two-family homes.

The Land Use category of Jumel Place in our city's 2015 Comprehensive Plan is a Core Residential Neighborhood-1 (CRN-1), allowing a maximum density of 10 units/acre. In our city's Zoning Ordinance, Jumel Place is located in an Urban Residential-3 (UR-3) Zoning District, which allows for only single and two-family homes to be built. By law, this particular parcel of land is large enough to allow five single family homes or four two-family homes.

The request for seven single family condominiums is 40% over the density allowed in an UR-3 Zoning District and creates a 40% density bonus. In our city's Zoning Ordinance, a density bonus of this magnitude is only allowed for affordable senior housing. This project has not been presented as neither senior nor affordable housing.

To allow for the density the applicant is requesting, the city council would have to change the Land Use category of this area in the Comprehensive Plan from a Core Residential Neighborhood-1 (CRN-1), which allows up to 10 units/acre, to a Core Residential Neighborhood-2 (CRN-2), which allows up to 15 units/acre.

The substantial variances the applicant is asking for include:

1) The maximum building coverage allowed on this lot is 30%. The previous request was for a 43.5% building coverage allowance, or 45% more than what is allowed. The request has been increased to 46%, or 53.3% more than what is allowed.

2) The rear yard setback required for each unit is 25 feet. The applicant is asking that this requirement be eliminated by 100% for five units, going from the 25 feet required to zero (0) feet. For the remaining two units he is asking for a 76% reduction in the rear yard setback from 25 feet to 6 feet.

3) The front yard setback required for the two front units is 10 feet. The applicant is asking for one (1) foot, a 90% reduction in the front yard setback.

4) The fence height allowed in this UR-3 residential area is six feet. The applicant is asking for an eight foot fence, a 33% increase in height over what is allowed.

5) The applicant is asking for a maximum principal building on one lot to be increased from one to seven, a 600% increase.

We hope you will agree that this appeal to the Zoning Board of Appeals by ANW Holdings should be denied at this time.

Thank you.

Sincerely,

Jane Valetta

Subject: ZBA area variance at 27 Jumel Place (#2795.1)

March 1, 2016

To: Saratoga Springs Zoning Board of Appeals

RE: #2795.1, ANW Holdings, seeking area variance for 27 Jumel Place

Dear members of the ZBA board,

I appreciated the opportunity to speak to the board during the previous ZBA meeting on Feb 22, and would like to re-iterate my concerns with this area variance request.

In particular, I am concerned about ANW Holding's request for a variance on the minimum rear setback. My understanding is that UR-3 zoning requires a 25' minimum rear setback. My understanding is that ANW Holdings seeks a variance to reduce this to a 6' setback across the entire rear of the property line.

I ask the board to deny this rear setback variance for two reasons.

1. The variance is substantial. I acknowledge that there is a building with an existing variance on the rear setback. However, this existing rear variance is a 1-story structure limited to the northeast corner of the lot. The northwest rear corner is currently open space. ANW's request will substantially increase the existing rear variance. It will extend the variance upwards by at least one full additional story as well as an additional gabled roof. There also appears to be a steeple structure on a rear building. I do not know the exact proposed heights, but I am guessing it increases the rear variance from a 10' height to 30'. It will also extend the rear variance from the northeast half of the lot to the entire rear lot line. This is a significant increase in the mass and scale of the existing rear setback variance.
2. The variance will be a detriment to nearby properties and will produce an undesirable change in the neighborhood. My property is [REDACTED] Lake Ave, corner to the northwest. If the proposed variance is approved, a 2-story gabled roof building will be only 6' from my backyard, and will overshadow my back yard and invade my family's privacy and be a detriment to our enjoyment of our back yard. Although ANW's rendering appeared to show some foliage along this rear setback, I believe that this 6' setback is likely to be insufficient to plant any trees along the setbacks. I believe that allowing large multi-story dwellings 6' from the rear lot line will in fact be a detriment to my property and will produce an undesirable change in my neighborhood.

I ask the board to consider a compromise, whereby the rear setback is limited to the existing variance on the northeast corner. The northwest corner should be left as open space, reducing the number of proposed buildings from 7 to 6, and allowing open space for the planting of trees and green space.

Thank you for your consideration,

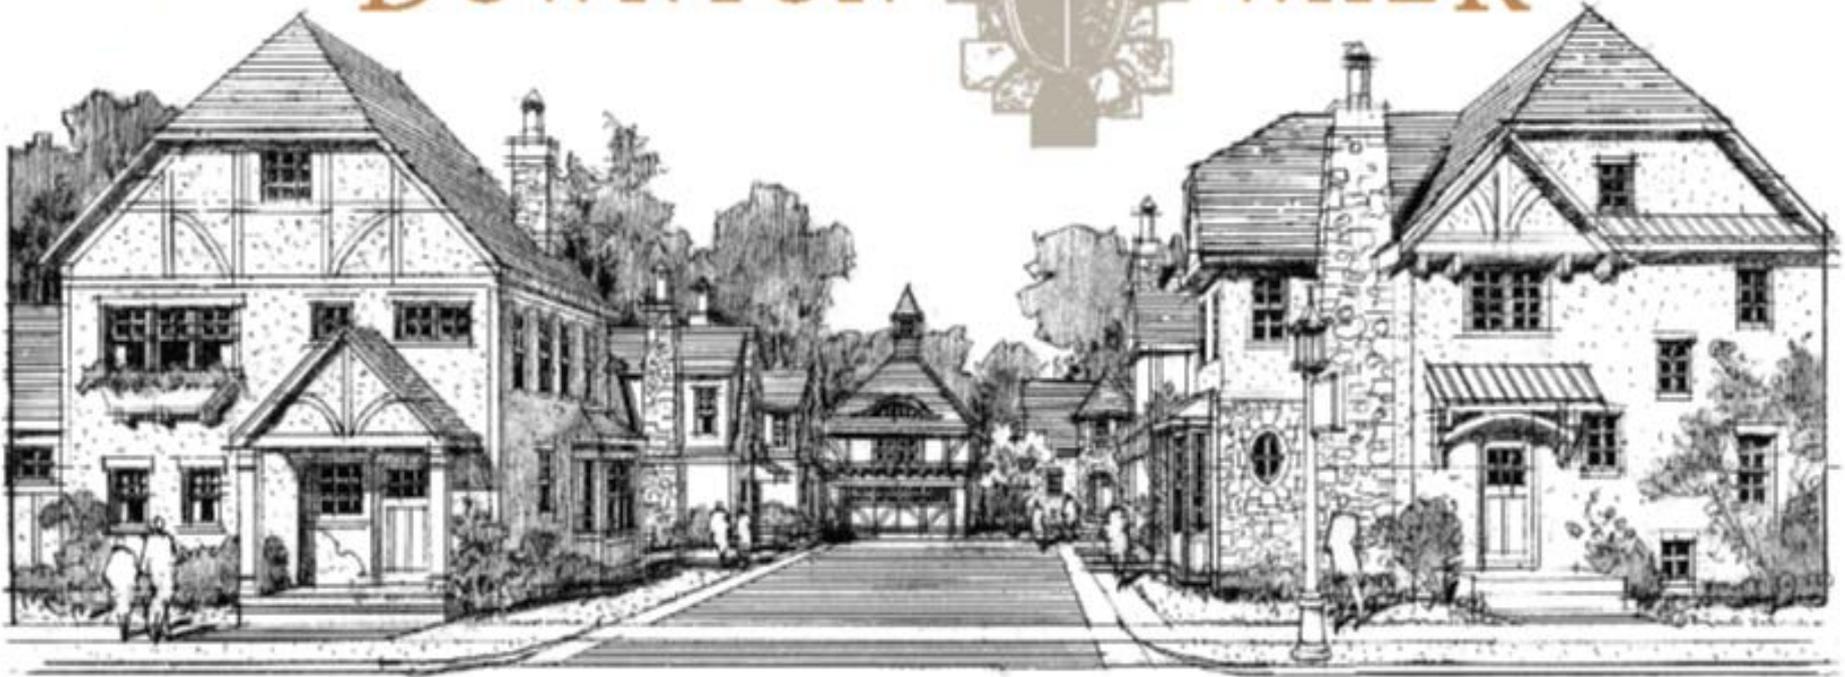

Max Peter

Area Variance Criteria

1. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties
2. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible
3. Whether the requested area variance is substantial
4. Whether the proposed variance will have adverse physical or environmental effects on neighborhood or district
5. Whether the alleged difficulty was self-created

1. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties

Granting the use and area variance will **not** produce an undesirable change, but rather enhance the neighborhood.

By eliminating a large commercial & multi-family structure that takes up ~50% of the lot and fails to meet the front, side and rear setbacks. Its replacement will be a very attractive single-family condominium project.

2. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible

Other feasible means are **not** available:

Alternative designs options are fewer units, smaller units or taller units.

- Fewer units will make the cost of the land for each unit prohibitive. (See following slide)
- Smaller units would be both undesirable and smaller than the surrounding homes. The proposed home sizes are consistent with that of the existing neighborhood.
- Taller units would not be in keeping with the homes in the existing neighborhood

All adjacent land is currently occupied with single family homes.

3. Whether the requested area variance is substantial

The requested variance is not substantial due to :

- The new setbacks requested are less than what currently exists with the existing structure.
- The new setbacks are consistent with the setbacks of other single family homes in the neighborhood.
- The percent of lot to be covered is less than the existing multi-use structure.
- The permeable area of the lot will be increased with the new development as compared to the existing development

4. Whether the proposed variance will have adverse physical or environmental effects on neighborhood or district

The proposed variance will **not** have adverse physical or environmental effects on neighborhood or district.

- The proposed single family development will be contained on the one lot with one curb cut for all vehicle access to the property
- The net permeability of the development will be great than the existing development

5. Whether the alleged difficulty was self-created

The difficulty was self-created, **however:**

It was created by the need to change the deteriorating non-conforming multi-family/ mixed-use structure to a use consistent with the existing neighborhood.

- The change will be a win for the neighbors with the replacement of a multi-use / commercial structure with single family homes.
- The change will be a win for the city with additional tax revenues and a higher tax base.

Re: APPLICATION FOR CONDOMINIUMS
AND REQUESTS FOR ZONING VARIANCES
27 JUMEL PLACE, SARATOGA SPRINGS, BY BUILDER – JOHN WITT

It appears that the Saratoga Springs Zoning Board of Appeals might be in danger of overstepping its purview if they approve Developer John Witt's current request which will effectively change the zoning ordinance regarding the type of housing allowed in a long-existing Jumel Place neighborhood, within a mile of Saratoga Race Course. Witt has requested an area variance, when what he needs is a use variance, because the condominiums he proposes are not legally allowed within the property's UR-3 zoning. According to our zoning laws – which have the stated interest of maintaining a particular harmony within each of the city's different districts – such use variance would need the approval of the City Council, not an end run through the ZBA. But a vote is scheduled for the ZBA meeting on March 7.

Although the City offers ample opportunity to build cluster housing in UR-1 and SR-2 zones (per Article 4, Section 241-13-A of the city code - ecode.360.com), Witt is attempting to cluster seven single-family condominiums on a 0.79-acre UR-3 lot. Current zoning only allows for either one single family residence or one two-family residential structure. In his proposal, the seven owners would each have an undivided interest in the entire property, while they own their individual structures that sit on the commonly-owned land (which is what defines its condominium status). Contrary to claims that condominiumizing the land alone is only a financial move, it is a clear change of use of the land, in that it automatically includes the clustering model which, in addition to being restricted to specific other areas of the City, allows for tighter lot-lines between homes, albeit they must still follow specific setback and open space codes.

In addition to such change of use, he has also asked for setbacks that would be in violation of code even within a clustered community – as crowded as 1-foot from the existing front sidewalk (10 feet is legal) and 6-feet from the rear (25' is legal). Witt is also requesting additional height, approaching three-storeys, on his structures – which would be interruptively noticeable from Lake Avenue (Route 29), one of the main thoroughfares into the City. He also wants permission to erect an 8-foot fence around three sides of the perimeter to enclose/isolate his Downton Walk community, an English-Cotswold-style development, from the rest of the Victorian/American-turn-of-the-century neighborhood, in which some homes have been there since the late 1800s among others from the 1920s.

APPLICATION FOR CONDOMINIUMS
AND REQUESTS FOR ZONING VARIANCES
27 JUMEL PLACE, SARATOGA SPRINGS, BY BUILDER – JOHN WITT
PAGE 2 OF 2

Saratoga code (Section 241-13-G) states that new clustered housing – which includes condominiums, townhouses, row houses, zero-lot-line homes, and other multiples – are ONLY allowed in UR-1 and SR-2 locations. In order to build them, even in the specified districts, one must first file for a subdivision of the property, which Witt has not done. That would have resulted in permission to build only five single-family homes or four two-family homes on that size property, ***along with the requirement that each structure must adhere to code setbacks from existing property lines and, within the new multiple community, must meet the percentages of open space.***

The percentage of open space of this project, as presented, does not even adhere to cluster code; nor do the requests for relief from setbacks between the cluster structures and existing neighboring properties, including the City-owned sidewalk. Much of the builder's positive comparison on building standards are irrelevant, as they take into consideration the structure currently on the site, which was built before Saratoga had zoning codes.

Neighbors have no issue with Witt as a quality builder. Nor do they have issue with multiple structures on the property, as long as there is adherence to existing codes. Overloading the space and radically cutting setbacks endangers both the new property and the neighboring structures. It also presents quality of life issues for the current residents, including increased noise and the effect of being walled-off from the contiguous neighborhood. As it is currently planned, the project ***will alter the essential character of the neighborhood and will present an adverse physical impact on the community in which it would be situated.*** The concept of allowing condominiums in UR-3 neighborhoods is a slippery slope that would present an even greater threat to the entire City. Such disregard of our zoning codes will open the door to requests and expectations of similar divergent development in other neighborhoods.

Re: Illegal Application for “seven single family condominiums,”
and requests for substantial Zoning Variances at
27 Jumel Place, Saratoga Springs, by ANW Holdings, Builder, John Witt

Public Hearing #2 to be held at the Zoning Board of Appeals meeting on March 7, 2016

Fr: Neighbors of Surrounding Properties

On Monday night, March 7th, the Zoning Board will be deciding on a major project on Jumel Place which is illegal and out of character with the neighborhood. The builder, John Witt, is asking for 7 single condominiums which would be selling for up to 1.5 million dollars per unit. Condominiums are not allowed in UR-3 zoning and the lot is zoned for only 5 units. The builder should be required to follow the zoning law. Mr. Witt is also asking for substantial variances as well.

The Zoning Board of Appeals needs to protect the residential neighborhoods on East Avenue, Lake Avenue, Granger St, and Jumel Place, which surround 27 Jumel Place, from this massively overdone and illegal application. This project will negatively impact the value of our homes and the quality of life in our neighborhood. There are far too many legal questions and large variances being sought, which if granted, would make zoning law useless.

First and foremost, the Land Use category of Jumel Place in our city’s 2015 Comprehensive Plan is a Core Residential Neighborhood-1 (CRN-1), allowing a maximum density of 10 units/acre. In our city’s Zoning Ordinance, Jumel Place is located in an Urban Residential-3 (UR-3) Zoning District, which allows for only single and two-family homes to be built. By law, this particular parcel of land is large enough to allow five single family homes or four two-family homes.

The applicant is requesting to build “seven single family condominiums.” Condominiums are not allowed on Jumel Place, as by definition in our Zoning Ordinance, condominiums are multifamily. The city’s Zoning Ordinance states the definition of a condominium as follows: “CONDOMINIUM: A multifamily dwelling containing individually owned dwelling units, wherein the real property title and ownership are vested in an owner, who has an undivided interest with others in the common usage areas and facilities which serve the development.”

Multifamily structures are not allowed in a Core Residential Neighborhood-1 or a UR-3 Zoning District. The request by the applicant must be called what they are, 7 single family homes. However, only 5 single family units are allowed on this size lot, or 4 two-family units. (Actually only one unit is allowed, as the applicant has not sub-divided the lot.)

The request for seven single family homes is 40% over the density allowed in an UR-3 Zoning District and creates a 40% density bonus for Mr. Witt's \$700K to \$1.5 million dollar homes. In our city's Zoning Ordinance, a density bonus of this magnitude is only allowed for affordable senior housing. This is not affordable housing.

To allow for the density the applicant is requesting, the city council would have to change the Land Use category of this area in the Comprehensive Plan from a Core Residential Neighborhood-1 (CRN-1), which allows up to 10 units/acre, to a Core Residential Neighborhood-2 (CRN-2), which allows up to 15 units/acre.

Why is the applicant insisting on calling these seven single family homes "seven single family condominiums"?

Is it because the applicant believes he will only have to provide back yards for two of the seven units, as his application shows? Five of the units have no back yards at all. A 25' back yard setback is required for every unit in a UR-3 Zoning District.

Is it so the applicant doesn't have to spend the money to subdivide the lot?

Is it because the applicant thinks he will be allowed more units than the maximum of five single family homes allowed on this lot?

Is it because these \$700K to \$1.5 million dollars homes may receive a condominium tax break, thereby forcing the far more modest homes in the area to virtually subsidize them?

Is it because of all of these reasons? We simply do not know.

Legally, whether these seven single family homes are called condominiums, or not, they are not allowed on this property site. **Only five single family homes are allowed by law on this property.** Approving this application would be in violation of the city's Comprehensive Plan and its Zoning Ordinance.

In addition to the applicant requesting two units more than legally allowed on this lot, the applicant also is asking for the following massive variances.

Variance 1) The maximum building coverage allowed on this lot is 30%. The applicant had previously asked for a 43.5% building coverage allowance, or 45% more than what is allowed. He has recently increased this request to 46%, or 53.3% more than what is allowed. Granting either of these requests would be substantial.

Variance 2) The rear yard setback required for each unit is 25 feet. The applicant is asking that this requirement be eliminated by 100% for five units, going from the 25 feet required to zero (0) feet. For the remaining two units he is asking for a 76% reduction in the rear yard setback from 25 feet to 6 feet.

Variance 3) The front yard setback required for the two front units is 10 feet. The applicant is asking for one (1) foot, a 90% reduction in the front yard setback. The applicant claims that this is so "our (2) front porches [can] be placed on the unit." However, his drawings show that he is not proposing porches, only overhangs.

Variance 4) The fence height allowed in this UR-3 residential area is six feet. The applicant is asking for an eight foot fence, a 33% increase in height over what is allowed. Why is this necessary only for this development? Is the applicant trying to exclude the rest of the neighborhood? A fence this high would create an exclusive walled enclave shutting out the existing neighborhood.

Variance 5) The applicant is asking for a maximum principal building on one lot to be increased from one to seven, a 600% increase. As mentioned earlier, only five single family units are allowed by law on this property, after the property is subdivided. Why is this property not being subdivided?

This project will negatively impact the value of our homes and the quality of life in our neighborhood.

There are far too many legal questions and large variances being sought, which if granted, would make zoning law useless.

This illegal application with its substantial variances needs to be denied by the Saratoga Springs Zoning Board of Appeals at their upcoming meeting on March 7th.

The neighbors would support a more balanced project with 5 single family homes on 30% of the land with more standard setbacks.

Dear Ms. Barden -

My husband and I live at [REDACTED] Jumel Place, [REDACTED] across the street from 27 Jumel Place. We received the notice of public hearing for the above mentioned project. It is unlikely that we will be able to attend the meeting on Monday February 22 in person, but wanted to make a statement for the record.

We are in support of the project. The project is an enormous improvement over the existing structure, and its previous uses.

We understand the request for variance from the front yard setback, and agree it will maintain a similar look to what exists on the street.

Thank you.

Sincerely,
Tracy and Johnny Miller

EXTENSION OF A VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

1. Date original variance was granted: 5/1/14 2. Type of variance granted? Use Area

3. Date original variance expired: 11/1/15 4. Length of extension requested: _____

5. Explain why the extension is necessary. Why wasn't the original timeframe sufficient?: We were unable to close on the property due to it being held up in probate for the last several months. We are anticipating to close within the next few weeks.

When requesting an extension of time for an existing variance, the applicant must prove that the circumstances upon which the original variance was granted have not changed. Specifically demonstrate that there have been no significant changes on the site, in the neighborhood, or within the circumstances upon which the original variance was granted:

Nothing has changed to this area & no new development

on or near this site.

USE VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

A use variance is requested to permit the following: _____

For the Zoning Board to grant a request for a use variance, an applicant must prove that the zoning regulations create an unnecessary hardship in relation to that property. In seeking a use variance, New York State law requires an applicant to prove all four of the following “tests”.

- I. That the applicant cannot realize a reasonable financial return on initial investment for any currently permitted use on the property. “Dollars & cents” proof must be submitted as evidence. The property in question cannot yield a reasonable return for the following reasons:

A. Submit the following financial evidence relating to this property (attach additional evidence as needed):

1) Date of purchase: _____ Purchase amount: \$ _____

2) Indicate dates and costs of any improvements made to property after purchase:

<u>Date</u>	<u>Improvement</u>	<u>Cost</u>
_____	_____	_____

_____	_____	_____

3) Annual maintenance expenses: \$ _____ 4) Annual taxes: \$ _____

5) Annual income generated from property: \$ _____

6) City assessed value: \$ _____ Equalization rate: _____ Estimated Market Value: \$ _____

7) Appraised Value: \$ _____ Appraiser: _____ Date: _____

Appraisal Assumptions: _____

B. Has property been listed for sale with the Multiple Listing Service (MLS)? Yes If "yes", for how long? _____ No

1) Original listing date(s): _____ Original listing price: \$ _____

If listing price was reduced, describe when and to what extent: _____

2) Has the property been advertised in the newspapers or other publications? Yes No

If yes, describe frequency and name of publications: _____

3) Has the property had a "For Sale" sign posted on it? Yes No

If yes, list dates when sign was posted: _____

4) How many times has the property been shown and with what results? _____

2. That the financial hardship relating to this property is unique and does not apply to a substantial portion of the neighborhood. Difficulties shared with numerous other properties in the same neighborhood or district would not satisfy this requirement. This previously identified financial hardship is unique for the following reasons:

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) _____.

Dimensional Requirements

	From	To	→ To
Fencing (exterior fence only)	6'	8'	
Lot Coverage	30%	(Prev. Appr.) 43.5%	46.0%
Front Yard Setback	10'	(Pre. Appr.) 5'	1'

Other: _____

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- I. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

Our fencing request is new, asking for the height limit to go from 6 – 8' (exterior fence only). This creates privacy along the perimeter, a benefit to both sides of the fence. What is currently there is dilapidated and run down, hence aesthically a great improvement. Our modified request for front setback of 1' is what currently exists and consistent with surrounding homes. The 5' granted does not allow for our (2) front porches to be placed on the unit. This style entry fits with the street scape. Finally, the area coverage request of 46% is what was originally asked for, and necessary for the option of adding additional back porches on the homes; an opportunity for our clients to enjoy their backyards, since their fronts are quite limited-in size. These variance alternatives are reasonable and contiguous with the urban feel of downtown.

2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

Granting the area variance will enhance the neighborhood by creating privacy, align the two front porches with the neighboring homes, and allow only 2.5% more in area coverage which was originally requested.

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

This request is minimal and less than what currently exists on the property. The fence height increase is not substantial and benefits both the current and new homeowners.

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

This is one lot, seven homes, a singular curb cut and permissible use of the land in lieu of its current nonconforming commercial use. Permeability exceeds the minimum, peaking at 35-10%, parking accommodations are onsite and traffic is reduced due to the applicable Urban Residential 3 zone. The lot will be properly cleaned and abated, a favorable influence both physically and environmentally on the neighborhood.

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

The difficulty was created by the need to change a non-conforming structure to a residential economically feasible solution. A win for all involved; neighbors, city, and a proper sustainable usage by City Standards.

In accord with Article 240-14.4A(1)(b)(6) of the Zoning Ordinance, "any request for an area variance, which shall effect a change in density, shall be applied for and considered as a use variance and decided under criteria for the same". A request that involves any of the following relief will require an application for a use variance and will be decided under the use variance criteria:

- (1) Dimensional relief from minimum lot size requirements that would allow additional permitted units and/or uses
- (2) Relief from on site parking requirements
- (3) Reduction in land area requirements for multi-family units

DISCLOSURE

Does any City officer, employee, or family member thereof have a financial interest (as defined by General Municipal Law Section 809) in this application? No Yes If "yes", a statement disclosing the name, residence and nature and extent of this interest must be filed with this application.

ACCOUNTS DEPARTMENT

IN THE MATTER OF THE APPEAL OF
ANW Holdings, Inc. of 564 Broadway
Saratoga Springs, NY 12866

from the Building Inspector's Denial of Application for Land Use and/or Building for the premises at 27 Jumel Place, Saratoga Springs, New York, identified as Tax Parcel No.: 166.13-1-50.2 in the inside district of the City.

The Applicant has applied for an area variance for relief from the current City Zoning Ordinance applicable to the Urban Residential - 3 zoning district to construct a seven unit condominium development seeking relief from the maximum principal buildings permitted on one lot, maximum principal building coverage, the minimum front yard setback requirements for the two units fronting on Jumel Place, and from the minimum rear yard setback requirements for the two units located at the rear of the property, and public notice having been duly given of a hearing on said application on July 9, 2013 and October 28, 2013.

In consideration of the balance between the benefit to the Applicant with the detriment to the health, safety and welfare of the community, the Board makes the following resolution that the requested area variance for the following relief or such lesser amount, as described in the submitted application, BE APPROVED:

Type of Requirement	Required	Existing	Proposed	Total Relief Requested
Maximum Principal Buildings on one lot	One (1)	One (1)	Seven (7)	6 (600%)
Maximum Building Coverage	30%	49.4%	43.5%	13.5% (45%)
Minimum Front Yard Setback for the 2 units fronting on Jumel Place	10 feet	1 foot	5 feet	5 feet (50%)
Minimum Rear Yard Setback for the 2 units located at the rear	25 feet	.7 foot	6 feet	19 feet (76%)

1. The Applicant has demonstrated that this benefit cannot be achieved by other means feasible. This Board has been asked to consider several prior applications to redevelop this property. It is currently used for mixed commercial and residential purposes with a large cement structure, formerly a manufacturing facility, located on the property. The current use is not conducive to a residential neighborhood and the noise and traffic generated by the current use has been an issue of concern for many of the neighbors. The unique nature

of this property and the prior failed attempts to arrive at a use for this property that is acceptable to neighbors, conforming with the neighborhood and economically feasible has demonstrated that the redevelopment of this property raises unusual and distinct issues. Not only has the Applicant explored alternate means to achieve the requested benefit including a smaller number of units which were evaluated and found to be economically unfeasible, but prior applicants have also attempted to use the structure for varied uses, all of which demonstrates that other alternatives have not been shown to be practical or economically feasible. The applicant has demonstrated that redeveloping this property from an unsightly cement structure used for commercial purposes into a seven unit residential condominium development is the best economically feasible use as shown on the proposed site plan for this property.

2. The Applicant has demonstrated that granting these variances will not create an undesirable change in neighborhood character or a detriment to nearby properties. Applicant had shown that removal of the current cement structure and construction of a seven unit condominium will result in a development that substantially conforms with the residential homes in the neighborhood. The Applicant has demonstrated, and several neighbors have testified in support, that this redevelopment will have a very beneficial impact on the neighborhood. The granting of these variances will result in the removal of a varied use (ballet school), unauthorized use (karate school) and prior nonconforming use (manufacturing facility) and result in a conforming use which is in keeping with the character of the neighborhood. We note that the City Planning Board issued a favorable advisory opinion identifying that "This site can adequately accommodate development of this scale, and that the overall density proposed is compatible with the surrounding neighborhood." Based on the foregoing, the granting the variances will improve the appearance of the property and will not create an undesirable change in neighborhood character or impact on nearby properties, but rather a desirable and valuable change.

3. The relief requested may be considered substantial, but is mitigated by the fact that the current existing structure is non-conforming and by the fact that the lot, at 34,765.50 square feet, would accommodate either five single-family lots or four two-family buildings for total of eight residences. The requested variance, for seven units, is one less than the permitted 8 residences. In order to develop this property in a manner that is most conducive to current needs of our citizens, creating smaller free standing condominiums is beneficial. The construction of one continuous unit would have eliminated the need for a variance for seven units, but would not have resulted in a project that meets the current needs of some members of the community. The minimum front and rear setback variances are necessary to maximize the available parking and the need for service vehicles to access the property. Due to the non-conformance of the current structure and some of the existing structures in the neighborhood, these variances will not have a substantial impact on the neighborhood and therefore mitigates the substantial nature of the variances.

4. The Applicant has demonstrated that the variance will not have a significant adverse physical or environmental effect on the neighborhood. The Applicant has demonstrated, and several neighbors have testified in support, that this redevelopment will have a significant beneficial physical impact on the neighborhood. Not only will the current commercial use with resulting traffic and noise generated by such use no longer interfere with the quiet residential neighborhood, but the physical change to the property will be a significant improvement to the appearance of the neighborhood. Additionally, the proposed construction will improve the permeability of the lot to 35.1%, in excess of the required 25%.

5. The alleged difficulty may be considered self-created in that the Applicant desires to re-develop this property in a manner that will meet the needs of residents of Saratoga Springs who are looking to down size and still create a development that conforms to the neighborhood as a residential development in an economic

manner, however, this is not necessarily fatal to the application.

Notifications/Approvals/Conditions of Approval:

Prior variances are discontinued.

Saratoga Springs City Planning Board site plan review is required – the Planning Board will address local concerns as identified by the Saratoga County Planning Board.

Saratoga County Planning Board issued a finding of no significant county side or inter community impact.

Appeal #2759
IN THE MATTER OF THE APPEAL OF
ANW Holdings, Inc.
564 Broadway
Saratoga Springs, NY 12866

from the Building Inspector's Denial of Application for Land Use and/or Building for the premises at 27 Jumel Place, Saratoga Springs, New York, identified as Tax Parcel No.: 166.13-1-50.2 in the inside district of the City.

The Applicant has applied for modification to Appeal # 2714, a variance granted October 23, 2013, seeking modification of the relief from the maximum principal building coverage and the minimum front yard setback requirements for the two units fronting on Jumel Place, and for additional relief from maximum height of a residential fence, all as provided in the current City Zoning Ordinance applicable to the Urban Residential - 3 zoning district, and public notice having been duly given of a hearing on said application on April 21, 2014 and April 28, 2014.

In consideration of the balance between the benefit to the Applicant with the detriment to the health, safety and welfare of the community, the Board makes the following resolution that the requested area variance for the following relief or such lesser amount, as described in the submitted application, BE APPROVED:

Type of Requirement	Required/ Permitted	Previously Approved	Proposed	Total Relief Requested
Maximum Building Coverage	30%	43.5%	46%	16% (53%)
Minimum Front Yard Setback for the 2 units fronting on Jumel Place	10 feet	5 foot	1 feet	9 feet (90%)
Maximum Height residential fence	6 feet	N/A	8 feet	2 feet (33%)

1. The Applicant has demonstrated that this benefit cannot be achieved by other means feasible. This Board has previously determined in Appeal #2714 that the Applicant has demonstrated that redeveloping this property from an unsightly cement structure used for commercial purposes into a seven unit residential condominium development is the best economically feasible use as shown on the proposed site plan for this property. The modifications to the maximum principal building coverage and the minimum front yard setback requested by Applicant, subject to the conditions provided below, do not change the Board's prior determinations. The request to increase the maximum height of the residential fence is requested to ensure added privacy for the units and for adjacent neighbors. Providing this privacy cannot be achieved by other means due to the limited size of the property.

2. The Applicant has demonstrated that granting the modification to these variances will not create an undesirable change in neighborhood character or a detriment to nearby properties. In granting variance #2714, the Board concluded the granting the variances will improve the appearance of the property and will not create an undesirable change in

neighborhood character or impact on nearby properties, but rather a desirable and valuable change. The modifications do not change this conclusion. Additionally, granting the variance for an increased height in the fence will enhance the character of the neighborhood.

3. The modifications to the relief requested may be considered substantial. However, due to the proximity of the proposed developed structures to the neighbors and to one another, the Board finds the benefit of privacy fencing to offset the adverse impact.

4. The Applicant has demonstrated that the modification of the variances will not have a significant adverse physical or environmental effect on the neighborhood. In the prior Appeal, the Applicant demonstrated and several neighbors testified in support, that this redevelopment will have a significant beneficial physical impact on the neighborhood. The modifications requested in this application do not alter the conclusions reached by this Board in Appeal #2714. Additionally, the request for an increase in the height of the fence does not have an adverse physical or environmental effect on the neighborhood.

5. The alleged difficulty may be considered self-created, however, this is not necessarily fatal to the application.

Notifications/Approvals/Conditions of Approval:

The minimum front yard setback of 5 feet previously approved in Appeal #2714 is modified only to permit front stoops or stairways within the 5 foot setback to the 1 foot setback.

No eight (8) foot fence shall be permitted to be constructed along Jumel Place or extending beyond the front foundation line along Jumel Place.

County Planning Board issued a decision of "No Significant County Impact" on April 17, 2014.

Adopted by the following vote:

AYES: 7 (B. Moore, K. Kaplan, A. McNeill, G. Hasbrouck, S. Carlson O. Ludd and J. Helicke)

NAYES: 0

Dated: April 28, 2014

This variance shall expire 18 months following the filing date of such decision unless the necessary building permit has been issued and actual construction begun as per 240-8.5.1.
