**Narrative**  
**Inclusion of a Four Lot Subdivision**  
**Zone BB Interlaken Planned Unit Development**

The Interlaken Planned Unit Development, located in the eastern portion of Saratoga Springs, in the Union Avenue, Crescent Avenue area of the City has, over the course of time, been developed in accordance with the legislation that has been approved and amended by the City Council of the City of Saratoga Springs, and has been subject to Planned Unit Site Plan Approval by the Planning Board of the City of Saratoga Springs.

In March of 1997, an expansion of the Planned Unit Development was approved by the City Council and Designated Interlaken Zone BB. Thereafter, by Resolution of the Planning Board of the City of Saratoga Springs on May 7, 1997, PUD Site Plan approval was granted for a thirty (30) lot residential subdivision extending in a general westerly direction from Crescent Avenue and consisting of all of the lots on the easterly portion of Waterview Drive and all of Campion Lane. What was not included in this new Zone BB was the parcel of land located on the northeast corner of the intersection of Crescent Avenue and the then newly developed Waterview Drive. The parcel in question is listed as 655 Crescent Avenue, being City of Saratoga Springs Tax Parcel 180.69-2-20 (the "Property").

This 1.15 acre parcel is 130.57 ft on the west side of Crescent Avenue and 364.11 ft along the north boundary of Waterview Drive. There presently exists on the property a vacant dilapidated residential structure on the easterly end of the site with two driveway entrances on Crescent Avenue. An engineering analysis of the existing structure has determined that it is not salvageable and a Demolition Permit for it to be removed has been issued by the City of Saratoga Springs.

**Existing Neighborhood**

All of the structures in Zone BB consistent with the PUD Legislation, are residential in nature, and are allowed a detached or attached one bedroom unit consisting of no more than 800 sq ft Pursuant to the existing Planned Unit Development code the lots in Zone BB of the Planned Unit Development, must be at least ten thousand square feet (10,000 sq ft).

The existing 8 lots of the north side of Waterview Drive have an average street frontage of 80.00 ft. that being the the minimum mean width for lots within Zone BB according to the PUD Legislation.

**Land To Be Added**

The Applicant wishes to subdivide the 1.15 acres of land into 4 residential parcels which in all ways will be controlled by the use, lot size, mean width, setback, building height requirements that already existing in the Zone BB Legislation and within this neighborhood.

The proposed lots will all be PUD code compliant with an average square footage of 11,972 +/- sq ft and an average frontage on the north side of Waterview Drive of 91.03 ft.

### **2015 Comprehensive Plan**

Within the 2015 Comprehensive Master Plan, the Property is located within the “Residential Neighborhood – 1 Zone” as show on the Comprehensive Plan Map. According to the text of the Comprehensive Master Plan (p.58), that Zone allows a maximum density of 3.5 Units/Acre. As specified in the City Assessor’s records and the City Tax Map, the Property is 1.15 acres and, as a result, according to the Comprehensive Master Plan, the units can be created from the Property.

### **Neighborhood Approval**

The Applicant, prior to bringing this Application to the City Council, held a neighborhood meeting to introduce the concept that the Property would be subdivided into four (4) residential parcels under all of the requirements of the existing PUD restrictions. That meeting was very well attended and the vast majority in attendance were in favor of this plan that would complete the Waterview Drive northern streetscape and eliminate the structure that is an eye soar to anyone entering the neighborhood from Crescent Avenue.

### **Infrastructure**

As required with the Planned Unit Development Legislation, the homes that will be built on these parcels will all be connected to existing public sanitary sewer and potable water lines that exist within Waterview Drive.

Re: Landscape/Planting Design for 110 Regent St. and 28-32 White St.

Please note we worked with Mr. McIntyre in the design and installation of the plantings at 110 Regent St and 28-32 White Street. I have been asked by Mr. McIntyre to provide an analysis of the situation in regards to the trees/plantings that were noted to remain but have been removed.

Area 1 - 11 Spruce trees to remain (adjacent to driveway)

- It appears that 3-4 of these Spruce trees died due to a new electrical having to be installed at 2832 White Street.
- In addition the remaining trees were skinned and not healthy; and grass was not able to be grown under them.
- See photo addendum "now compared to prior". We installed a raised bed and 3 mature Birch trees and well as mature Arborvitae. We did not want to go any closer to the road so there would be no obstruction backing out.

Area 2 — Two small Pine and Ash trees

- Both were relatively small trees and did not make it thru the construction phase. They have been replaced with a mature Birch tree and Hemlock.
- See photo addendum

Area 3— 12' White Ash

- The tree was touching the carriage house and replaced with a row of Arborvitae and 2 mature Birch trees.
- See photo addendum

Area 4-28" Oak

- This tree was removed for 2 reasons:
  - a. A pool was installed and the root structure was compromised. The entire tree would have been hanging over the pool.
  - b. It was my opinion the tree was near the end of it's life and created a health and safety issue. (It should be noted a similar tree on an adjacent property, 11 Cottage Street, fell on the building destroying one unit in 2006.

It should also be noted that a 24" Maple on the side yard and a 28" Maple in the front yard were saved. In fact, Mr. McIntyre even had the 28" Maple tree in the front yard cabled between two large limbs in order to preserve it.

In addition, per the Planning Board Mr. McIntyre has:

1. Installed 300" of new concrete curbing.
2. Restored/replaced 300' of brick sidewalk.
3. Installed two new Sternburg Lights.
4. Installed 3 Street Trees.

I would encourage anyone to take a look at the two properties themselves.

Sincerely,

Randall Countermine,

anyone to take a look at the two properties in question and see the improvement for

Tim Wales,

Engineering America Co. has been retained to represent the Ice House owner as he proposes a permanent tent installation at 70-72 Putnam St. in Saratoga Springs, NY. The Building Dept. and Planning Dept. has requested that a modified site plan be reviewed by the City Planning Board. The following items address required items for the Site Plan:

Stormwater Management:

- No site construction or excavation is being proposed beyond the installation of the tent supports. There are 12 supports, resulting in a maximum disturbance of 24 sq.ft.
  - The tent is proposed to be installed in a location which is currently paved and impermeable. The impermeable surface of the site will not be changed in anyway due to the proposed tent.
  - The tent currently has a temporary permit. The new proposed location will not change the existing drainage patterns on the site.
  - A previously approved catch basin exists on site. The stormwater conditions, volume, drainage and management will not be effected by the proposed tent.
- 
-

Project Cost Estimate:

- The tent currently exists and will be relocated on a permanent basis in a slightly different location to allow for 5' separation between the tent & the property lines. No costs exist with the tent itself.
- Twelve (12) new permanent supports will be installed for the tent structure. The installation cost per support is approx. \$150 per = \$1800 cost.
- The on-site brick patio will be repaired with existing bricks to be removed for the new supports.
- There is no work proposed within the City Right of Way for sidewalks or landscaping as these elements already exist & are in good repair.

Please contact my office with any questions or if additional information is required.

Thank you for your time and cooperation.

\_\_\_\_\_  
\_\_\_\_\_

**USE VARIANCE** – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

A use variance is requested to permit the following: \_\_\_\_\_

For the Zoning Board to grant a request for a use variance, an applicant must prove that the zoning regulations create an unnecessary hardship in relation to that property. In seeking a use variance, New York State law requires an applicant to prove all four of the following "tests".

- I. That the applicant cannot realize a reasonable financial return on initial investment for any currently permitted use on the property. "Dollars & cents" proof must be submitted as evidence. The property in question cannot yield a reasonable return for the following reasons:

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

A. Submit the following financial evidence relating to this property (attach additional evidence as needed):

1) Date of purchase: \_\_\_\_\_ Purchase amount: \$ \_\_\_\_\_

2) Indicate dates and costs of any improvements made to property after purchase:

<u>Date</u>	<u>Improvement</u>	<u>Cost</u>

4) How many times has the property been shown and with what results? \_\_\_\_\_

2. That the financial hardship relating to this property is unique and does not apply to a substantial portion of the neighborhood. Difficulties shared with numerous other properties in the same neighborhood or district would not satisfy this requirement. This previously identified financial hardship is unique for the following reasons:

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

**AREA VARIANCE** – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

240-2.0

The applicant requests relief from the following Zoning Ordinance article(s) \_\_\_\_\_

<u>Dimensional Requirements</u>	<u>From</u>	<u>To</u>
North Minimum Side Setback	30'	20'
South Minimum Side Setback	30'	20'
Total Side Setbacks	100'	40'
Minimum Average Width	200'	105'
Minimum Lot Size	2.0 AC	1.59 AC

Other: \_\_\_\_\_  
\_\_\_\_\_

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

- Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

The existing building envelope varies from 5' to 8.8' wide, a variance is necessary to construct a usable building. The property to the south is, Pratt Drive, a private drive. The Applicant has written to the property owner to inquire about interest to sell property.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

Animal clinic is an acceptable use in the RR-1 zone, where the building will be located. The building will be set back from the road and not visible.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

This variance is not substantial because the property abuts to TRB zone which has 20' minimum side setbacks.

---

---

---

---

---

---

---

---

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

The building will be set back from the road and not visible.

---

---

---

---

---

---

---

---

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

The property width varies from 108.8' to 105', the building envelope varies from 8.8' to 5' wide, thus this is not self-created.

## **INTRODUCTION**

The proposed project consists of 6 separate tax parcels in the City of Saratoga (tax parcels 191.08-1-1, 191.08-1-2, 191.08-1-3, 191.08-1-4, 191.08-1-5, 191.08-1-6) and the 6 parcel comprising 1.59 acres in total. The existing vacant tree lot is situated between a commercial business to the south and State park lands to the north. See attached aerial map and tax map. The proposal application wishes to build a 6,000 sf Animal Kennel on the parcels.

## **Zoning**

The parcel(s) is divided almost in half between Rural Residential (RR-Zone) and Tourist Related Business (TRB-zone). The TRB zone is located in the front half of the parcel and RR-Zone in the rear of the parcel. The location of the TRB/RR zoning line has been established based upon the zoning map and is located at the eastern edge of tax parcel 191.08-1-2 per the zoning map or approximately 350' from centerline of Route 9. To the north of the site the zoning is Intuitional Parkland Recreation (INST-PR- Zone)

## **Parcel**

The 6 parcels have a combined area of 1.59 acres and have a lot frontage of 108.8 feet and rear lot width of 105 feet and a depth of 644.4 feet.

## **Usage**

The proposed use, Animal Kennel, is an approved use within the RR zone with a special use permit issued by the City. From the proposed concept plan the entire proposed building will be located within the RR zone.

## **Variances**

As the 6 parcels are within two zones, the existing parcels within the RR zone do not conform to City on Lot size. The 4 rear parcels are less than the minimum allowed for either the RR or TRB zoning districts of 2.0 acres or 10,000 sf respectively.

As the lot varies from 105 feet to 108.8 feet in width, the front tax parcels conform to City code of 100 foot within the TRB zone, but as the rear existing 4 tax parcels are within RR zone and these parcel do not have 200 foot of frontage per City Code.

As the 4 rear tax parcels of the site vary from only 105 feet to 108.8 feet width of the side setbacks are 30 foot minimum and with a total of 100 feet required. This leaves a 5 feet to 8.8 feet wide envelope to build a structure, which is not feasible for a building to comport with NYS building code and ADA requirements.

Therefore based upon above information the project proposes the following variances for this project.

1. North Side minimum side setback from 30 feet to 20 feet within the RR zone
2. South Side minimum side setback from 30 feet to 20 feet within the RR zone
3. Total side setback of 100 feet to 40 feet within the RR zone
4. Minimum average width from 200 feet to 105 feet within RR zone
5. Minimum Lot size of 2.0 acres to 1.59 acres

The proposed North, South and Total Setbacks requested to 20 feet and a total of 40 feet match what is currently allowed under TRB zone in the front half of the site.

Re: Initiation of Coordinated SEQRA Review for Pet Lodge of Saratoga

Dear Mark,

On April 11, 2016 the Zoning Board of Appeals (ZBA) initiated Coordinated Review on the following project:

**#2910 PET LODGE OF SARATOGA**, vacant lands on east side of Route 9/South Broadway (tax parcel nos. 191.8-1-1-6), coordination of SEQRA review and area variance to construct a pet boarding facility and associated site work in the Tourist Related Business and Rural Residential Districts.

The project was identified as an unlisted action with the Planning Board and the Design Review Commission as involved agencies. The ZBA deferred Lead Agency status to the Planning Board if they should seek it. The submitted part I of the short EAF is attached.

Respectfully yours

Bill Moore, Chair  
Zoning Board of Appeals
