#2805.1

IN THE MATTER OF THE APPEAL OF
Prime Beechwood, LLC
56 Marion Avenue
Saratoga Springs, NY 12866

RECEIVED

OCT 03 2016

ACCOUNTS DEPARTMENT

From the determination of the Building Inspector involving the premises at 56 Marion Avenue in the City of Saratoga Springs, NY, being tax parcel number 166.30-2-13, Inside District on the Assessment Map of said City.

Whereas, the appellant has applied for an area variance for relief from the City Zoning Ordinance for the placement of wall signs on a façade without street frontage and maximum size for a freestanding sign for an existing structure in a T-5 zoning district; and public notice having been duly given of a hearing on said application on September 12 and 26, 2016.

Whereas, in consideration of the balance between the benefit to the Applicant with detriment to the health, safety and welfare of the community, the Board makes the following resolution that the requested area variances for the following relief or lesser dimensions, be approved:

Type of Requirement	Required	Proposed	Relief Requested
Placement of wall sign on façade without street frontage: Wall sign on north west interior	On façade facing street	On rear/parking lot side of building	Placement on rear of bldg. (100%)
Placement of wall sign on façade without street frontage: Wall sign on north east interior	On façade facing street	On rear/parking lot side of building	Placement on rear of bldg. (100%)
Placement of wall sign on façade without street frontage: Wall signs on north west interior corner (two signs)	On façade facing street	On side of building	Placement on side of bldg. (100%)
Placement of wall sign on façade without street frontage: Wall sign on north east interior corner	On façade facing street	On side of building	Placement on side of bldg. (100%)
Max. size freestanding sign	12 sq. ft.	24 sq. ft.	12 sq. ft. (100%)

1. The applicant has demonstrated this benefit cannot be achieved by other means feasible to the applicant. The businesses requesting the interior facing signage are only accessible from the interior parking lot of the project. Wall signs for those businesses would not be feasible on the street side. The placement of a sign on the street side combined with the lack of an entrance for

those businesses on the street side would confuse pedestrian and vehicular traffic. The larger freestanding sign would be installed instead of 2 freestanding signs on separate parcels.

2. The applicant has demonstrated that granting this variance will not produce an undesirable change in neighborhood character or detriment to the nearby properties. The application states, "Internal parking signs are only seen from within the complex". The application also states, "The freestanding sign...would only face city property".
3. The relief requested is substantial. Signing not facing a street is not allowed and therefore a substantial variance is requested. This however is mitigated by the fact that additional signage will not be visible from residential areas and contained only within view of the parking lot.
4. The applicant has demonstrated this variance will not have an adverse physical or environmental effect on the neighborhood. No additional impermeable surfaces are planned.
5. The Board finds the difficulty is self-created which is not fatal to the application.

Adopted by the following vote:

AYES: 6 (K. Kaplan, A. McNeill, G. Hasbrouck, S. Carlson, S. Steer and C. Grey)

NAYES: 0

Dated: September 26, 2016

This variance shall expire 18 months following the filing date of such decision unless the necessary building permit has been issued and actual construction begun as per 240-8.5.1.
