When requesting an extension of time for an existing variance, the applicant must prove that the circumstances upon which the original variance was granted have not changed. Specifically demonstrate that there have been no significant changes on the site, in the neighborhood, or within the circumstances upon which the original variance was granted:

AREA VARIANCE – PLEASE ANSWER THE FOLLOWING (add additional information as necessary):

The applicant requests relief from the following Zoning Ordinance article(s) 2.3

Dimensional Requirements	From	To
30' SIDE SET BACK	30'	10'

Other: _____

To grant an area variance, the ZBA must balance the benefits to the applicant and the health, safety, and welfare of the neighborhood and community, taking into consideration the following:

1. Whether the benefit sought by the applicant can be achieved by other feasible means. Identify what alternatives to the variance have been explored (alternative designs, attempts to purchase land, etc.) and why they are not feasible.

There are no other alternatives then to place to 2 car garage where proposed. Needs to be next to current driveway & existing garage.

2. Whether granting the variance will produce an undesirable change in the character of the neighborhood or a detriment to nearby properties. Granting the variance will not create a detriment to nearby properties or an undesirable change in the neighborhood character for the following reasons:

It would not & Create an undesireable Change. Most of our neighbors have 3-4 car garages, while we only have a 2 car garage. Adding the additional garage will make our house more consistent with the other houses on our street.

3. Whether the variance is substantial. The requested variance is not substantial for the following reasons:

We are a family of 5. We need the additional garage space for our children's vehicles & for pool furniture storage. If we don't add garage, we'll have to park additional cars on grass which would be more problematic for our neighbors.

4. Whether the variance will have adverse physical or environmental effects on neighborhood or district. The requested variance will not have an adverse physical or environmental effect on the neighborhood or district for the following reasons:

We will not have adverse physical or environmental effects:
(1): additional vehicles stored in garage rather than on road or yard.
(2) Pool furniture stored in garage & not on property.

5. Whether the alleged difficulty was self-created (although this does not necessarily preclude the granting of an area variance). Explain whether the alleged difficulty was or was not self-created:

Our house was placed on property by our builder. We didn't realize house close one side of our house / driveway is to property line.
